§ 12113. Defenses**(a) In general**

It may be a defense to a charge of discrimination under this chapter that an alleged application of qualification standards, tests, or selection criteria that screen out or tend to screen out or otherwise deny a job or benefit to an individual with a disability has been shown to be job-related and consistent with business necessity, and such performance cannot be accomplished by reasonable accommodation, as required under this subchapter.

(b) Qualification standards

The term “qualification standards” may include a requirement that an individual shall not pose a direct threat to the health or safety of other individuals in the workplace.

(c) Religious entities**(1) In general**

This subchapter shall not prohibit a religious corporation, association, educational institution, or society from giving preference in employment to individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

(2) Religious tenets requirement

Under this subchapter, a religious organization may require that all applicants and employees conform to the religious tenets of such organization.

(d) List of infectious and communicable diseases**(1) In general**

The Secretary of Health and Human Services, not later than 6 months after July 26, 1990, shall—

(A) review all infectious and communicable diseases which may be transmitted through handling the food supply;

(B) publish a list of infectious and communicable diseases which are transmitted through handling the food supply;

(C) publish the methods by which such diseases are transmitted; and

(D) widely disseminate such information regarding the list of diseases and their modes of transmissibility¹ to the general public.

Such list shall be updated annually.

(2) Applications

In any case in which an individual has an infectious or communicable disease that is transmitted to others through the handling of food, that is included on the list developed by the Secretary of Health and Human Services under paragraph (1), and which cannot be eliminated by reasonable accommodation, a covered entity may refuse to assign or continue to assign such individual to a job involving food handling.

(3) Construction

Nothing in this chapter shall be construed to preempt, modify, or amend any State, county, or local law, ordinance, or regulation applicable to food handling which is designed to protect the public health from individuals who pose a significant risk to the health or safety of others, which cannot be eliminated by reasonable accommodation, pursuant to the list of infectious or communicable diseases and the modes of transmissibility¹ published by the Secretary of Health and Human Services.

(Pub. L. 101-336, title I, §103, July 26, 1990, 104 Stat. 333.)

¹ So in original. Probably should be “transmissibility”.

§ 12114. Illegal use of drugs and alcohol**(a) Qualified individual with a disability**

For purposes of this subchapter, the term “qualified individual with a disability” shall not include any employee or applicant who is currently engaging in the illegal use of drugs, when the covered entity acts on the basis of such use.

(b) Rules of construction

Nothing in subsection (a) of this section shall be construed to exclude as a qualified individual with a disability an individual who—

(1) has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of drugs, or has otherwise been rehabilitated successfully and is no longer engaging in such use;

(2) is participating in a supervised rehabilitation program and is no longer engaging in such use; or

(3) is erroneously regarded as engaging in such use, but is not engaging in such use;

except that it shall not be a violation of this chapter for a covered entity to adopt or administer reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual described in paragraph (1) or (2) is no longer engaging in the illegal use of drugs.

(c) Authority of covered entity

A covered entity—

(1) may prohibit the illegal use of drugs and the use of alcohol at the workplace by all employees;

(2) may require that employees shall not be under the influence of alcohol or be engaging in the illegal use of drugs at the workplace;

(3) may require that employees behave in conformance with the requirements established under the Drug-Free Workplace Act of 1988 (41 U.S.C. 701 et seq.);

(4) may hold an employee who engages in the illegal use of drugs or who is an alcoholic to the same qualification standards for employment or job performance and behavior that such entity holds other employees, even if any unsatisfactory performance or behavior is related to the drug use or alcoholism of such employee; and

(5) may, with respect to Federal regulations regarding alcohol and the illegal use of drugs, require that—

(A) employees comply with the standards established in such regulations of the Department of Defense, if the employees of the covered entity are employed in an industry subject to such regulations, including complying with regulations (if any) that apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Department of Defense);

(B) employees comply with the standards established in such regulations of the Nuclear Regulatory Commission, if the employees of the covered entity are employed in an industry subject to such regulations, including complying with regulations (if any) that

apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Nuclear Regulatory Commission); and (C) employees comply with the standards established in such regulations of the Department of Transportation, if the employees of the covered entity are employed in a transportation industry subject to such regulations, including complying with such regulations (if any) that apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Department of Transportation).

(d) Drug testing

(1) In general

For purposes of this subchapter, a test to determine the illegal use of drugs shall not be considered a medical examination.

(2) Construction

Nothing in this subchapter shall be construed to encourage, prohibit, or authorize the conducting of drug testing for the illegal use of drugs by job applicants or employees or making employment decisions based on such test results.

(e) Transportation employees

Nothing in this subchapter shall be construed to encourage, prohibit, restrict, or authorize the otherwise lawful exercise by entities subject to the jurisdiction of the Department of Transportation of authority to—

(1) test employees of such entities in, and applicants for, positions involving safety-sensitive duties for the illegal use of drugs and for on-duty impairment by alcohol; and

(2) remove such persons who test positive for illegal use of drugs and on-duty impairment by alcohol pursuant to paragraph (1) from safety-sensitive duties in implementing subsection (c) of this section.

EX. ORD. NO. 13217. COMMUNITY-BASED ALTERNATIVES FOR INDIVIDUALS WITH DISABILITIES

Ex. Ord. No. 13217, June 18, 2001, 66 F.R. 33155, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to place qualified individuals with disabilities in community settings whenever appropriate, it is hereby ordered as follows:

SECTION 1. *Policy.* This order is issued consistent with the following findings and principles:

(a) The United States is committed to community-based alternatives for individuals with disabilities and recognizes that such services advance the best interests of Americans.

(b) The United States seeks to ensure that America’s community-based programs effectively foster independence and participation in the community for Americans with disabilities.

(c) Unjustified isolation or segregation of qualified individuals with disabilities through institutionalization is a form of disability-based discrimination prohibited by Title II of the Americans With Disabilities Act of 1990 (ADA), 42 U.S.C. 12101 [12131] *et seq.* States must avoid disability-based discrimination unless doing so would fundamentally alter the nature of the service, program, or activity provided by the State.

(d) In *Olmstead v. L.C.*, 527 U.S. 581 (1999) (the “*Olmstead* decision”), the Supreme Court construed Title II of the ADA [42 U.S.C. 12131 *et seq.*] to require States to place qualified individuals with mental disabilities in community settings, rather than in institu-

tions, whenever treatment professionals determine that such placement is appropriate, the affected persons do not oppose such placement, and the State can reasonably accommodate the placement, taking into account the resources available to the State and the needs of others with disabilities.

(e) The Federal Government must assist States and localities to implement swiftly the *Olmstead* decision, so as to help ensure that all Americans have the opportunity to live close to their families and friends, to live more independently, to engage in productive employment, and to participate in community life.

SEC. 2. *Swift Implementation of the Olmstead Decision: Agency Responsibilities.* (a) The Attorney General, the Secretaries of Health and Human Services, Education, Labor, and Housing and Urban Development, and the Commissioner of the Social Security Administration shall work cooperatively to ensure that the *Olmstead* decision is implemented in a timely manner. Specifically, the designated agencies should work with States to help them assess their compliance with the *Olmstead* decision and the ADA [42 U.S.C. 12101 *et seq.*] in providing services to qualified individuals with disabilities in community-based settings, as long as such services are appropriate to the needs of those individuals. These agencies should provide technical guidance and work cooperatively with States to achieve the goals of Title II of the ADA [42 U.S.C. 12131 *et seq.*], particularly where States have chosen to develop comprehensive, effectively working plans to provide services to qualified individuals with disabilities in the most integrated settings. These agencies should also ensure that existing Federal resources are used in the most effective manner to support the goals of the ADA. The Secretary of Health and Human Services shall take the lead in coordinating these efforts.

(b) The Attorney General, the Secretaries of Health and Human Services, Education, Labor, and Housing and Urban Development, and the Commissioner of the Social Security Administration shall evaluate the policies, programs, statutes, and regulations of their respective agencies to determine whether any should be revised or modified to improve the availability of community-based services for qualified individuals with disabilities. The review shall focus on identifying affected populations, improving the flow of information about supports in the community, and removing barriers that impede opportunities for community placement. The review should ensure the involvement of consumers, advocacy organizations, providers, and relevant agency representatives. Each agency head should report to the President, through the Secretary of Health and Human Services, with the results of their evaluation within 120 days.

(c) The Attorney General and the Secretary of Health and Human Services shall fully enforce Title II of the ADA, including investigating and resolving complaints filed on behalf of individuals who allege that they have been the victims of unjustified institutionalization. Whenever possible, the Department of Justice and the Department of Health and Human Services should work cooperatively with States to resolve these complaints, and should use alternative dispute resolution to bring these complaints to a quick and constructive resolution.

(d) The agency actions directed by this order shall be done consistent with this Administration’s budget.

SEC. 3. *Judicial Review.* Nothing in this order shall affect any otherwise available judicial review of agency action. This order is intended only to improve the internal management of the Federal Government and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

GEORGE W. BUSH.

With respect to “program accessibility, existing facilities”, and “communications”, such regulations shall be consistent with regulations and analysis as in part 39 of title 28 of the Code of Federal Regulations, applicable to federally conducted activities under section 794 of title 29.

(c) Standards

Regulations under subsection (a) of this section shall include standards applicable to facilities and vehicles covered by this part, other than facilities, stations, rail passenger cars, and vehicles covered by part B of this subchapter. Such standards shall be consistent with the minimum guidelines and requirements issued by the Architectural and Transportation Barriers Compliance Board in accordance with section 12204(a) of this title.

(3) Fixed route system

The term “fixed route system” means a system of providing designated public transportation on which a vehicle is operated along a prescribed route according to a fixed schedule.

§ 12142. Public entities operating fixed route systems

(a) Purchase and lease of new vehicles

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system to purchase or lease a new

bus, a new rapid rail vehicle, a new light rail vehicle, or any other new vehicle to be used on such system, if the solicitation for such purchase or lease is made after the 30th day following July 26, 1990, and if such bus, rail vehicle, or other vehicle is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) Purchase and lease of used vehicles

Subject to subsection (c)(1) of this section, it shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system to purchase or lease, after the 30th day following July 26, 1990, a used vehicle for use on such system unless such entity makes demonstrated good faith efforts to purchase or lease a used vehicle for use on such system that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Remanufactured vehicles

(1) General rule

Except as provided in paragraph (2), it shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system—

(A) to remanufacture a vehicle for use on such system so as to extend its usable life for 5 years or more, which remanufacture begins (or for which the solicitation is made) after the 30th day following July 26, 1990; or

(B) to purchase or lease for use on such system a remanufactured vehicle which has been remanufactured so as to extend its usable life for 5 years or more, which purchase or lease occurs after such 30th day and during the period in which the usable life is extended;

unless, after remanufacture, the vehicle is, to the maximum extent feasible, readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(2) Exception for historic vehicles

(A) General rule

If a public entity operates a fixed route system any segment of which is included on the National Register of Historic Places and if making a vehicle of historic character to be used solely on such segment readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of paragraph (1) and which do not significantly alter the historic character of such vehicle.

(B) Vehicles of historic character defined by regulations

For purposes of this paragraph and section 12148(b) of this title, a vehicle of historic character shall be defined by the regulations issued by the Secretary to carry out this subsection.

§ 12143. Paratransit as a complement to fixed route service

(a) General rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a public entity which operates a fixed route system (other than a system which provides solely commuter bus service) to fail to provide with respect to the operations of its fixed route system, in accordance with this section, paratransit and other special transportation services to individuals with disabilities, including individuals who use wheelchairs, that are sufficient to provide to such individuals a level of service (1) which is comparable to the level of designated public transportation services provided to individuals without disabilities using such system; or (2) in the case of response time, which is comparable, to the extent practicable, to the level of designated public transportation services provided to individuals without disabilities using such system.

(b) Issuance of regulations

Not later than 1 year after July 26, 1990, the Secretary shall issue final regulations to carry out this section.

(c) Required contents of regulations

(1) Eligible recipients of service

The regulations issued under this section shall require each public entity which operates a fixed route system to provide the paratransit and other special transportation services required under this section—

(A)(i) to any individual with a disability who is unable, as a result of a physical or mental impairment (including a vision impairment) and without the assistance of another individual (except an operator of a wheelchair lift or other boarding assistance device), to board, ride, or disembark from any vehicle on the system which is readily accessible to and usable by individuals with disabilities;

(ii) to any individual with a disability who needs the assistance of a wheelchair lift or other boarding assistance device (and is able with such assistance) to board, ride, and disembark from any vehicle which is readily accessible to and usable by individuals with disabilities if the individual wants to travel on a route on the system during the hours of operation of the system at a time (or within a reasonable period of such time) when such a vehicle is not being used to provide designated public transportation on the route; and

(iii) to any individual with a disability who has a specific impairment-related condition which prevents such individual from traveling to a boarding location or from a disembarking location on such system;

(B) to one other individual accompanying the individual with the disability; and

(C) to other individuals, in addition to the one individual described in subparagraph (B), accompanying the individual with a disability provided that space for these additional individuals is available on the paratransit vehicle carrying the individual with a disability and that the transportation of such additional individuals will not result in a denial of service to individuals with disabilities.

For purposes of clauses (i) and (ii) of subparagraph (A), boarding or disembarking from a vehicle does not include travel to the boarding location or from the disembarking location.

(2) Service area

The regulations issued under this section shall require the provision of paratransit and special transportation services required under this section in the service area of each public entity which operates a fixed route system, other than any portion of the service area in which the public entity solely provides commuter bus service.

(3) Service criteria

Subject to paragraphs (1) and (2), the regulations issued under this section shall establish minimum service criteria for determining the level of services to be required under this section.

(4) Undue financial burden limitation

The regulations issued under this section shall provide that, if the public entity is able to demonstrate to the satisfaction of the Secretary that the provision of paratransit and other special transportation services otherwise required under this section would impose an undue financial burden on the public entity, the public entity, notwithstanding any other provision of this section (other than paragraph (5)), shall only be required to provide such services to the extent that providing such services would not impose such a burden.

(5) Additional services

The regulations issued under this section shall establish circumstances under which the Secretary may require a public entity to provide, notwithstanding paragraph (4), paratransit and other special transportation services under this section beyond the level of paratransit and other special transportation services which would otherwise be required under paragraph (4).

(6) Public participation

The regulations issued under this section shall require that each public entity which operates a fixed route system hold a public hearing, provide an opportunity for public comment, and consult with individuals with disabilities in preparing its plan under paragraph (7).

(7) Plans

The regulations issued under this section shall require that each public entity which operates a fixed route system—

(A) within 18 months after July 26, 1990, submit to the Secretary, and commence im-

plementation of, a plan for providing paratransit and other special transportation services which meets the requirements of this section; and

(B) on an annual basis thereafter, submit to the Secretary, and commence implementation of, a plan for providing such services.

(8) Provision of services by others

The regulations issued under this section shall—

(A) require that a public entity submitting a plan to the Secretary under this section identify in the plan any person or other public entity which is providing a paratransit or other special transportation service for individuals with disabilities in the service area to which the plan applies; and

(B) provide that the public entity submitting the plan does not have to provide under the plan such service for individuals with disabilities.

(9) Other provisions

The regulations issued under this section shall include such other provisions and requirements as the Secretary determines are necessary to carry out the objectives of this section.

(d) Review of plan

(1) General rule

The Secretary shall review a plan submitted under this section for the purpose of determining whether or not such plan meets the requirements of this section, including the regulations issued under this section.

(2) Disapproval

If the Secretary determines that a plan reviewed under this subsection fails to meet the requirements of this section, the Secretary shall disapprove the plan and notify the public entity which submitted the plan of such disapproval and the reasons therefor.

(3) Modification of disapproved plan

Not later than 90 days after the date of disapproval of a plan under this subsection, the public entity which submitted the plan shall modify the plan to meet the requirements of this section and shall submit to the Secretary, and commence implementation of, such modified plan.

(e) "Discrimination" defined

As used in subsection (a) of this section, the term "discrimination" includes—

(1) a failure of a public entity to which the regulations issued under this section apply to submit, or commence implementation of, a plan in accordance with subsections (c)(6) and (c)(7) of this section;

(2) a failure of such entity to submit, or commence implementation of, a modified plan in accordance with subsection (d)(3) of this section;

(3) submission to the Secretary of a modified plan under subsection (d)(3) of this section which does not meet the requirements of this section; or

(4) a failure of such entity to provide paratransit or other special transportation serv-

ices in accordance with the plan or modified plan the public entity submitted to the Secretary under this section.

(f) Statutory construction

Nothing in this section shall be construed as preventing a public entity—

(1) from providing paratransit or other special transportation services at a level which is greater than the level of such services which are required by this section,

(2) from providing paratransit or other special transportation services in addition to those paratransit and special transportation services required by this section, or

(3) from providing such services to individuals in addition to those individuals to whom such services are required to be provided by this section.

(a) Granting

With respect to the purchase of new buses, a public entity may apply for, and the Secretary may temporarily relieve such public entity from the obligation under section 12142(a) or 12144 of this title to purchase new buses that are readily accessible to and usable by individuals with disabilities if such public entity demonstrates to the satisfaction of the Secretary—

(1) that the initial solicitation for new buses made by the public entity specified that all new buses were to be lift-equipped and were to be otherwise accessible to and usable by individuals with disabilities;

(2) the unavailability from any qualified manufacturer of hydraulic, electromechanical, or other lifts for such new buses;

(3) that the public entity seeking temporary relief has made good faith efforts to locate a qualified manufacturer to supply the lifts to the manufacturer of such buses in sufficient time to comply with such solicitation; and

(4) that any further delay in purchasing new buses necessary to obtain such lifts would significantly impair transportation services in the community served by the public entity.

(b) Duration and notice to Congress

Any relief granted under subsection (a) of this section shall be limited in duration by a specified date, and the appropriate committees of Congress shall be notified of any such relief granted.

(c) Fraudulent application

(2) take such other action as the Secretary considers appropriate.

§ 12146. New facilities

For purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity to construct a new facility to be used in the provision of designated public transportation services unless such facility is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

§ 12147. Alterations of existing facilities

(a) General rule

With respect to alterations of an existing facility or part thereof used in the provision of designated public transportation services that affect or could affect the usability of the facility or part thereof, it shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, for a public entity to fail to make such alterations (or to ensure that the alterations are made) in such a manner that, to the maximum extent feasible, the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon the completion of such alterations. Where the public entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the

entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(b) Special rule for stations

(1) General rule

For purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity that provides designated public transportation to fail, in accordance with the provisions of this subsection, to make key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(2) Rapid rail and light rail key stations

(A) Accessibility

Except as otherwise provided in this paragraph, all key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 3-year period beginning on July 26, 1990.

(B) Extension for extraordinarily expensive structural changes

The Secretary may extend the 3-year period under subparagraph (A) up to a 30-year period for key stations in a rapid rail or light rail system which stations need extraordinarily expensive structural changes to, or replacement of, existing facilities; except that by the last day of the 20th year following July 26, 1990, at least $\frac{2}{3}$ of such key stations must be readily accessible to and usable by individuals with disabilities.

(3) Plans and milestones

The Secretary shall require the appropriate public entity to develop and submit to the Secretary a plan for compliance with this subsection—

(A) that reflects consultation with individuals with disabilities affected by such plan and the results of a public hearing and public comments on such plan, and

§ 12148. Public transportation programs and activities in existing facilities and one car per train rule

(a) Public transportation programs and activities in existing facilities

(1) In general

With respect to existing facilities used in the provision of designated public transportation services, it shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, for a public entity to fail to operate a designated public transportation program or activity conducted in such facilities so that, when viewed in the entirety, the program or activity is readily accessible to and usable by individuals with disabilities.

(2) Exception

Paragraph (1) shall not require a public entity to make structural changes to existing facilities in order to make such facilities accessible to individuals who use wheelchairs, unless and to the extent required by section 12147(a) of this title (relating to alterations) or section 12147(b) of this title (relating to key stations).

(3) Utilization

Paragraph (1) shall not require a public entity to which paragraph (2) applies, to provide to individuals who use wheelchairs services made available to the general public at such facilities when such individuals could not utilize or benefit from such services provided at such facilities.

(b) One car per train rule

(1) General rule

Subject to paragraph (2), with respect to 2 or more vehicles operated as a train by a light or rapid rail system, for purposes of section 12132 of this title and section 794 of title 29, it shall be considered discrimination for a public entity to fail to have at least 1 vehicle per train that is accessible to individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 5-year period beginning on the effective date of this section.

(2) Historic trains

In order to comply with paragraph (1) with respect to the remanufacture of a vehicle of historic character which is to be used on a segment of a light or rapid rail system which is included on the National Register of Historic Places, if making such vehicle readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity which operates such system only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of section 12142(c)(1) of this title and which do not significantly alter the historic character of such vehicle.

(d) Remanufactured rail cars**(1) Remanufacturing**

It shall be considered discrimination for purposes of section 12132 of this title and section

794 of title 29 for a person to remanufacture a rail passenger car for use in intercity or commuter rail transportation so as to extend its usable life for 10 years or more, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(2) Purchase or lease

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to purchase or lease a remanufactured rail passenger car for use in intercity or commuter rail transportation unless such car was remanufactured in accordance with paragraph (1).

(e) Stations

(1) New stations

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a person to build a new station for use in intercity or commuter rail transportation that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(2) Existing stations

(A) Failure to make readily accessible

(i) General rule

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for a responsible person to fail to make existing stations in the intercity rail transportation system, and existing key stations in commuter rail transportation systems, readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 12164 of this title.

(ii) Period for compliance

(I) Intercity rail

All stations in the intercity rail transportation system shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable, but in no event later than 20 years after July 26, 1990.

(II) Commuter rail

Key stations in commuter rail transportation systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than 3 years after July 26, 1990, except that the time limit may be extended by the Secretary of Transportation up to 20 years after July 26, 1990, in a case where the raising of the entire passenger platform is the

only means available of attaining accessibility or where other extraordinarily expensive structural changes are necessary to attain accessibility.

(iii) Designation of key stations

Each commuter authority shall designate the key stations in its commuter rail transportation system, in consultation with individuals with disabilities and organizations representing such individuals, taking into consideration such factors as high ridership and whether such station serves as a transfer or feeder station. Before the final designation of key stations under this clause, a commuter authority shall hold a public hearing.

(iv) Plans and milestones

The Secretary of Transportation shall require the appropriate person to develop a plan for carrying out this subparagraph that reflects consultation with individuals with disabilities affected by such plan and that establishes milestones for achievement of the requirements of this subparagraph.

(B) Requirement when making alterations

(i) General rule

It shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, with respect to alterations of an existing station or part thereof in the intercity or commuter rail transportation systems that affect or could affect the usability of the station or part thereof, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the altered portions of the station are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations.

(ii) Alterations to a primary function area

It shall be considered discrimination, for purposes of section 12132 of this title and section 794 of title 29, with respect to alterations that affect or could affect the usability of or access to an area of the station containing a primary function, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area, and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(C) Required cooperation

It shall be considered discrimination for purposes of section 12132 of this title and section 794 of title 29 for an owner, or person in control, of a station governed by subparagraph (A) or (B) to fail to provide reasonable cooperation to a responsible person with respect to such station in that responsible person's efforts to comply with such subparagraph. An owner, or person in control, of a station shall be liable to a responsible person for any failure to provide reasonable cooperation as required by this subparagraph. Failure to receive reasonable cooperation required by this subparagraph shall not be a defense to a claim of discrimination under this chapter.

§ 12182. Prohibition of discrimination by public accommodations

(a) General rule

No individual shall be discriminated against on the basis of disability in the full and equal enjoyment of the goods, services, facilities, privileges, advantages, or accommodations of any place of public accommodation by any person who owns, leases (or leases to), or operates a place of public accommodation.

(b) Construction

(1) General prohibition

(A) Activities

(i) Denial of participation

It shall be discriminatory to subject an individual or class of individuals on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements, to a denial of the opportunity of the individual or class to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodations of an entity.

(ii) Participation in unequal benefit

It shall be discriminatory to afford an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with the opportunity to participate in or benefit from a good, service, facility, privilege, advantage, or accommodation that is not equal to that afforded to other individuals.

(iii) Separate benefit

It shall be discriminatory to provide an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with a good, service, facility, privilege, advantage, or accommodation that is different or separate from that provided to other individuals, unless such action is necessary to provide the individual or class of individuals with a good, service, facility, privilege, advantage, or accommodation, or other opportunity that is as effective as that provided to others.

(iv) Individual or class of individuals

For purposes of clauses (i) through (iii) of this subparagraph, the term “individual

or class of individuals” refers to the clients or customers of the covered public accommodation that enters into the contractual, licensing or other arrangement.

(B) Integrated settings

Goods, services, facilities, privileges, advantages, and accommodations shall be afforded to an individual with a disability in the most integrated setting appropriate to the needs of the individual.

(C) Opportunity to participate

Notwithstanding the existence of separate or different programs or activities provided in accordance with this section, an individual with a disability shall not be denied the opportunity to participate in such programs or activities that are not separate or different.

(D) Administrative methods

An individual or entity shall not, directly or through contractual or other arrangements, utilize standards or criteria or methods of administration—

(i) that have the effect of discriminating on the basis of disability; or

(ii) that perpetuate the discrimination of others who are subject to common administrative control.

(E) Association

It shall be discriminatory to exclude or otherwise deny equal goods, services, facilities, privileges, advantages, accommodations, or other opportunities to an individual or entity because of the known disability of an individual with whom the individual or entity is known to have a relationship or association.

(2) Specific prohibitions

(A) Discrimination

For purposes of subsection (a) of this section, discrimination includes—

(i) the imposition or application of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully and equally enjoying any goods, services, facilities, privileges, advantages, or accommodations, unless such criteria can be shown to be necessary for the provision of the goods, services, facilities, privileges, advantages, or accommodations being offered;

(ii) a failure to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford such goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such goods, services, facilities, privileges, advantages, or accommodations;

(iii) a failure to take such steps as may be necessary to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated dif-

ferently than other individuals because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the good, service, facility, privilege, advantage, or accommodation being offered or would result in an undue burden;

(iv) a failure to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities, and transportation barriers in existing vehicles and rail passenger cars used by an establishment for transporting individuals (not including barriers that can only be removed through the retrofitting of vehicles or rail passenger cars by the installation of a hydraulic or other lift), where such removal is readily achievable; and

(v) where an entity can demonstrate that the removal of a barrier under clause (iv) is not readily achievable, a failure to make such goods, services, facilities, privileges, advantages, or accommodations available through alternative methods if such methods are readily achievable.

(B) Fixed route system

(i) Accessibility

It shall be considered discrimination for a private entity which operates a fixed route system and which is not subject to section 12184 of this title to purchase or lease a vehicle with a seating capacity in excess of 16 passengers (including the driver) for use on such system, for which a solicitation is made after the 30th day following the effective date of this subparagraph, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(ii) Equivalent service

If a private entity which operates a fixed route system and which is not subject to section 12184 of this title purchases or leases a vehicle with a seating capacity of 16 passengers or less (including the driver) for use on such system after the effective date of this subparagraph that is not readily accessible to or usable by individuals with disabilities, it shall be considered discrimination for such entity to fail to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities.

(C) Demand responsive system

For purposes of subsection (a) of this section, discrimination includes—

(i) a failure of a private entity which operates a demand responsive system and which is not subject to section 12184 of this title to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of

service provided to individuals without disabilities; and

(ii) the purchase or lease by such entity for use on such system of a vehicle with a seating capacity in excess of 16 passengers (including the driver), for which solicitations are made after the 30th day following the effective date of this subparagraph, that is not readily accessible to and usable by individuals with disabilities (including individuals who use wheelchairs) unless such entity can demonstrate that such system, when viewed in its entirety, provides a level of service to individuals with disabilities equivalent to that provided to individuals without disabilities.

(D) Over-the-road buses

(i) Limitation on applicability

Subparagraphs (B) and (C) do not apply to over-the-road buses.

(ii) Accessibility requirements

For purposes of subsection (a) of this section, discrimination includes (I) the purchase or lease of an over-the-road bus which does not comply with the regulations issued under section 12186(a)(2) of this title by a private entity which provides transportation of individuals and which is not primarily engaged in the business of transporting people, and (II) any other failure of such entity to comply with such regulations.

(3) Specific construction

Nothing in this subchapter shall require an entity to permit an individual to participate in or benefit from the goods, services, facilities, privileges, advantages and accommodations of such entity where such individual poses a direct threat to the health or safety of others. The term “direct threat” means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures or by the provision of auxiliary aids or services.

§ 12183. New construction and alterations in public accommodations and commercial facilities

(a) Application of term

Except as provided in subsection (b) of this section, as applied to public accommodations and commercial facilities, discrimination for purposes of section 12182(a) of this title includes—

(1) a failure to design and construct facilities for first occupancy later than 30 months after July 26, 1990, that are readily accessible to and usable by individuals with disabilities, except where an entity can demonstrate that it is structurally impracticable to meet the requirements of such subsection in accordance with standards set forth or incorporated by reference in regulations issued under this subchapter; and

(2) with respect to a facility or part thereof that is altered by, on behalf of, or for the use of an establishment in a manner that affects or could affect the usability of the facility or part thereof, a failure to make alterations in such a manner that, to the maximum extent feasible, the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Where the entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(b) Elevator

Subsection (a) of this section shall not be construed to require the installation of an elevator for facilities that are less than three stories or have less than 3,000 square feet per story unless the building is a shopping center, a shopping mall, or the professional office of a health care provider or unless the Attorney General determines that a particular category of such facilities requires the installation of elevators based on the usage of such facilities.

§ 12184. Prohibition of discrimination in specified public transportation services provided by private entities

(a) General rule

No individual shall be discriminated against on the basis of disability in the full and equal enjoyment of specified public transportation services provided by a private entity that is primarily engaged in the business of transporting people and whose operations affect commerce.

(b) Construction

For purposes of subsection (a) of this section, discrimination includes—

(1) the imposition or application by a¹ entity described in subsection (a) of this section of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully enjoying the specified public transportation services provided by the entity, unless such criteria can be shown to be necessary for the provision of the services being offered;

(2) the failure of such entity to—

(A) make reasonable modifications consistent with those required under section 12182(b)(2)(A)(ii) of this title;

(B) provide auxiliary aids and services consistent with the requirements of section 12182(b)(2)(A)(iii) of this title; and

(C) remove barriers consistent with the requirements of section 12182(b)(2)(A) of this title and with the requirements of section 12183(a)(2) of this title;

(3) the purchase or lease by such entity of a new vehicle (other than an automobile, a van with a seating capacity of less than 8 passengers, including the driver, or an over-the-road bus) which is to be used to provide specified public transportation and for which a solicitation is made after the 30th day following the effective date of this section, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs; except that the new vehicle need not be readily accessible to and usable by such individuals if the new vehicle is to be used solely in a demand responsive system and if the entity can demonstrate that such system, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service provided to the general public;

(4)(A) the purchase or lease by such entity of an over-the-road bus which does not comply with the regulations issued under section 12186(a)(2) of this title; and

(B) any other failure of such entity to comply with such regulations; and

(5) the purchase or lease by such entity of a new van with a seating capacity of less than 8 passengers, including the driver, which is to be used to provide specified public transportation and for which a solicitation is made after the 30th day following the effective date of this section that is not readily accessible to or usable by individuals with disabilities, including individuals who use wheelchairs; except that the new van need not be readily accessible to and usable by such individuals if the entity can demonstrate that the system for which the van is being purchased or leased, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service provided to the general public;

(6) the purchase or lease by such entity of a new rail passenger car that is to be used to provide specified public transportation, and for which a solicitation is made later than 30 days after the effective date of this paragraph, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs; and

¹ So in original. Probably should be "an".

(7) the remanufacture by such entity of a rail passenger car that is to be used to provide specified public transportation so as to extend its usable life for 10 years or more, or the purchase or lease by such entity of such a rail car, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Historical or antiquated cars

(1) Exception

To the extent that compliance with subsection (b)(2)(C) or (b)(7) of this section would significantly alter the historic or antiquated character of a historical or antiquated rail passenger car, or a rail station served exclusively by such cars, or would result in violation of any rule, regulation, standard, or order issued by the Secretary of Transportation under the Federal Railroad Safety Act of 1970, such compliance shall not be required.

(2) Definition

As used in this subsection, the term “historical or antiquated rail passenger car” means a rail passenger car—

(A) which is not less than 30 years old at the time of its use for transporting individuals;

(B) the manufacturer of which is no longer in the business of manufacturing rail passenger cars; and

§ 12185. Study

(a) Purposes

The Office of Technology Assessment shall undertake a study to determine—

(1) the access needs of individuals with disabilities to over-the-road buses and over-the-road bus service; and

(2) the most cost-effective methods for providing access to over-the-road buses and over-the-road bus service to individuals with disabilities, particularly individuals who use wheelchairs, through all forms of boarding options.

(b) Contents

The study shall include, at a minimum, an analysis of the following:

(1) The anticipated demand by individuals with disabilities for accessible over-the-road buses and over-the-road bus service.

(2) The degree to which such buses and service, including any service required under sections 12184(b)(4) and 12186(a)(2) of this title, are readily accessible to and usable by individuals with disabilities.

(3) The effectiveness of various methods of providing accessibility to such buses and service to individuals with disabilities.

(4) The cost of providing accessible over-the-road buses and bus service to individuals with disabilities, including consideration of recent technological and cost saving developments in equipment and devices.

(5) Possible design changes in over-the-road buses that could enhance accessibility, including the installation of accessible restrooms which do not result in a loss of seating capacity.

(6) The impact of accessibility requirements on the continuation of over-the-road bus service, with particular consideration of the impact of such requirements on such service to rural communities.

(c) Advisory committee

In conducting the study required by subsection (a) of this section, the Office of Technology Assessment shall establish an advisory committee, which shall consist of—

(1) members selected from among private operators and manufacturers of over-the-road buses;

(2) members selected from among individuals with disabilities, particularly individuals who use wheelchairs, who are potential riders of such buses; and

(3) members selected for their technical expertise on issues included in the study, including manufacturers of boarding assistance equipment and devices.

The number of members selected under each of paragraphs (1) and (2) shall be equal, and the total number of members selected under paragraphs (1) and (2) shall exceed the number of members selected under paragraph (3).

(d) Deadline

The study required by subsection (a) of this section, along with recommendations by the Office of Technology Assessment, including any policy options for legislative action, shall be

submitted to the President and Congress within 36 months after July 26, 1990. If the President determines that compliance with the regulations issued pursuant to section 12186(a)(2)(B) of this title on or before the applicable deadlines specified in section 12186(a)(2)(B) of this title will result in a significant reduction in intercity over-the-road bus service, the President shall extend each such deadline by 1 year.

(e) Review

In developing the study required by subsection (a) of this section, the Office of Technology Assessment shall provide a preliminary draft of such study to the Architectural and Transportation Barriers Compliance Board established under section 792 of title 29. The Board shall have an opportunity to comment on such draft study, and any such comments by the Board made in writing within 120 days after the Board's receipt of the draft study shall be incorporated as part of the final study required to be submitted under subsection (d) of this section.

(a) In general

(1) Availability of remedies and procedures

The remedies and procedures set forth in section 2000a-3(a) of this title are the remedies and procedures this subchapter provides to any person who is being subjected to discrimination on the basis of disability in violation of this subchapter or who has reasonable grounds for believing that such person is about to be subjected to discrimination in violation of section 12183 of this title. Nothing in this section shall require a person with a disability to engage in a futile gesture if such person has actual notice that a person or organization covered by this subchapter does not intend to comply with its provisions.

(2) Injunctive relief

Where appropriate, injunctive relief shall also include requiring the provision of an auxiliary aid or service, modification of a policy, or provision of alternative methods, to the extent required by this subchapter.

(b) Enforcement by Attorney General

(1) Denial of rights

(A) Duty to investigate

(i) In general

At any enforcement proceeding under this section, such certification by the Attorney General shall be rebuttable evidence that such State law or local ordinance does meet or exceed the minimum requirements of this chapter.

(B) Potential violation

If the Attorney General has reasonable cause to believe that—

- (i) any person or group of persons is engaged in a pattern or practice of discrimination under this subchapter; or
- (ii) any person or group of persons has been discriminated against under this subchapter and such discrimination raises an issue of general public importance,

the Attorney General may commence a civil action in any appropriate United States district court.

(A) may grant any equitable relief that such court considers to be appropriate, including, to the extent required by this subchapter—

- (ii) providing an auxiliary aid or service, modification of policy, practice, or procedure, or alternative method; and
- (iii) making facilities readily accessible to and usable by individuals with disabilities;

(B) may award such other relief as the court considers to be appropriate, including monetary damages to persons aggrieved when requested by the Attorney General; and

(C) may, to vindicate the public interest, assess a civil penalty against the entity in an amount—

- (i) not exceeding \$50,000 for a first violation; and
- (ii) not exceeding \$100,000 for any subsequent violation.

(3) Single violation

For purposes of paragraph (2)(C), in determining whether a first or subsequent violation has occurred, a determination in a single action, by judgment or settlement, that the covered entity has engaged in more than one discriminatory act shall be counted as a single violation.

(4) Punitive damages

For purposes of subsection (b)(2)(B) of this section, the term “monetary damages” and

“such other relief” does not include punitive damages.

(5) Judicial consideration

In a civil action under paragraph (1)(B), the court, when considering what amount of civil penalty, if any, is appropriate, shall give consideration to any good faith effort or attempt to comply with this chapter by the entity. In evaluating good faith, the court shall consider, among other factors it deems relevant, whether the entity could have reasonably anticipated the need for an appropriate type of auxiliary aid needed to accommodate the unique needs of a particular individual with a disability.

SUBCHAPTER II—WHITE HOUSE CONFERENCE ON CHILDREN, YOUTH, AND FAMILIES

§ 12371. Findings

(a) Findings

The Congress finds that—

(1) children and youth are inherently our most valuable resource and their welfare, protection, healthy development, and positive role in society are essential to the Nation;

(2) children and youth deserve love, respect, and guidance, as well as good health, shelter, food, education, productive work, and preparation for responsible participation in community life;

(3) an increasing opportunity for children and youth to participate in the decisions that affect their lives is essential;

(4) the family is the primary caregiver and the source of social learning which must be supported and strengthened, but when families are unable to ensure the satisfaction of the needs of children and youth, it is society’s responsibility to assist them;

(5) at a minimum, all children and youth need and deserve access to—

(A) the best possible physical and mental health;

(B) adequate and safe physical shelter;

(C) the highest quality of educational opportunity;

(D) effective training, apprenticeships, opportunities for community service, and productive employment;

(E) the widest range of civic, cultural, and recreational activities which recognize young Americans as resources and promote self-esteem and a stake in their communities;

(F) comprehensive community services which are efficient, coordinated, and readily available; and

(G) genuine participation in decisions concerning the planning and managing of their lives; and

(6) there is a great need for a comprehensive national policy with respect to young individuals, designed to engage Federal, State, and local government agencies, youth organizations, and other voluntary organizations.

(b) Statement of policy

It is the policy of the Congress that the Federal Government should work jointly with the States and their citizens to develop recommendations and plans for action to meet the challenge and needs of young individuals.

§ 12501. Findings and purpose

(a) Findings

The Congress finds the following:

(1) Throughout the United States, there are pressing unmet human, educational, environmental, and public safety needs.

(2) Americans desire to affirm common responsibilities and shared values, and join together in positive experiences, that transcend race, religion, gender, age, disability, region, income, and education.

(3) The rising costs of postsecondary education are putting higher education out of reach for an increasing number of citizens.

(4) Americans of all ages can improve their communities and become better citizens through service to the United States.

(5) Nonprofit organizations, local governments, States, and the Federal Government are already supporting a wide variety of national service programs that deliver needed services in a cost-effective manner.

(6) Residents of low-income communities, especially youth and young adults, can be empowered through their service, and can help provide future community leadership.

(b) Purpose

It is the purpose of this chapter to—

(1) meet the unmet human, educational, environmental, and public safety needs of the United States, without displacing existing workers;

(2) renew the ethic of civic responsibility and the spirit of community throughout the United States;

(3) expand educational opportunity by rewarding individuals who participate in national service with an increased ability to pursue higher education or job training;

(4) encourage citizens of the United States, regardless of age, income, or disability, to engage in full-time or part-time national service;

(5) reinvent government to eliminate duplication, support locally established initiatives, require measurable goals for performance, and offer flexibility in meeting those goals;

(6) expand and strengthen existing service programs with demonstrated experience in providing structured service opportunities with visible benefits to the participants and community;

(7) build on the existing organizational service infrastructure of Federal, State, and local programs and agencies to expand full-time and part-time service opportunities for all citizens; and

(8) provide tangible benefits to the communities in which national service is performed.

EX. ORD. No. 13317. VOLUNTEERS FOR PROSPERITY

Ex. Ord. No. 13317, Sept. 25, 2003, 68 F.R. 56515, as amended by Ex. Ord. No. 13418, Dec. 14, 2006, 71 F.R. 75647, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to encourage volunteer service by highly skilled Americans to support major initiatives by the United States for promoting health and prosperity around the world, it is hereby ordered as follows:

SECTION 1. (a) *Policy.* A part of USA Freedom Corps, "Volunteers for Prosperity" is a call to service to support major U.S. initiatives that promote health and prosperity around the world. Deploying highly skilled volunteers abroad is an efficient way to use our resources consistent with the objectives of the United States Government's global prosperity agenda. United States volunteers will help to achieve the objectives of the global prosperity agenda, including providing clean water to the poor, promoting democratic governance, developing economic freedom, promoting free and open markets, stemming the spread of HIV/AIDS and controlling malaria.

The investment of Federal resources to enable U.S. volunteers to work with nongovernmental and voluntary service organizations overseas is a preferred use of our resources and also will help leverage private sector resources. United States citizens who are skilled professionals and who volunteer, when matched with organizations working on specific U.S. prosperity initiatives overseas, can provide invaluable support for these initiatives and will supplement and complement the traditions and accomplishments of the Peace Corps.

United States prosperity initiatives that can benefit from volunteer service include, but are not limited to, the Emergency Plan for AIDS Relief, the Digital Freedom Initiative, the Water for the Poor Initiative, the Trade for African Development and Enterprise Initiative, the Middle East Partnership Initiative, and the President's Malaria Initiative.

Volunteer service in support of other initiatives, consistent with U.S. foreign policy, shall be considered as well.

(b) *Applicability.* The following agencies are subject to the requirements of this order: the United States Agency for International Development (USAID), the Department of State, the Department of Commerce, the Department of Health and Human Services, and such other Federal agencies as the President may designate in the future.

SEC. 2. *Establishment.* (a) Agencies subject to this order shall each establish within their respective organizations an Office for Volunteers for Prosperity (Office) or, as appropriate, an operating unit within an office.

(b) Each agency subject to this order shall provide its Office or unit with appropriate staff, administrative support, and resources to meet its responsibilities under this order.

(c) Each of these Offices or units shall begin operations no later than 30 days from the date of this order.

(d) Agencies subject to this order shall consider, in evaluating grant applications for assistance activities to be implemented abroad, the applicant's use of highly skilled U.S. volunteers to support U.S. prosperity objectives and initiatives.

SEC. 3. *Purpose.* To the extent permitted by law, the purpose of the Offices will be to promote, expand, and enhance well-defined volunteer service opportunities for highly skilled U.S. professionals who wish to work with nongovernmental and voluntary service organizations around the world in support of major U.S. prosperity initiatives as identified in section 1 of this order. Such promotion, expansion, and enhancement would include actively participating in the design and selection processes for grants within their agencies, tracking the use of U.S. private volunteer organizations by their agencies, and coordinating with White House Offices including the USA Freedom Corps, the Office of National AIDS Policy, and the Office of Faith-Based and Community Initiatives, as appropriate.

SEC. 4. *Funding.* Agencies subject to this order are hereby directed to use their best efforts to use funds available for the U.S. prosperity initiatives listed in section 1 of this order to provide appropriate support to organizations that use highly skilled U.S. volunteers to accomplish the objectives identified in those initiatives.

SEC. 5. *Coordination.* The USAID shall serve as the inter-agency coordinator for the Volunteers for Prosperity initiative. In that capacity, the USAID shall coordinate the activities that fall within the scope of the initiative and report on the progress of the initiative to the USA Freedom Corps Office, within the White House Office. The reports shall be submitted within 180 days after the date of this order and annually thereafter. The USA Freedom Corps Council shall encourage consistency in policies and practices within the agencies subject to this order, as appropriate, for purposes related to the Volunteers for Prosperity initiative.

SEC. 6. *Administration.* The actions directed by this order shall be carried out subject to the availability of appropriations, to the extent permitted by law, and consistent with the agencies' missions.

SEC. 7. *Judicial Review.* This order is intended only to improve the internal management of the executive branch of the Federal Government, and it is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person.

Of the amounts appropriated to carry out this subpart for any fiscal year, the Corporation shall reserve an amount of not more than 3 percent for payments to Indian tribes, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, to be allotted in accordance with their respective needs. The Corporation may also make payments from such amount to Palau, in accordance with its needs, until such time as the Compact of Free Association with Palau is ratified.

(b) Grants and allotments through States

The Corporation shall use the remainder of the funds appropriated to carry out this subpart for any fiscal year as follows:

(1) Grants

Except as provided in paragraph (3), from 25 percent of such remainder, the Corporation may make grants, on a competitive basis, to—

(2) Allotments

(A) School-age youth

Except as provided in paragraph (3), from 37.5 percent of such remainder, the Corporation shall allot to each State an amount that bears the same ratio to 37.5 percent of such remainder as the number of school-age youth in the State bears to the total number of school-age youth of all States.

(B) Allocation under Elementary and Secondary Education Act of 1965

Except as provided in paragraph (3), from 37.5 percent of such remainder, the Corporation shall allot to each State an amount that bears the same ratio to 37.5 percent of such remainder as the allocation to the State for the previous fiscal year under title I of the Elementary and Secondary Education Act of 1965 [20 U.S.C. 6301 et seq.] or its successor authority bears to such allocations to all States.

(3) Minimum amount

No State shall receive, under paragraph (2), an allotment that is less than the allotment such State received for fiscal year 1993 under section 12522(b) of this title, as in effect on the day before September 21, 1993. (c) Reallotment

§ 12581. Provision of assistance and approved national service positions by competitive and other means

(a) Allotments of assistance and approved positions to States and Indian tribes

(1) 33½ percent allotment of assistance to certain States

Of the funds allocated by the Corporation for provision of assistance under subsections (a) and (b) of section 12571 of this title for a fiscal year, the Corporation shall make a grant under section 12571(a) of this title (and a corresponding allotment of approved national service positions) to each of the several States, the District of Columbia, and the Commonwealth of Puerto Rico that has an application approved by the Corporation under section 12585 of this title. The amount allotted as a grant to each such State under this paragraph for a fiscal year shall be equal to the amount that bears the same ratio to 33½ percent of the allocated funds for that fiscal year as the population of the State bears to the total population of the several States, the District of Columbia, and the Commonwealth of Puerto Rico.

(2) One percent allotment for certain territories and possessions

Of the funds allocated by the Corporation for provision of assistance under subsections (a) and (b) of section 12571 of this title for a fiscal year, the Corporation shall reserve 1 percent of the allocated funds for grants under section 12571(a) of this title to the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands upon approval of an application by the Corporation under section 12585 of this title. Palau shall also be eligible for a grant under this paragraph from the allotment until such time as the Compact of Free Association with Palau is ratified. The amount allotted as a grant to each such territory or possession under this paragraph for a fiscal year shall be equal to the amount that bears the same ratio to 1 percent of the allocated funds for that fiscal year as the population of the territory or possession bears to the total population of such territories and possessions.

(3) One percent allotment for Indian tribes

Of the funds allocated by the Corporation for provision of assistance under subsections (a) and (b) of section 12571 of this title for a fiscal year, the Corporation shall reserve 1 percent of the allocated funds for grants under section 12571(a) of this title to Indian tribes, to be allotted by the Corporation on a competitive basis in accordance with their respective needs.

(4) Effect of failure to apply

If a State or Indian tribe fails to apply for, or fails to give notice to the Corporation of its intent to apply for, an allotment under this subsection, the Corporation shall use the amount that would have been allotted under this subsection to the State or Indian tribe—

(A) to make grants (and provide approved national service positions in connection with such grants) to other eligible entities under section 12571 of this title that propose to carry out national service programs in the State or on behalf of the Indian tribe; and

(B) after making grants under subparagraph (A), to make a reallocation to other States and Indian tribes with approved applications under section 12582 of this title.

(b) Reservation of approved positions

The Corporation shall ensure that each individual selected during a fiscal year for assignment as a VISTA volunteer under title I of the Domestic Volunteer Service Act of 1973 (42 U.S.C. 4951 et seq.) or as a participant in the Civilian Community Corps Demonstration Program under division E of this subchapter shall receive the national service educational award described in division D of this subchapter if the individual satisfies the eligibility requirements for the award. Funds for approved national service positions required by this paragraph for a fiscal year shall be deducted from the total funding for approved national service positions to be available for distribution under subsections (a) and (d) of this section for that fiscal year.

(c) Reservation for special assistance

From amounts appropriated for a fiscal year pursuant to the authorization of appropriation in section 12681(a)(2) of this title, and subject to the limitation in such section, the Corporation may reserve such amount as the Corporation considers to be appropriate for the purpose of making assistance available under sections 12575 and 12576 of this title. The Corporation may not reserve more than \$10,000,000 for a fiscal year for disaster service under subsection (b) of section 12576 of this title or challenge grants under subsection (c) of such section.

(d) Competitive distribution of remaining funds

(1) State competition

Of the funds allocated by the Corporation for provision of assistance under subsections (a) and (b) of section 12571 of this title for a fiscal year, the Corporation shall use not less than 33½ percent of the allocated funds to make grants to States on a competitive basis under section 12571(a) of this title.

(2) Federal agencies and other applicants

The Corporation shall distribute on a competitive basis to subdivisions of States, Indian tribes, public or private nonprofit organizations (including labor organizations), institutions of higher education, and Federal agencies the remainder of the funds allocated by the Corporation for provision of assistance under section 12571 of this title for a fiscal year, after operation of paragraph (1) and subsections (a) and (c) of this section.

(3) Limitation on distribution to Federal agencies

The Corporation may not provide more than ⅓ of the funds available for competitive distribution under paragraph (2) for a fiscal year

to Federal agencies under section 12571(b) of this title.

(4) Priority limitations

The Corporation may limit the categories of eligible applicants for assistance under paragraph (2) consistent with the priorities established by the Corporation under section 12585(d)(2) of this title.

(5) Reservation of funds for supplemental and outreach grants

(A) Reservation

From amounts appropriated for a fiscal year pursuant to the authorization of appropriation in section 12681(a)(2) of this title, and subject to the limitation in such section, the Chief Executive Officer shall reserve an amount that is not less than 1 percent of such amounts (except that the amount reserved may not exceed \$5,000,000), in order to make supplemental grants as provided in subparagraph (B) and outreach grants as provided in subparagraph (C). The amount reserved pursuant to this paragraph shall be available until expended.

(B) Grants to assist entities in placing applicants who are individuals with a disability

(i) In general

The Chief Executive Officer shall make grants from a portion of the funds reserved under subparagraph (A) to entities that—

(I) receive a grant to carry out a national service program under paragraph (1) or (2);

(II) demonstrate that the entity has received a substantial number of applications for placement in the national service program of persons who are individuals with a disability and who require a reasonable accommodation (as defined in section 12111(9) of this title), or auxiliary aids and services (as defined in section 12102(1) of this title), in order to perform national service; and

(III) demonstrate that additional funding would assist the national service program in placing a substantial number of such individuals with a disability as participants in projects carried out through the program.

(ii) Requirements

Funds made available through such a supplemental grant under clause (i) shall be made available for the same purposes, and subject to the same requirements, as funds made available through a grant made under paragraph (1) or (2).

(C) Grants for outreach to individuals with a disability

(i) In general

From the portion of the funds reserved under subparagraph (A) that is not used to make grants under subparagraph (B), the Chief Executive Officer shall make grants to public or private nonprofit organizations to pay for the Federal share described in section 12571(e) of this title of—

(II) enabling the individuals to participate in activities carried out through such programs, which may include assisting the placement of the individuals in approved national service positions.

(ii) Application

To be eligible to receive a grant under this subparagraph, an organization described in clause (i) shall submit an application to the Chief Executive Officer at such time, in such manner, and containing such information as the Chief Executive Officer may require.

(f) Approval of positions subject to available funds

The Corporation may not approve positions as approved national service positions under this division for a fiscal year in excess of the number of such positions for which the Corporation has sufficient available funds in the National Service Trust for that fiscal year, taking into consideration funding needs for national service educational awards under division D of this subchapter based on completed service. If appropriations are insufficient to provide the maximum allowable national service educational awards under division D of this subchapter for all eligible participants, the Corporation is authorized to make necessary and reasonable adjustments to program rules.

(g) Sponsorship of approved national service positions

The Corporation may enter into agreements with persons or entities who offer to sponsor national service positions for which the person or entity will be responsible for supplying the funds necessary to provide a national service educational award. The distribution of these approved national service positions shall be made pursuant to the agreement, and the creation of these positions shall not be taken into consideration in determining the number of approved national service positions to be available for distribution under this section.

PROC. NO. 6662. TRANSFER OF FUNCTIONS OF ACTION AGENCY TO CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

Proc. No. 6662, Apr. 4, 1994, 59 F.R. 16507, provided:

On September 21, 1993, I had the honor of signing into law the National and Community Service Trust Act of 1993 [Pub. L. 103–82, see Tables for classification], which created the Corporation for National and Community Service. The Corporation was designed to involve Americans of all ages and backgrounds in community projects to address many of our Nation’s most important needs—from educating our children to ensuring public safety to protecting our environment. It was chartered to foster civic responsibility, strengthening the ties that bind us together as a people, while providing educational opportunity for those who make the commitment to serve.

In the few short months since the Corporation’s establishment, enormous progress has been made toward the achievement of these invaluable goals. Final regulations have been published governing the Corporation’s new grant programs, grant application packages have been developed, and a national recruitment effort has begun. As a result of intensive outreach efforts, most states have already established State Commissions on National and Community Service, and many local programs, national nonprofit organizations, institutions of higher education, and Federal agencies are eager to participate. Grant competitions have begun for a summer program that will focus on our Nation’s public safety concerns, and all community service grant competitions will be completed by this summer. Finally, the Corporation has established the National Civilian Community Corps, which will take advantage of closed and down-sized military bases to launch environmental clean-up and preservation efforts.

The ACTION Agency, provided for by the Domestic Volunteer Service Act of 1973 [42 U.S.C. 4950 et seq.], has worked closely with the Corporation, sharing its many years of experience in engaging Americans in service to their communities. Because the Corporation’s initiatives and those programs operated by the ACTION Agency involve similar goals, the National and Community Service Trust Act calls for the merger of ACTION with the Corporation no later than March 22, 1995. To build upon the tremendous accomplishments already achieved by the Corporation, and to facilitate the further development of community service programs across the country, I am pleased to order that the functions of the Director of the ACTION Agency be transferred to the Corporation for National and Community Service.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including but not limited to sections 203(c)(2) and (d)(1)(B) of the National and Community Service Trust Act of 1993 [set out above], proclaim that all functions of the Director of the ACTION Agency are hereby transferred to the Corporation for National and Community Service, effective April 4, 1994.

IN WITNESS WHEREOF, I have hereunto set my hand this fourth day of April, in the year of our Lord nineteen hundred and ninety-four, and of the Independence of the United States of America the two hundred and eighteenth.

WILLIAM J. CLINTON.

Division J—Miscellaneous

§ 12656. Urban Youth Corps

(a) Findings

The Congress finds the following:

(1) The rehabilitation, reclamation, and beautification of urban public housing, recreational sites, youth and senior centers, and public roads and public works facilities through the efforts of young people in the United States in an Urban Youth Corps can benefit these youths, while also benefiting their communities, by—

(A) providing them with education and work opportunities;

(B) furthering their understanding and appreciation of the challenges faced by individuals residing in urban communities; and

(C) providing them with a means to pay for higher education or to repay indebtedness they have incurred to obtain higher education.

(2) A significant number of housing units for low-income individuals in urban areas has become substandard and unsafe and the deterioration of urban roadways, mass transit systems, and transportation facilities in the United States have contributed to the blight encountered in many cities in the United States.

(3) As a result, urban housing, public works, and transportation resources are in need of

labor intensive rehabilitation, reclamation, and beautification work that has been neglected in the past and cannot be adequately carried out by Federal, State, and local government at existing personnel levels.

(4) Urban youth corps have established a good record of rehabilitating, reclaiming, and beautifying these kinds of resources in a cost-efficient manner, especially when they have worked in partnership with government housing, public works, and transportation authorities and agencies.

(b) Purpose

It is the purpose of this section—

(1) to perform, in a cost-effective manner, appropriate service projects to rehabilitate, reclaim, beautify, and improve public housing and public works and transportation facilities and resources in urban areas suffering from high rates of poverty where work will not be performed by existing employees;

(2) to assist government housing, public works, and transportation authorities and agencies;

(3) to expose young people in the United States to public service while furthering their understanding and appreciation of their community;

(4) to expand educational opportunity for individuals who participate in the Urban Youth Corps established by this section by providing them with an increased ability to pursue post-secondary education or job training; and

(5) to stimulate interest among young people in the United States in lifelong service to their communities and the United States.

(c) Definitions

For purposes of this section:

(B) gives participants a mix of work experience, basic and life skills, education, training, and support services; and

(C) provides participants with the opportunity to develop citizenship values and skills through service to their communities and the United States.

(4) Secretary

The term “Secretary” means the Secretary of Housing and Urban Development or the Secretary of Transportation.

(3) Service projects

The Secretaries may each utilize the Corps or any qualified urban youth corps to carry out appropriate service projects that the Secretary involved is authorized to carry out under other authority of law involving public housing projects or public works resources or facilities.

(4) Preference for certain projects

In selecting an appropriate service project to be carried out under this section, the Secretaries shall give a preference to those projects which—

The period during which the award may be used, the purposes for which the award may be used, and the amount of the award shall be determined as provided under such subtitle.

(2) Forbearance in the collection of Stafford loans

“(2) PILOT PROGRAM.—The pilot program established under this subsection shall include the following criteria, where applicable:

“(A) ORIGINATION.—The lender shall originate a housing loan that is insured under title II of the National Housing Act [12 U.S.C. 1707 et seq.] in accordance with the applicable requirements.

“(ii) \$4,000.

“(3) AUTHORITY FOR MORTGAGEES.—In granting mortgages under the pilot program established pursuant to this subsection, the Secretary shall grant mortgagees the authority—

“(A) to permit the final loan amount to exceed the loan limits established under title II of the National Housing Act [12 U.S.C. 1707 et seq.] by an amount not to exceed 100 percent of the cost of the cost-effective energy efficiency improvements, if the mortgagor's request to add the cost of such improvements is received by the mortgagee prior to funding of the base loan;

“(B) to hold in escrow all funds provided to the mortgagor to undertake the energy efficiency improvements until the efficiency improvements are actually installed; and

“(C) to transfer or sell the energy efficient mortgage to the appropriate secondary market agency, after the mortgage is issued, but before the energy efficiency improvements are actually installed.

“(4) PROMOTION OF PILOT PROGRAM.—The Secretary shall encourage participation in the energy efficient mortgage pilot program by—

“(A) making available information to lending agencies and other appropriate authorities regarding the availability and benefits of energy efficient mortgages;

“(B) requiring mortgagees and designated lending authorities to provide written notice of the avail-

“(5) TRAINING PROGRAM.—Not later than 9 months after the date of enactment of this Act [Oct. 28, 1992], the Secretary, in consultation with the Secretary of Energy, shall establish and implement a program for training personnel at relevant lending agencies, real estate companies, and other appropriate organizations regarding the benefits of energy efficient mortgages and the operation of the pilot program under this subsection.

“(6) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary shall prepare and submit a report to the Congress describing the effectiveness and implementation of the energy efficient mortgage pilot program as described under this subsection, and assessing the potential for expanding the pilot program nationwide.

“(2) The term ‘cost-effective’ means, with respect to energy efficiency improvements to a residential building, improvements that result in the total present value cost of the improvements (including any maintenance and repair expenses) being less than the total present value of the energy saved over the useful life of the improvement, when 100 percent of the cost of improvements is added to the base loan. For purposes of this paragraph, savings and cost-effectiveness shall be determined pursuant to a home energy rating report sufficient for purposes of the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, or by other technically accurate methods.

“(3) The term ‘energy efficient mortgage’ means a mortgage on a residential building that recognizes the energy savings of a home that has cost-effective energy saving construction or improvements (including solar water heaters, solar-assisted air conditioners and ventilators, super-insulation, and insulating glass and film) and that has the effect of not disqualifying a borrower who, but for the expenditures on energy saving construction or improvements, would otherwise have qualified for a base loan.

“(4) The term ‘residential building’ means any attached or unattached single family residence.

“(d) RULE OF CONSTRUCTION.—This section may not be construed to affect any other programs of the Secretary of Housing and Urban Development for energy-efficient mortgages. The pilot program carried out under this section shall not replace or result in the termination of such other programs.

“(e) REGULATIONS.—The Secretary shall issue any regulations necessary to carry out this section not later than the expiration of the 180-day period begin-

“(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.”

Similar provisions were contained in Pub. L. 102-486, title I, §106, Oct. 24, 1992, 106 Stat. 2792.

SUBCHAPTER II—INVESTMENT IN AFFORDABLE HOUSING

§ 12721. Findings

The Congress finds that—

(1) the Nation has not made adequate progress toward the goal of national housing policy, as set out in the Housing Act of 1949 [42 U.S.C. 1441 et seq.] and reaffirmed in the Housing and Urban Development Act of 1968, which would provide decent, safe, sanitary, and affordable living environments for all Americans;

(2) the supply of affordable rental housing is diminishing;

(3) the Tax Reform Act of 1986 removed major tax incentives for the production of affordable rental housing;

(4) the living environments of an increasing number of Americans have deteriorated over the past several years as a result of reductions in Federal assistance to low-income and moderate-income families;

(5) many Americans face the possibility of homelessness unless Federal, State, and local governments work together with the private sector to develop and rehabilitate the housing stock of the Nation to provide decent, safe, sanitary, and affordable housing for very low-income and low-income families;

(6) reliable Federal leadership is needed to achieve an adequate supply of affordable housing for all Americans;

(7) to achieve the goal of national housing policy, there is a need to strengthen nationwide a cost-effective community-based housing partnership designed to—

(A) expand the supply of rental housing that is affordable to very low-income and low-income families,

(B) improve homeownership opportunities for low-income families,

(C) carry out comprehensive housing strategies tailored to local housing market conditions, and

(D) protect the Federal, State, and local investment in low-income housing to ensure affordability of the housing for the remaining useful life of the property;

(8) direct assistance to expand the supply of affordable rental housing should be provided in a way that is more cost-effective and targeted than tax incentives;

(9) much of the Nation's housing system works very well and provides a strong base on which national housing policy should build;

(10) an increasing number of States and local governments have been successful in producing cost-effective low-income and moderate-income housing by working in partnership with the private sector, including nonprofit community development corporations, community action agencies, neighborhood housing services corporations, trade unions, groups sponsored by religious organizations, limited equity cooperatives, and other tenant organizations;

(11) during the 1980's, nonprofit community housing development organizations, despite severe obstacles caused by inadequate funding, have played an increasingly important role in the production and rehabilitation of affordable housing in communities across the Nation;

(12) additional financial resources and technical skills must be made available in local communities if the Nation is to mobilize the capacity of the private sector, including nonprofit community housing development organizations, to provide a more adequate supply of decent, safe, and sanitary housing that is affordable to very low-income, low-income, and moderate-income families and meets the need for large family units and other additional units that are available to very low-income families receiving rental assistance payments from Federal, State, and local governments; and

(13) the long-term success of efforts to provide more affordable housing depends upon tenants and homeowners being fiscally responsible and able managers.

PART A—HOME INVESTMENT PARTNERSHIPS

§ 12741. Authority

The Secretary is authorized to make funds available to participating jurisdictions for investment to increase the number of families

(Pub. L. 101-625, title II, § 211, Nov. 28, 1990, 104 Stat. 4096.)

§ 12742. Eligible uses of investment

(a) Housing uses

(1) In general

Funds made available under this part may be used by participating jurisdictions to provide incentives to develop and support affordable rental housing and homeownership affordability through the acquisition, new construction, reconstruction, or moderate or substantial rehabilitation of affordable housing, including real property acquisition, site improvement, conversion, demolition, and other expenses, including financing costs, relocation expenses of any displaced persons, families, businesses, or organizations, to provide for the payment of reasonable administrative and planning costs, to provide for the payment of operating expenses of community housing development organizations, and to provide tenant-based rental assistance. For the purpose of this part, the term “affordable housing” includes permanent housing for disabled homeless persons, transitional housing, and single room occupancy housing.

(2) Preference to rehabilitation

A participating jurisdiction shall give preference to rehabilitation of substandard housing unless the jurisdiction determines that—

- (A) such rehabilitation is not the most cost effective way to meet the jurisdiction's need to expand the supply of affordable housing; and
- (B) the jurisdiction's housing needs cannot be met through rehabilitation of the available stock.

The Secretary shall not restrict a participating jurisdiction's choice of rehabilitation, substantial rehabilitation, new construction, reconstruction, acquisition, or other eligible housing use unless such restriction is explicitly authorized under section 12753(2) of this title.

(3) Tenant-based rental assistance

(A) In general

A participating jurisdiction may use funds provided under this part for tenant-based rental assistance only if—

- (i) the jurisdiction certifies that the use of funds under this part for tenant-based rental assistance is an essential element of the jurisdiction's annual housing strategy for expanding the supply, affordability, and availability of decent, safe, sanitary, and affordable housing, and specifies the local market conditions that lead to the choice of this option; and
- (ii) the tenant-based rental assistance is provided in accordance with written tenant selection policies and criteria that are consistent with the purposes of providing

housing to very low- and low-income families and are reasonably related to preference rules established under section 1437d(c)(4)(A)¹ of this title.

(B) Fair share not affected

A jurisdiction's section 8 [42 U.S.C. 1437f] fair share allocation shall be unaffected by the use of assistance under this subchapter.

(C) 24-month contracts

Rental assistance contracts made available with assistance under this subchapter shall be for not more than 24 months, except that assistance to a family may be renewed.

(D) Use of section 1437f assistance

In any case where assistance under section 1437f of this title becomes available to a participating jurisdiction, recipients of rental assistance under this subchapter shall qualify for tenant selection preferences to the same extent as when they received the rental assistance under this subchapter. A rental assistance program under this subchapter shall meet minimum criteria prescribed by the Secretary, such as housing quality standards and standards regarding the reasonableness of the rent.

(E) Security deposit assistance

A jurisdiction using funds provided under this part for tenant-based rental assistance may use such funds to provide loans or grants to very low- and low-income families for security deposits for rental of dwelling units. Assistance under this subparagraph does not preclude assistance under any other provision of this paragraph.

(4) Redesignated (3)

(5) Lead-based paint hazards

A participating jurisdiction may use funds provided under this part for the evaluation and reduction of lead-based paint hazards, as defined in section 4851b of this title.

(b) Investments

Participating jurisdictions shall have discretion to invest funds made available under this part as equity investments, interest-bearing loans or advances, noninterest-bearing loans or advances, interest subsidies or other forms of assistance that the Secretary has determined to be consistent with the purposes of this subchapter. Each participating jurisdiction shall have the right to establish the terms of assistance.

(c) Administrative costs

In each fiscal year, each participating jurisdiction may use not more than 10 percent of the funds made available under this part to the jurisdiction for such year for any administrative and planning costs of the jurisdiction in carrying out this part, including the costs of the salaries of persons engaged in administering and managing activities assisted with funds made available under this part.

(d) Prohibited uses

Funds made available under this part may not be used to—

(1) defray any administrative cost of a participating jurisdiction that exceed the amount specified under subsection (c) of this section,

(2) provide tenant-based rental assistance for the special purposes of the existing section 8 [42 U.S.C. 1437f] program, including replacing public housing that is demolished or disposed of, preserving federally assisted housing, assisting in the disposition of housing owned or held by the Secretary, preventing displacement from rental rehabilitation projects, or extending or renewing tenant-based assistance under section 1437f of this title,

(3) provide non-Federal matching contributions required under any other Federal program,

(4) provide assistance authorized under section 1437g of this title,

(5) carry out activities authorized under section 1437g(d)(1)¹ of this title, or

(6) provide assistance to eligible low-income housing under the Emergency Low Income Housing Preservation Act of 1987 or the Low-Income Housing Preservation and Resident Homeownership Act of 1990 [12 U.S.C. 4101 et seq.].

(e) Cost limits

(1) In general

The Secretary shall establish limits on the amount of funds under this part that may be invested on a per unit basis. For multifamily housing, such limits shall not be less than the per unit dollar amount limitations set forth in section 1715(d)(3)(ii) of title 12, as such limitations may be adjusted in accordance therewith, except that for purposes of this subsection the Secretary shall, by regulation, increase the per unit dollar amount limitations in any geographical area by an amount, not to exceed 140 percent, that equals the amount by which the costs of multifamily housing construction in the area exceed the national average of such costs. The limits shall be established on a market-by-market basis, with adjustments made for number of bedrooms, and shall reflect the actual cost of new construction, reconstruction, or rehabilitation of housing that meets applicable State and local housing and building codes and the cost of land, including necessary site improvements. Adjustments shall be made annually to reflect inflation. Separate limits may be set for different eligible activities.

(2) Criteria

In calculating per unit limits, the Secretary shall take into account that assistance under this subchapter is intended to—

(A) provide nonluxury housing with suitable amenities;

(B) operate effectively in all jurisdictions;

(C) facilitate mixed-income housing; and

(D) reflect the costs associated with meeting the special needs of tenants or homeowners that the housing is designed to serve.

(3) Consultation

In calculating cost limits, the Secretary shall consult with organizations that have expertise in the development of affordable housing, including national nonprofit organiza-

tions and national organizations representing private development firms and State and local governments.

(f) Certification of compliance

The requirements of section 3545(d) of this title shall be satisfied by a certification by a participating jurisdiction to the Secretary that the combination of Federal assistance provided to any housing project shall not be any more than is necessary to provide affordable housing.

(g) Limitation on operating assistance

A participating jurisdiction may not use more than 5 percent of its allocation under this part for the payment of operating expenses for community housing development organizations.

L. 103-233 applicable with respect to any amounts made available to carry out this subchapter after Apr. 11, 1994, and any amounts made available to carry out this subchapter before that date that remain uncommitted on that date, with Secretary to issue any regulations necessary to carry out such amendment not later than end of 45-day period beginning on that date, see section 209 of Pub. § 12745. Qualification as affordable housing

(a) Rental housing

(1) Qualification

Housing that is for rental shall qualify as affordable housing under this subchapter only if the housing—

(A) bears rents not greater than the lesser of (i) the existing fair market rent for comparable units in the area as established by the Secretary under section 1437f of this title, or (ii) a rent that does not exceed 30 percent of the adjusted income of a family whose income equals 65 percent of the median income for the area, as determined by the Secretary, with adjustment for number of bedrooms in the unit, except that the Secretary may establish income ceilings higher or lower than 65 percent of the median for the area on the basis of the Secretary's findings that such variations are necessary because of prevailing levels of construction costs or fair market rents, or unusually high or low family incomes;

(B) has not less than 20 percent of the units (i) occupied by very low-income families who pay as a contribution toward rent (excluding any Federal or State rental subsidy provided on behalf of the family) not more than 30 percent of the family's monthly adjusted income as determined by the Secretary, or (ii) occupied by very low-income families and bearing rents not greater

than the gross rent for rent-restricted residential units as determined under section 42(g)(2) of title 26;

(C) is occupied only by households that qualify as low-income families;

(D) is not refused for leasing to a holder of a voucher or certificate of eligibility under section 1437f of this title because of the status of the prospective tenant as a holder of such voucher or certificate of eligibility;

(E) will remain affordable, according to binding commitments satisfactory to the Secretary, for the remaining useful life of the property, as determined by the Secretary, without regard to the term of the mortgage or to transfer of ownership, or for such other period that the Secretary determines is the longest feasible period of time consistent with sound economics and the purposes of this Act, except upon a foreclosure by a lender (or upon other transfer in lieu of foreclosure) if such action (i) recognizes any contractual or legal rights of public agencies, nonprofit sponsors, or others to take actions that would avoid termination of low-income affordability in the case of foreclosure or transfer in lieu of foreclosure, and (ii) is not for the purpose of avoiding low income affordability restrictions, as determined by the Secretary; and

(F) if newly constructed, meets the energy efficiency standards promulgated by the Secretary in accordance with section 12709 of this title.

(2) Adjustment of qualifying rent

The Secretary may adjust the qualifying rent established for a project under subparagraph (A) of paragraph (1), only if the Secretary finds that such adjustment is necessary to support the continued financial viability of the project and only by such amount as the Secretary determines is necessary to maintain continued financial viability of the project.

(3) Increases in tenant income

Housing shall qualify as affordable housing despite a temporary noncompliance with subparagraph (B) or (C) of paragraph (1) if such noncompliance is caused by increases in the incomes of existing tenants and if actions satisfactory to the Secretary are being taken to ensure that all vacancies are filled in accordance with paragraph (1) until such noncompliance is corrected. Tenants who no longer qualify as low-income families shall pay as rent the lesser of the amount payable by the tenant under State or local law or 30 percent of the family's adjusted monthly income, as recertified annually. The preceding sentence shall not apply with respect to funds made available under this Act for units that have been allocated a low-income housing tax credit by a housing credit agency pursuant to section 42 of title 26.

(4) Mixed-income project

Housing that accounts for less than 100 percent of the dwelling units in a project shall qualify as affordable housing if such housing meets the criteria of this section.

(5) Mixed-use project

Housing in a project that is designed in part for uses other than residential use shall qualify as affordable housing if such housing meets the criteria of this section.

(6) Waiver of qualifying rent

(A) In general

For the purpose of providing affordable housing appropriate for families described in subparagraph (B), the Secretary may, upon the application of the project owner, waive the applicability of subparagraph (A) of paragraph (1) with respect to a dwelling unit if—

(i) the unit is occupied by such a family, on whose behalf tenant-based assistance is provided under section 1437f of this title;

(ii) the rent for the unit is not greater than the existing fair market rent for comparable units in the area, as established by the Secretary under section 1437f of this title; and

(iii) the Secretary determines that the waiver, together with waivers under this paragraph for other dwelling units in the project, will result in the use of amounts described in clause (iii)¹ in an effective manner that will improve the provision of affordable housing for such families.

(B) Eligible families

A family described in this subparagraph is a family that consists of at least one elderly person (who is the head of household) and one or more of such person's grand² children, great grandchildren, great nieces, great nephews, or great great grandchildren (as defined by the Secretary), but does not include any parent of such grandchildren, great grandchildren, great nieces, great nephews, or great great grandchildren. Such term includes any such grandchildren, great grandchildren, great nieces, great nephews, or great great grandchildren who have been legally adopted by such elderly person.

(b) Homeownership

Housing that is for homeownership shall qualify as affordable housing under this subchapter only if the housing—

(1) has an initial purchase price that does not exceed 95 percent of the median purchase price for the area, as determined by the Secretary with such adjustments for differences in structure, including whether the housing is single-family or multifamily, and for new and old housing as the Secretary determines to be appropriate;

(2) is the principal residence of an owner whose family qualifies as a low-income family—

(A) in the case of a contract to purchase existing housing, at the time of purchase;

(B) in the case of a lease-purchase agreement for existing housing or for housing to be constructed, at the time the agreement is signed; or

¹ So in original.

² So in original. Probably should be "grandchildren".

(C) in the case of a contract to purchase housing to be constructed, at the time the contract is signed;

(3) is subject to resale restrictions that are established by the participating jurisdiction and determined by the Secretary to be appropriate to—

(A) allow for subsequent purchase of the property only by persons who meet the qualifications specified under paragraph (2), at a price which will—

(i) provide the owner with a fair return on investment, including any improvements, and

(ii) ensure that the housing will remain affordable to a reasonable range of low-income homebuyers; or

(B) recapture the investment provided under this subchapter in order to assist other persons in accordance with the requirements of this subchapter, except where there are no net proceeds or where the net proceeds are insufficient to repay the full amount of the assistance; and

(4) if newly constructed, meets the energy efficiency standards promulgated by the Secretary in accordance with section 12709 of this title.

§ 12746. Participation by States and local governments

The Secretary shall designate a State or unit of general local government to be a participating jurisdiction when it complies with procedures that the Secretary shall establish by regulation, which procedures shall only provide for the following:

(1) Allocation

Not later than 20 days after funds to carry out this part become available (or, during the first year after November 28, 1990, not later than 20 days after (A) funds to carry out this part are provided in an appropriations Act, or (B) regulations to implement this part are promulgated, whichever is later), the Secretary shall allocate funds in accordance with section 12747 of this title and promptly notify each jurisdiction receiving a formula allocation of its allocation amount. If a jurisdiction is not already a participating jurisdiction, the Secretary shall inform the jurisdiction in writing how the jurisdiction may become a participating jurisdiction.

(2) Consortia

A consortium of geographically contiguous units of general local government shall be deemed to be a unit of general local govern-

ment for purposes of this subchapter if the Secretary determines that the consortium—

(A) has sufficient authority and administrative capability to carry out the purposes of this subchapter on behalf of its member jurisdictions, and

(B) will, according to a written certification by the State (or States, if the consortium includes jurisdictions in more than one State), direct its activities to alleviation of housing problems within the State or States.

(3) Eligibility

(A) Except as provided in paragraph (10), a jurisdiction receiving a formula allocation under section 12747 of this title shall be eligible to become a participating jurisdiction if its formula allocation is \$750,000 or greater, or if the Secretary finds that—

(i) the jurisdiction has a local housing authority and has demonstrated a capacity to carry out provisions of this part, and

(ii) the State has authorized the Secretary to transfer to the jurisdiction a portion of the State's allocation that is equal to or greater than the difference between the jurisdiction's formula allocation and \$750,000, or the State or jurisdiction has made available from the State's or jurisdiction's own sources an equal amount for use by the jurisdiction in conformance with the provisions of this part.

(B) If a jurisdiction has met the requirements of subparagraph (A), the jurisdiction's formula allocation for a fiscal year shall subsequently be deemed to equal the sum of the jurisdiction's allocation under section 12747(a)(1) of this title and the amount made available to the jurisdiction under subparagraph (A)(ii).

(4) Notification

If an eligible jurisdiction notifies the Secretary in writing, not later than 30 days after receiving notification under paragraph (1), of its intention to become a participating jurisdiction, the Secretary shall reserve an amount equal to the jurisdiction's allocation (plus any reallocations for which the jurisdiction is eligible under section 12747(d)(1) of this title) pending the jurisdiction's designation as a participating jurisdiction. The Secretary shall reallocate, in accordance with paragraph (6) of this section, any funds reserved under the previous sentence if the Secretary determines that the jurisdiction will not meet the requirements for designation as a participating jurisdiction within a reasonable period of time.

(5) Submission of strategy

Not later than 90 days after providing notification under paragraph (4), an eligible jurisdiction shall submit to the Secretary a comprehensive housing affordability strategy in accordance with section 12705 of this title.

(6) Reallocation

If the Secretary determines that a jurisdiction has failed to meet the requirements of the previous 3 paragraphs or if the Secretary, after providing for amendments and resubmissions

in accordance with section 12705(c)(3) of this title, disapproves the jurisdiction's comprehensive housing affordability strategy, the Secretary shall reallocate any funds reserved for the jurisdiction as follows:

(A) State

If a State has failed to meet the requirements, the Secretary shall—

(i) make any funds reserved for the State available by direct reallocation among applications submitted by units of general local government within the State or consortia that include units of general local government within the State, insofar as approvable applications meeting the selection criteria under section 12747(c) of this title are received within 12 months after the funds become available for the direct reallocation, and

(ii) reallocate the remainder by formula in accordance with section 12747(b) of this title.

(B) Local

If a unit of general local government has failed to meet the requirements and is located in a State that is a participating jurisdiction, the Secretary shall reallocate to the State any funds reserved for the locality, with preference going to the provision of affordable housing within the locality.

(C) Direct reallocation

If a unit of general local government has failed to meet the requirements and is located in a State that is not a participating jurisdiction, the Secretary shall—

(i) make any funds reserved for the locality available for use within the State by direct reallocation among units of general local government and community housing development organizations, insofar as approvable applications meeting the selection criteria under section 12747(c) of this title are received within 12 months after the funds become available for the direct reallocation with priority going to applications for affordable housing within the locality, and

(ii) reallocate the remainder in accordance with section 12747(b) of this title.

(D) Certain jurisdictions deemed to be participating jurisdictions

If a State or unit of general local government is meeting the requirements of paragraphs (3), (4), and (5), it shall be deemed to be a participating jurisdiction for purposes of reallocation under this paragraph.

(7) Designation

The Secretary shall designate an eligible jurisdiction to be a participating jurisdiction as soon as its comprehensive housing affordability strategy is approved in accordance with section 12705 of this title.

(8) Continuous designation

Once a State or unit of general local government is designated a participating jurisdiction, it shall remain a participating jurisdiction for subsequent fiscal years, except as pro-

vided in paragraph (9). The provisions of paragraphs (3) through (6) shall not apply to participating jurisdictions.

(9) Revocation

The Secretary may revoke a jurisdiction's designation as a participating jurisdiction if—

(A) the Secretary finds, after reasonable notice and opportunity for hearing, that the jurisdiction is unwilling or unable to carry out the provisions of this subchapter, or

(B) the jurisdiction's allocation falls below \$750,000 for 3 consecutive years, below \$625,000 for 2 consecutive years, or the jurisdiction does not receive a formula allocation of \$500,000 or more in any 1 year, except as provided in paragraph (10).

If a jurisdiction's designation as a participating jurisdiction is revoked, any remaining line of credit in the jurisdiction's HOME Investment Trust Fund established under section 12748 of this title shall be reallocated in accordance with paragraph (6) of this section.

(10) Threshold reduction

If the amount appropriated pursuant to section 12724 of this title for any fiscal year is less than \$1,500,000,000, then this section shall be applied during that year—

(A) by substituting “\$500,000” for “\$750,000” both places it appears in paragraph (3); and

(B) by substituting “\$500,000”, “\$410,000”, and “\$335,000” for “\$750,000”, “\$625,000”, and “\$500,000”, respectively, where they appear in paragraph (9).

Par. (10). Pub. L. 102-550, § 202(a)(3), added par. (10).

EFFECTIVE DATE OF 1992 AMENDMENT

Amendment by Pub. L. 102-550 applicable to unexpended funds allocated under subchapter II of this chapter in fiscal year 1992, except as otherwise specifically provided, see section 223 of Pub. L. 102-550, set out as a note under section 12704 of this title.

APPLICABILITY OF GRANT THRESHOLDS

Section 202(c) of Pub. L. 102-550 provided that: “Notwithstanding any other provision of law, the grant thresholds provided for in section 216 [42 U.S.C. 12746], as amended by this section, and the grant thresholds provided for in section 217(b) of the Cranston-Gonzalez National Affordable Housing Act [42 U.S.C. 12747(b)], as amended by this section, shall apply.”

§ 12747. Allocation of resources

(a) In general

(1) States and units of general local government

After reserving amounts under paragraph (3) for the insular areas, the Secretary shall allocate funds approved in an appropriation Act to

carry out this subchapter by formula as provided in subsection (b) of this section. Of the funds made available under the preceding sentence, the Secretary shall initially allocate 60 percent among units of general local government and 40 percent among States.

(2) **Repealed.** Pub. L. 104-330, title V, § 505(a)(1)(B), Oct. 26, 1996, 110 Stat. 4044

(3)¹ Insular areas

For each fiscal year, of any amounts approved in appropriation Acts to carry out this subchapter, the Secretary shall reserve for grants to the insular areas the greater of (A) \$750,000, or (B) 0.2 percent of the amounts appropriated under such Acts. The Secretary shall provide for the distribution of amounts reserved under this paragraph among the insular areas pursuant to specific criteria for such distribution, which shall be contained in a regulation issued by the Secretary.

(b) Formula allocation

(1) In general

(A) Basic formula

The Secretary shall establish in² regulation an allocation formula that reflects each jurisdiction's share of total need among eligible jurisdiction³ for an increased supply of affordable housing for very low-income and low-income families of different size, as identified by objective measures of inadequate housing supply, substandard housing, the number of low-income families in housing likely to be in need of rehabilitation, the costs of producing housing, poverty, and the relative fiscal incapacity of the jurisdiction to carry out housing activities eligible under section 12742 of this title without Federal assistance. Allocation among units of general local government shall take into account the housing needs of metropolitan cities, urban counties, and approved consortia of units of general local government.

(B) Source of data

The data to be used for formula allocation of funds within a fiscal year shall be data obtained from a standard source that are available to the Secretary 90 days prior to the beginning of that fiscal year.

(C) Use of basic formula

The basic formula established under subparagraph (A) shall be used for all formula allocations and reallocations provided for in this part.

(D) Weights

When allocation is made among States, the Secretary shall apply the formula in subparagraph (A) giving 20 percent weight to measures of need for the whole State and 80 percent weight to measures of need among units of general local government that are not receiving an allocation under section 12746(1) of this title.

¹ See 1992 Amendment note below.

² So in original. Probably should be “by”.

³ So in original. Probably should be “jurisdictions”.

(E) Adjustments

In developing the basic formula in subparagraph (A), the Secretary shall (i) avoid the allocation of an excessively large share of amounts made available under this part to any one State or unit of general local government, and (ii) take into account the need for a geographic distribution of amounts made available under this part that appropriately reflects the housing need in each region of the Nation.

(F) Consultation

The Secretary shall develop the formula in subparagraph (A) in ongoing consultation with (i) the Subcommittee on Housing and Urban Affairs of the Committee on Banking, Housing, and Urban Affairs of the Senate, (ii) the Subcommittee on Housing and Community Development of the Committee on Banking, Finance and Urban Affairs of the House of Representatives, and (iii) organizations representing States and units of general local government. Not less than 60 days prior to publishing a formula for comment, the Secretary shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives a copy of the formula the Secretary intends to propose.

(2) Minimum State allocation**(A) In general**

If the formula, when applied to funds approved under this section in appropriations Acts for a fiscal year, would allocate less than \$3,000,000 to any State, the allocation for such State shall be \$3,000,000, and the increase shall be deducted pro rata from the allocations of other States.

(B) Increased minimum allocation

If no unit of general local government within a State receives an allocation under paragraph (3), the State's allocation shall be increased by \$500,000. Priority for use of such increased allocation shall go to the provision of affordable housing within the boundaries of metropolitan cities, urban counties, and approved consortia within the State, based on the need for such funds. The increased allocation to a State under the preceding sentence shall be derived by a pro rata deduction from the allocations to units of general local government in all States, except that such pro rata deduction shall not reduce the allocation of any unit of general local government below \$500,000.

(3) Minimum local allocation

The Secretary shall allocate funds available for formula allocation to units of general local government that, as of the end of the previous fiscal year, qualified as metropolitan cities, urban counties, and consortia approved by the Secretary in accordance with section 12746(2) of this title so that, when all such funds are initially allocated by formula, jurisdictions that are allocated an amount of \$500,000 or more, and participating jurisdictions (other than consortia that fail to renew the member-

ship of all of their member jurisdictions) that are allocated an amount less than \$500,000, shall receive an allocation. Prior to announcing initial allocations, the Secretary shall successively recalculate the allocations to jurisdictions under this subsection so that the maximum number of such jurisdictions can receive initial allocations, except as provided in paragraph (4).

(4) Threshold reduction

If the amount appropriated pursuant to section 12724 of this title for any fiscal year is less than \$1,500,000,000, then this section shall be applied during that year by substituting "\$335,000" for "\$500,000" where it appears in paragraph (3).

(c) Criteria for direct reallocation

The Secretary shall establish objective criteria for making direct reallocations to any participating jurisdiction and other eligible entities. A jurisdiction shall be eligible for a direct reallocation under this subsection only if the jurisdiction, in a form acceptable to the Secretary, submits an application that demonstrates to the satisfaction of the Secretary that the jurisdiction is engaged, or has made good faith efforts to engage, in cooperative efforts between the State and appropriate participating jurisdictions within the State to develop, coordinate, and implement housing strategies under this subchapter. The Secretary shall by regulation establish objective selection criteria for such direct reallocations, which criteria shall take into account—

(1) the applicant's demonstrated commitment to expand the supply of affordable rental housing, including units developed by public housing agencies, as indicated by the additional number of units of affordable housing made available through production or rehabilitation within the previous 2 years, making adjustment for regional variations in construction and rehabilitation costs and giving special consideration to the number of additional units made available under this subchapter through production or rehabilitation, including units developed by public housing agencies, in relation to the amounts made available under this program;

(2) the applicant's actions that—

(A) direct funds made available under this part to benefit very low-income families, with a range of incomes, in amounts that exceed the income targeting requirements of section 12744 of this title, with extra consideration given for activities that expand the supply of affordable housing for very low-income families whose incomes do not exceed 30 percent of the median family income for the area, as determined by the Secretary;

(B) apply the tenant selection preference categories applicable under section 1437f of this title to the selection of tenants for housing assisted under this part;

(C) provide matching resources in excess of funds required under section 12750 of this title; and

(D) stimulate a high degree of investment and participation in development by the private sector, including nonprofit organizations; and

(3) the degree to which the applicant is pursuing policies that—

(A) make existing housing more affordable;

(B) remove or ameliorate any negative effects that public policies identified by the applicant pursuant to section 12705(b)(4) of this title may have on the cost of housing or the incentives to develop, maintain, or improve affordable housing in the jurisdiction;

(C) preserve the affordability of privately-owned housing that is vulnerable to conversion, demolition, disinvestment, or abandonment;

(D) increase the supply of housing that is affordable to very low-income and low-income persons, particularly in areas that are accessible to expanding job opportunities; and

(E) remedy the effects of discrimination and improve housing opportunities for disadvantaged minorities.

(d) Reallocations

(1) In general

The Secretary shall make any reallocations periodically throughout each fiscal year so as to ensure that all funds to be reallocated are made available to eligible jurisdictions as soon as possible, consistent with orderly program administration. Jurisdictions eligible for such reallocations shall include participating jurisdictions and jurisdictions meeting the requirements of paragraphs (3), (4), and (5) of section 12746 of this title.

(2) Commitments

The Secretary shall establish procedures according to which participating jurisdictions may make commitments to invest funds made available under this section. Such procedures shall provide for appropriate stages of commitment of funds to a project from initial reservation through binding commitment. Notwithstanding any other provision of this subchapter, funds that the Secretary determines are needed to fulfill binding commitments shall not be available for reallocation.

(3) Limitation

Unless otherwise specified in this part, any reallocation of funds from a State shall be made only among all participating States, and any reallocation of funds from units of general local government shall be made only among all participating units of general local government.

The aggregate annual income of the homebuyer and the members of the family of the homebuyer residing with the homebuyer, for the 12-month period preceding the date of the application of the homebuyer for assistance under this subchapter, does not exceed—

(A) 95 percent of the median income for a family of 4 persons (adjusted by family size) in the applicable metropolitan statistical area (or such other area that the Board of Directors determines for areas outside of metropolitan statistical areas); or

(B) 115 percent of such median income (adjusted by family size) in the case of an area that is subject to a high cost area mortgage limit under title II of the National Housing Act [12 U.S.C. 1707 et seq.].

The Board of Directors shall provide for certification of such income for purposes of initial eligibility for assistance payments under this subchapter and shall provide for recertification of homebuyers (and families of homebuyers) so assisted not less than every 2 years thereafter.

(3) Certification

The homebuyer (and spouse, where applicable) shall certify that the homebuyer has

made a good faith effort to obtain a market rate mortgage and has been denied because the annual income of the homebuyer and the members of the family of the homebuyer residing with the homebuyer is insufficient.

(4) Principal residence

The property securing the mortgage is a single-family residence or unit in a cooperative and is the principal residence of the homebuyer.

(5) Maximum mortgage amount

The principal obligation of the mortgage does not exceed the principal amount that could be insured with respect to the property under the National Housing Act [12 U.S.C. 1701 et seq.].

(6) Maximum interest rate

The interest payable on the mortgage is established at a fixed rate that does not exceed a maximum rate of interest established by the Trust taking into consideration prevailing interest rates on similar mortgages.

(7) Responsible mortgagee

The mortgage has been made to, and is held by, a mortgagee that is federally insured or that is otherwise approved by the Trust as responsible and able to service the mortgage properly.

(8) Minimum downpayment

For a first-time homebuyer to receive downpayment assistance under subsection (a)(2) of this section, the homebuyer shall have paid not less than 1 percent of the cost of acquisition of the property (excluding any mortgage insurance premium paid at the time the mortgage is insured), as such cost is estimated by the Board of Directors.

(c) Terms of assistance

(1) Security

Assistance payments under this subchapter shall be secured by a lien on the property involved. The lien shall be subordinate to all mortgages existing on the property on the date on which the first assistance payment is made.

(2) Repayment upon sale

Assistance payments under this subchapter shall be repayable from the net proceeds of the sale, without interest, upon the sale of the property for which the assistance payments are made. If the sale results in no net proceeds or the net proceeds are insufficient to repay the amount of the assistance payments in full, the Board of Directors shall release the lien to the extent that the debt secured by the lien remains unpaid.

(3) Repayment upon increased income

If the aggregate annual income of the homebuyer (and family of the homebuyer) assisted under this subchapter exceeds the applicable maximum income allowable under subsection (b)(2) of this section for any 2-year period after such assistance is provided, the Board of Directors may provide for the repayment, on a monthly basis, of all or a portion of such as-

sistance payments, based on the amount of assistance provided and the income of the homebuyer (and family of the homebuyer).

(4) Repayment if property ceases to be principal residence

If the property for which assistance payments are made ceases to be the principal residence of the first-time homebuyer (or the family of the homebuyer), the Board of Directors may provide for the repayment of all or a portion of the assistance payments.

(5) Available assistance

The Trust may make assistance payments under paragraphs (1) and (2) of subsection (a) of this section with respect to a single mortgage of an eligible homebuyer.

(d) Allocation formula

Amounts available in any fiscal year for assistance under this subchapter shall be allocated for homebuyers in each State on the basis of the need of eligible first-time homebuyers in each State for such assistance in comparison with the need of eligible first-time homebuyers for such assistance among all States.

(e) Assistance in connection with housing financed with mortgage revenue bonds

(1) Authority

The Trust shall provide assistance for first-time homebuyers in the form of interest rate buydowns and downpayment assistance under this subsection. Such assistance shall be available only with respect to mortgages for the purchase of residences (A) financed with the proceeds of a qualified mortgage bond (as such term is defined in section 143 of title 26), or (B) for which a credit is allowable under section 25 of title 26.

(2) Eligibility

To be eligible for assistance under this subsection, homebuyers and mortgages shall also meet the requirements under subsection (b) of this section, except that—

(A) the certification under subsection (b)(3) of this section shall not be required for assistance under this subsection;

(B) the provisions of subsection (b)(2) of this section shall not apply to assistance under this section; and

(3) Limitation of assistance

Notwithstanding subsection (a) of this section, assistance payments for first-time homebuyers under this subsection shall be provided in the following manners:

1992—Subsec. (b)(4) to (14). Pub. L. 102-550 added par. (4) and redesignated former pars. (4) to (13) as (5) to (14), respectively.

§ 12874. Homeownership program requirements**(a) In general**

A homeownership program under this part shall provide for acquisition by eligible families of ownership interest in, or shares representing, the units in an eligible property under any arrangement determined by the Secretary to be

appropriate, such as cooperative ownership (including limited equity cooperative ownership) and fee simple ownership (including condominium ownership), for occupancy by the eligible families.

(b) Affordability

A homeownership program under this part shall provide for the establishment of sales prices (including principal, insurance, taxes, and interest and closing costs) for initial acquisition of the property, and for sales to eligible families, such that the eligible family shall not be required to expend more than 30 percent of the adjusted income of the family per month to complete a sale under the homeownership program.

(c) Plan

A homeownership program under this part shall provide, and include a plan, for—

- (1) identifying and selecting eligible families to participate in the homeownership program;
- (2) providing relocation assistance to families who elect to move;

- (4) providing ongoing training and counseling for homebuyers and homeowners.

(d) Acquisition and rehabilitation limitation

Acquisition or rehabilitation of a property under a homeownership program under this part may not consist of acquisition or rehabilitation of less than all of the units in the property. The provisions of this subsection may be waived upon a finding by the Secretary that the sale of less than all the buildings in a project is feasible and will not result in a hardship to any tenants of the project who are not included in the homeownership program.

(e) Financing**(1) In general**

The application shall identify and describe the proposed financing for (A) any rehabilitation, and (B) acquisition (i) of the project, where applicable, by an entity for transfer to eligible families, and (ii) by eligible families of ownership interests in, or shares representing, units in the project. Financing may include use of the implementation grant, sale for cash, or other sources of financing (subject to applicable requirements), including conventional mortgage loans and mortgage loans insured under title II of the National Housing Act [12 U.S.C. 1707 et seq.].

(2) Prohibition against pledges

Property transferred under this part shall not be pledged as collateral for debt or otherwise encumbered except when the Secretary determines that—

- (A) such encumbrance will not threaten the long-term availability of the property for occupancy by low-income families;
- (B) neither the Federal Government nor the public housing agency will be exposed to undue risks related to action that may have to be taken pursuant to paragraph (3);
- (C) any debt obligation can be serviced from project income, including operating assistance; and

(D) the proceeds of such encumbrance will be used only to meet housing standards in accordance with subsection (f) of this section or to make such additional capital improvements as the Secretary determines to be consistent with the purposes of this part.

(3) Opportunity to cure

Any lender that provides financing in connection with a homeownership program under this part shall give the public housing agency, resident management corporation, individual owner, or other appropriate entity a reasonable opportunity to cure a financial default before foreclosing on the property, or taking other action as a result of the default.

(f) Housing quality standards

The application shall include a plan ensuring that the unit—

(1) will be free from any defects that pose a danger to health or safety before transfer of an ownership interest in, or shares representing, a unit to an eligible family; and

(2) will, not later than 2 years after the transfer to an eligible family, meet minimum housing standards established by the Secretary for the purpose of this title.¹

(g) Protection of nonpurchasing families

(1) In general

No tenant residing in a dwelling unit in a property on the date the Secretary approves an application for an implementation grant may be evicted by reason of a homeownership program approved under this part.

(2) Rental assistance

If a tenant decides not to purchase a unit, or is not qualified to do so, the Secretary shall, subject to the availability of appropriations, ensure that rental assistance under section 1437f of this title is available for use by each otherwise qualified tenant in that or another property.

(3) Relocation assistance

The recipient shall also inform each such tenant that if the tenant chooses to move, the recipient will pay relocation assistance in accordance with the approved homeownership program.

(b) Cost limitations

The Secretary may establish cost limitations on eligible activities under this part, subject to the provisions of this part.

(c) Use of proceeds from sales to eligible families

The entity that transfers ownership interests in, or shares representing, units to eligible families, or another entity specified in the approved application, shall use the proceeds, if any, from the initial sale for costs of the homeownership program, including operating expenses, improvements to the project, business opportunities for low-income families, supportive services related to the homeownership program, additional homeownership opportunities, and other activities approved by the Secretary.

(d) Restrictions on resale by homeowners

(1) In general

(A) Transfer permitted

A homeowner under a homeownership program may transfer the homeowner's ownership interest in, or shares representing, the unit, except that a homeownership program may establish restrictions on the resale of units under the program.

(B) Right to purchase

Where a resident management corporation, resident council, or cooperative has jurisdiction over the unit, the corporation, council, or cooperative shall have the right to purchase the ownership interest in, or shares representing, the unit from the homeowner for the amount specified in a firm contract between the homeowner and a prospective buyer. If such an entity does not have jurisdiction over the unit or elects not to purchase and if the prospective buyer is not a low-income family, the public housing agency or the implementation grant recipient shall have the right to purchase the ownership interest in, or shares representing, the unit for the same amount.

(C) Promissory note required

The homeowner shall execute a promissory note equal to the difference between the market value and the purchase price, payable to the public housing agency or other entity designated in the homeownership plan, together with a mortgage securing the obligation of the note.

ownership program shall provide for appropriate restrictions to assure that an eligible family may not receive any undue profit. The plan shall provide for limiting the family's consideration for its interest in the property to the total of—

(A) the contribution to equity paid by the family;

(B) the value, as determined by such means as the Secretary shall determine through regulation, of any improvements installed at the expense of the family during the family's tenure as owner; and

(C) the appreciated value determined by an inflation allowance at a rate which may be based on a cost-of-living index, an income index, or market index as determined by the Secretary through regulation and agreed to by the purchaser and the entity that transfers ownership interests in, or shares representing, units to eligible families (or another entity specified in the approved application), at the time of initial sale, and applied against the contribution to equity.

Such an entity may, at the time of initial sale, enter into an agreement with the family to set a maximum amount which this appreciation may not exceed.

(3) 6–20 years

In the case of a transfer during the period beginning 6 years after the acquisition and ending 20 years after the acquisition, the homeownership program shall provide for the recapture by the Secretary or the program of an amount equal to the amount of the declining balance on the note described in paragraph (1)(C).

(4) Use of recaptured funds

Fifty percent of any portion of the net sales proceeds that may not be retained by the homeowner under the plan approved pursuant to this subsection shall be paid to the entity that transferred ownership interests in, or shares representing, units to eligible families, or another entity specified in the approved application, for use for improvements to the project, business opportunities for low-income families, supportive services related to the homeownership program, additional homeownership opportunities, and other activities approved by the Secretary. The remaining 50 percent shall be returned to the Secretary for use under this part, subject to limitations contained in appropriations Acts. Such entity shall keep and make available to the Secretary all records necessary to calculate accurately payments due the Secretary under this subsection.

(e) Third party rights

The requirements under this part regarding quality standards, resale, or transfer of the ownership interest of a homeowner shall be judicially enforceable against the grant recipient with respect to actions involving rehabilitation, and against purchasers of property under this subsection or their successors in interest with respect to other actions by affected low-income families, resident management corporations, resident councils, public housing agencies, and

any agency, corporation, or authority of the United States Government. The parties specified in the preceding sentence shall be entitled to reasonable attorney fees upon prevailing in any such judicial action.

(f) Dollar limitation on economic development activities

Not more than an aggregate of \$250,000 from amounts made available under sections 12872 and 12873 of this title may be used for economic development activities under sections 12872(b)(6) and 12873(b)(9)¹ of this title for any project.

(g) Timely homeownership

Recipients shall transfer ownership of the property to tenants within a specified period of time that the Secretary determines to be reasonable. During the interim period when the property continues to be operated and managed as rental housing, the recipient shall utilize written tenant selection policies and criteria that are approved by the Secretary as consistent with the purpose of improving housing opportunities for low-income families. The recipient shall promptly notify in writing any rejected applicant of the grounds for any rejection.

(h) Records and audit of recipients of assistance

(1) In general

Each recipient shall keep such records as may be reasonably necessary to fully disclose the amount and the disposition by such recipient of the proceeds of assistance received under this part (and any proceeds from financing obtained or sales under subsections (c) and (d) of this section), the total cost of the homeownership program in connection with which such assistance is given or used, and the amount and nature of that portion of the program supplied by other sources, and such other sources as will facilitate an effective audit.

(2) Access by Secretary

The Secretary shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this part.

(3) Access by Comptroller General

The Comptroller General of the United States, or any of the duly authorized representatives of the Comptroller General, shall also have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this part.

(i) Certain entities not eligible

Any entity that assumes, as determined by the Secretary, a mortgage covering eligible property in connection with the acquisition of the property from an owner under this section must comply with any low-income affordability restrictions for the remaining term of the mortgage. This requirement shall only apply to an entity, such as a cooperative association, that, as determined by the Secretary, intends to own the housing on a permanent basis.

Such an entity may, at the time of initial sale, enter into an agreement with the family to set a maximum amount which this appreciation may not exceed.

(3) 6-20 years

In the case of a transfer during the period beginning 6 years after the acquisition and ending 20 years after the acquisition, the homeownership program shall provide for the recapture by the Secretary or the program of an amount equal to the amount of the declining balance on the note described in paragraph (1)(C).

(c) Allocation of resources

(1) Formula allocation

The Secretary shall allocate 90 percent of the amounts approved in appropriation Acts under section 12912 of this title among States and cities whose most recent comprehensive housing affordability strategy (or abbreviated strategy) has been approved by the Secretary under section 12705 of this title. Such amounts shall be allocated as follows:

(A) 75 percent among—

(i) cities that are the most populous unit of general local government in a metropolitan statistical area having a population greater than 500,000 and more than 1,500 cases of acquired immunodeficiency syndrome; and

SUBCHAPTER I—IMPROVING INVESTIGATION AND PROSECUTION OF CHILD ABUSE CASES

§ 13001. Findings

The Congress finds that—

(1) over 2,000,000 reports of suspected child abuse and neglect are made each year, and drug abuse is associated with a significant portion of these;

(2) the investigation and prosecution of child abuse cases is extremely complex, involving numerous agencies and dozens of personnel;

(3) traditionally, community agencies and professionals have different roles in the prevention, investigation, and intervention process;

(4) in such cases, too often the system does not pay sufficient attention to the needs and welfare of the child victim, aggravating the trauma that the child victim has already experienced;

(5) there is a national need to enhance coordination among community agencies and professionals involved in the intervention system;

(6) multidisciplinary child abuse investigation and prosecution programs have been developed that increase the reporting of child abuse cases, reduce the trauma to the child victim, and increase the successful prosecution of child abuse offenders; and

(7) such programs have proven effective, and with targeted Federal assistance, could be duplicated in many jurisdictions throughout the country.

SUBCHAPTER III—CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS

§ 13021. Findings and purpose

(a) Findings

The Congress finds that—

(1) a large number of juvenile and family courts are inundated with increasing numbers of cases due to increased reports of abuse and neglect, increasing drug-related maltreatment, and insufficient court resources;

(2) the amendments made to the Social Security Act [42 U.S.C. 301 et seq.] by the Adoption Assistance and Child Welfare Act of 1980 make substantial demands on the courts handling abuse and neglect cases, but provide no assistance to the courts to meet those demands;

(3) the Adoption¹ and Child Welfare Act of 1980 requires courts to—

(A) determine whether the agency made reasonable efforts to prevent foster care placement;

(B) approve voluntary nonjudicial placement; and

(C) provide procedural safeguards for parents when their parent-child relationship is affected;

(4) social welfare agencies press the courts to meet such requirements, yet scarce resources often dictate that courts comply pro forma without undertaking the meaningful judicial inquiry contemplated by Congress in the Adoption¹ and Child Welfare Act of 1980;

(5) compliance with the Adoption¹ and Child Welfare Act of 1980 and overall improvements in the judicial response to abuse and neglect cases can best come about through action by top level court administrators and judges with administrative functions who understand the unique aspects of decisions required in child abuse and neglect cases; and

(6) the Adoption¹ and Child Welfare Act of 1980 provides financial incentives to train welfare agency staff to meet the requirements, but provides no resources to train judges.

(b) Purpose

The purpose of this subchapter is to provide expanded technical assistance and training to judicial personnel and attorneys, particularly personnel and practitioners in juvenile and family courts, to improve the judicial system's handling of child abuse and neglect cases with specific emphasis on the role of the courts in addressing reasonable efforts that can safely avoid unnecessary and unnecessarily prolonged foster care placement.

(5) the term “sexually explicit conduct” means actual or simulated—

(A) sexual intercourse, including sexual contact in the manner of genital-genital, oral-genital, anal-genital, or oral-anal contact, whether between persons of the same or of opposite sex; sexual contact means the intentional touching, either directly or through clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify sexual desire of any person;

All reports received shall be promptly investigated, and whenever appropriate, investigations shall be conducted jointly by social services and law enforcement personnel, with a view toward avoiding unnecessary multiple interviews with the child.

(e) Reporting form

In every federally operated (or contracted) facility, and on all Federal lands, a standard writ-

All existing staff shall receive such checks not later than May 29, 1991. Except as provided in subsection (b)(3) of this section, no additional staff shall be hired without a check having been completed.

In the case of an incident in which an individual has been charged with one of those offenses, when the charge has not yet been disposed of, an employer may suspend an employee from having any contact with children while on the job until the case is resolved. An application shall state that it is being signed under penalty of perjury, with the applicable Federal punishment for perjury stated on the application.

(2) A Federal agency seeking a criminal history record check shall first obtain the signature of the employee or prospective employee indicating that the employee or prospective employee has been notified of the employer’s obligation to require a record check as a condition of employment and the employee’s right to obtain a copy of the criminal history report made available to the employing Federal agency and the right to challenge the accuracy and completeness of any information contained in the report.

§ 13101. Findings and policy**(a) Findings**

The Congress finds that:

(1) The United States of America annually produces millions of tons of pollution and spends tens of billions of dollars per year controlling this pollution.

(2) There are significant opportunities for industry to reduce or prevent pollution at the source through cost-effective changes in production, operation, and raw materials use. Such changes offer industry substantial savings in reduced raw material, pollution control, and liability costs as well as help protect the environment and reduce risks to worker health and safety.

(3) The opportunities for source reduction are often not realized because existing regulations, and the industrial resources they require for compliance, focus upon treatment and disposal, rather than source reduction; existing regulations do not emphasize multimedia management of pollution; and businesses need information and technical assistance to overcome institutional barriers to the adoption of source reduction practices.

(4) Source reduction is fundamentally different and more desirable than waste management and pollution control. The Environmental Protection Agency needs to address the historical lack of attention to source reduction.

(5) As a first step in preventing pollution through source reduction, the Environmental Protection Agency must establish a source reduction program which collects and disseminates information, provides financial assistance to States, and implements the other activities provided for in this chapter.

(b) Policy

The Congress hereby declares it to be the national policy of the United States that pollution should be prevented or reduced at the source whenever feasible; pollution that cannot be prevented should be recycled in an environmentally safe manner, whenever feasible; pollution that cannot be prevented or recycled should be treated in an environmentally safe manner whenever feasible; and disposal or other release into the environment should be employed only as a last resort and should be conducted in an environmentally safe manner.

§ 13103. EPA activities**(a) Authorities**

The Administrator shall establish in the Agency an office to carry out the functions of the Administrator under this chapter. The office shall

be independent of the Agency's single-medium program offices but shall have the authority to review and advise such offices on their activities to promote a multi-media approach to source reduction. The office shall be under the direction of such officer of the Agency as the Administrator shall designate.

(b) Functions

The Administrator shall develop and implement a strategy to promote source reduction. As part of the strategy, the Administrator shall—

(1) establish standard methods of measurement of source reduction;

(2) ensure that the Agency considers the effect of its existing and proposed programs on source reduction efforts and shall review regulations of the Agency prior and subsequent to their proposal to determine their effect on source reduction;

(3) coordinate source reduction activities in each Agency Office¹ and coordinate with appropriate offices to promote source reduction practices in other Federal agencies, and generic research and development on techniques and processes which have broad applicability;

(4) develop improved methods of coordinating, streamlining and assuring public access to data collected under Federal environmental statutes;

(5) facilitate the adoption of source reduction techniques by businesses. This strategy shall include the use of the Source Reduction Clearinghouse and State matching grants provided in this chapter to foster the exchange of information regarding source reduction techniques, the dissemination of such information to businesses, and the provision of technical assistance to businesses. The strategy shall also consider the capabilities of various businesses to make use of source reduction techniques;

(6) identify, where appropriate, measurable goals which reflect the policy of this chapter, the tasks necessary to achieve the goals, dates at which the principal tasks are to be accomplished, required resources, organizational responsibilities, and the means by which progress in meeting the goals will be measured;

(8)² establish an advisory panel of technical experts comprised of representatives from industry, the States, and public interest groups, to advise the Administrator on ways to improve collection and dissemination of data;

(9) establish a training program on source reduction opportunities, including workshops and guidance documents, for State and Federal permit issuance, enforcement, and inspection officials working within all agency program offices.³

(10) identify and make recommendations to Congress to eliminate barriers to source reduction including the use of incentives and disincentives;

(11) identify opportunities to use Federal procurement to encourage source reduction;

(12) develop, test and disseminate model source reduction auditing procedures designed to highlight source reduction opportunities; and

(13) establish an annual award program to recognize a company or companies which operate outstanding or innovative source reduction programs.

(Pub. L. 101-508, title VI, §6604, Nov. 5, 1990, 104 Stat. 1388-322.)

§ 13104. Grants to States for State technical assistance programs

(a) General authority

The Administrator shall make matching grants to States for programs to promote the use of source reduction techniques by businesses.

(b) Criteria

When evaluating the requests for grants under this section, the Administrator shall consider, among other things, whether the proposed State program would accomplish the following:

(1) Make specific technical assistance available to businesses seeking information about source reduction opportunities, including funding for experts to provide onsite technical advice to business¹ seeking assistance and to assist in the development of source reduction plans.

(2) Target assistance to businesses for whom lack of information is an impediment to source reduction.

(3) Provide training in source reduction techniques. Such training may be provided through local engineering schools or any other appropriate means.

(c) Matching funds

Federal funds used in any State program under this section shall provide no more than 50 per centum of the funds made available to a State in each year of that State's participation in the program.

(d) Effectiveness

The Administrator shall establish appropriate means for measuring the effectiveness of the State grants made under this section in promoting the use of source reduction techniques by businesses.

(e) Information

States receiving grants under this section shall make information generated under the grants available to the Administrator.

(Pub. L. 101-508, title VI, §6605, Nov. 5, 1990, 104 Stat. 1388-323.)

§ 13105. Source Reduction Clearinghouse

(a) Authority

The Administrator shall establish a Source Reduction Clearinghouse to compile information including a computer data base which contains information on management, technical, and operational approaches to source reduction. The Administrator shall use the clearinghouse to—

¹ So in original. Probably should not be capitalized.

² So in original. Subsec. (b) enacted without a par. (7).

³ So in original. The period probably should be a semicolon.

¹ So in original. Probably should be "businesses".

- (1) serve as a center for source reduction technology transfer;
- (2) mount active outreach and education programs by the States to further the adoption of source reduction technologies; and
- (3) collect and compile information reported by States receiving grants under section 13104 of this title on the operation and success of State source reduction programs.

(b) Public availability

The Administrator shall make available to the public such information on source reduction as is gathered pursuant to this chapter and such other pertinent information and analysis regarding source reduction as may be available to the Administrator. The data base shall permit entry and retrieval of information to any person.

(Pub. L. 101-508, title VI, § 6606, Nov. 5, 1990, 104 Stat. 1388-324.)

§ 13106. Source reduction and recycling data collection

(a) Reporting requirements

Each owner or operator of a facility required to file an annual toxic chemical release form under section 11023 of this title for any toxic chemical shall include with each such annual filing a toxic chemical source reduction and recycling report for the preceeding¹ calendar year. The toxic chemical source reduction and recycling report shall cover each toxic chemical required to be reported in the annual toxic chemical release form filed by the owner or operator under section 11023(c) of this title. This section shall take effect with the annual report filed under section 11023 of this title for the first full calendar year beginning after November 5, 1990.

(b) Items included in report

The toxic chemical source reduction and recycling report required under subsection (a) of this section shall set forth each of the following on a facility-by-facility basis for each toxic chemical:

- (1) The quantity of the chemical entering any waste stream (or otherwise released into the environment) prior to recycling, treatment, or disposal during the calendar year for which the report is filed and the percentage change from the previous year. The quantity reported shall not include any amount reported under paragraph (7). When actual measurements of the quantity of a toxic chemical entering the waste streams are not readily available, reasonable estimates should be made based on best engineering judgment.
- (2) The amount of the chemical from the facility which is recycled (at the facility or elsewhere) during such calendar year, the percentage change from the previous year, and the process of recycling used.
- (3) The source reduction practices used with respect to that chemical during such year at the facility. Such practices shall be reported in accordance with the following categories unless the Administrator finds other categories to be more appropriate.

- (A) Equipment, technology, process, or procedure modifications.
- (B) Reformulation or redesign of products.
- (C) Substitution of raw materials.
- (D) Improvement in management, training, inventory control, materials handling, or other general operational phases of industrial facilities.

(4) The amount expected to be reported under paragraph² (1) and (2) for the two calendar years immediately following the calendar year for which the report is filed. Such amount shall be expressed as a percentage change from the amount reported in paragraphs (1) and (2).

(5) A ratio of production in the reporting year to production in the previous year. The ratio should be calculated to most closely reflect all activities involving the toxic chemical. In specific industrial classifications subject to this section, where a feedstock or some variable other than production is the primary influence on waste characteristics or volumes, the report may provide an index based on that primary variable for each toxic chemical. The Administrator is encouraged to develop production indexes to accommodate individual industries for use on a voluntary basis.

(6) The techniques which were used to identify source reduction opportunities. Techniques listed should include, but are not limited to, employee recommendations, external and internal audits, participative team management, and material balance audits. Each type of source reduction listed under paragraph (3) should be associated with the techniques or multiples of techniques used to identify the source reduction technique.

(7) The amount of any toxic chemical released into the environment which resulted from a catastrophic event, remedial action, or other one-time event, and is not associated with production processes during the reporting year.

(8) The amount of the chemical from the facility which is treated (at the facility or elsewhere) during such calendar year and the percentage change from the previous year. For the first year of reporting under this subsection, comparison with the previous year is required only to the extent such information is available.

(c) SARA provisions

The provisions of sections 11042, 11045(c), and 11046 of this title shall apply to the reporting requirements of this section in the same manner as to the reports required under section 11023 of this title. The Administrator may modify the form required for purposes of reporting information under section 11023 of this title to the extent he deems necessary to include the additional information required under this section.

(d) Additional optional information

Any person filing a report under this section for any year may include with the report additional information regarding source reduction, recycling, and other pollution control techniques in earlier years.

¹ So in original. Probably should be "preceding".

² So in original. Probably should be "paragraphs".

(e) Availability of data

Subject to section 11042 of this title, the Administrator shall make data collected under this section publicly available in the same manner as the data collected under section 11023 of this title.

§ 13107. EPA report**(a) Biennial reports**

The Administrator shall provide Congress with a report within eighteen months after November 5, 1990, and biennially thereafter, containing a detailed description of the actions taken to implement the strategy to promote source reduction developed under section 13103(b)¹ of this title and of the results of such actions. The report shall include an assessment of the effectiveness of the clearinghouse and grant program established under this chapter in promoting the goals of the strategy, and shall evaluate data gaps and data duplication with respect to data collected under Federal environmental statutes.

(b) Subsequent reports

Each biennial report submitted under subsection (a) of this section after the first report shall contain each of the following:

(1) An analysis of the data collected under section 13106 of this title on an industry-by-industry basis for not less than five SIC codes or other categories as the Administrator deems appropriate. The analysis shall begin with those SIC codes or other categories of facilities which generate the largest quantities of toxic chemical waste. The analysis shall include an evaluation of trends in source reduction by industry, firm size, production, or other useful means. Each such subsequent report shall cover five SIC codes or other categories which were not covered in a prior report until all SIC codes or other categories have been covered.

(2) An analysis of the usefulness and validity of the data collected under section 13106 of this title for measuring trends in source reduction and the adoption of source reduction by business.

(3) Identification of regulatory and non-regulatory barriers to source reduction, and of opportunities for using existing regulatory programs, and incentives and disincentives to promote and assist source reduction.

(4) Identification of industries and pollutants that require priority assistance in multimedia source reduction²

(5) Recommendations as to incentives needed to encourage investment and research and development in source reduction.

¹ See References in Text note below.

² So in original. Probably should be followed by a period.

(6) Identification of opportunities and development of priorities for research and development in source reduction methods and techniques.

(7) An evaluation of the cost and technical feasibility, by industry and processes, of source reduction opportunities and current activities and an identification of any industries for which there are significant barriers to source reduction with an analysis of the basis of this identification.

(8) An evaluation of methods of coordinating, streamlining, and improving public access to data collected under Federal environmental statutes.

(9) An evaluation of data gaps and data duplication with respect to data collected under Federal environmental statutes.

In the report following the first biennial report provided for under this subsection, paragraphs (3) through (9) may be included at the discretion of the Administrator.

Ex. Ord. No. 13211, May 18, 2001, 66 F.R. 28355, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to appropriately weigh and consider the effects of the Federal Government’s regulations on the supply, distribution, and use of energy, it is hereby ordered as follows:

SECTION 1. *Policy.* The Federal Government can significantly affect the supply, distribution, and use of energy. Yet there is often too little information regarding the effects that governmental regulatory action can have on energy. In order to provide more useful energy-related information and hence improve the quality of agency decisionmaking, I am requiring that agencies shall prepare a Statement of Energy Effects when undertaking certain agency actions. As described more fully below, such Statements of Energy Effects shall describe the effects of certain regulatory actions on energy supply, distribution, or use.

SEC. 2. *Preparation of a Statement of Energy Effects.* (a) To the extent permitted by law, agencies shall prepare and submit a Statement of Energy Effects to the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget, for those matters identified as significant energy actions.

(b) A Statement of Energy Effects shall consist of a detailed statement by the agency responsible for the significant energy action relating to:

(i) any adverse effects on energy supply, distribution, or use (including a shortfall in supply, price increases, and increased use of foreign supplies) should the proposal be implemented, and

(ii) reasonable alternatives to the action with adverse energy effects and the expected effects of such alternatives on energy supply, distribution, and use.

(c) The Administrator of the Office of Information and Regulatory Affairs shall provide guidance to the agencies on the implementation of this order and shall consult with other agencies as appropriate in the implementation of this order.

SEC. 3. *Submission and Publication of Statements.* (a) Agencies shall submit their Statements of Energy Effects to the Administrator of the Office of Information

and Regulatory Affairs, Office of Management and Budget, whenever they present the related submission under Executive Order 12866 of September 30, 1993 [5 U.S.C. 601 note], or any successor order.

(b) Agencies shall publish their Statements of Energy Effects, or a summary thereof, in each related Notice of Proposed Rulemaking and in any resulting Final Rule.

SEC. 4. *Definitions.* For purposes of this order:

(a) “Regulation” and “rule” have the same meaning as they do in Executive Order 12866 [5 U.S.C. 601 note] or any successor order.

(b) “Significant energy action” means any action by an agency (normally published in the Federal Register) that promulgates or is expected to lead to the promulgation of a final rule or regulation, including notices of inquiry, advance notices of proposed rulemaking, and notices of proposed rulemaking:

(1)(i) that is a significant regulatory action under Executive Order 12866 or any successor order, and

(ii) is likely to have a significant adverse effect on the supply, distribution, or use of energy; or

(2) that is designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action.

(c) “Agency” means any authority of the United States that is an “agency” under 44 U.S.C. 3502(1), other than those considered to be independent regulatory agencies, as defined in 44 U.S.C. 3502(5).

SEC. 5. *Judicial Review.* Nothing in this order shall affect any otherwise available judicial review of agency action. This order is intended only to improve the internal management of the Federal Government and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to take additional steps to expedite the increased supply and availability of energy to our Nation, it is hereby ordered as follows:

SECTION 1. *Policy.* The increased production and transmission of energy in a safe and environmentally sound manner is essential to the well-being of the American people. In general, it is the policy of this Administration that executive departments and agencies (agencies) shall take appropriate actions, to the extent consistent with applicable law, to expedite projects that will increase the production, transmission, or conservation of energy and projects that will strengthen pipeline safety.

SEC. 2. *Actions to Expedite Energy-Related Projects.* For energy-related projects (including pipeline safety projects), agencies shall expedite their review of permits or take other actions as necessary to accelerate the completion of such projects, while maintaining safety, public health, and environmental protections. The agencies shall take such actions to the extent permitted by law and regulation, and where appropriate.

SEC. 3. *Interagency Task Force.* (a) There is established, within the Department of Energy for administrative purposes, an interagency task force (Task Force) to perform the following functions:

(i) monitor and assist the agencies in their efforts to expedite their reviews of permits or similar actions, as necessary, to accelerate the completion of energy-related projects (including pipeline safety projects), increase energy production and conservation, and improve the transmission of energy;

(ii) monitor and assist agencies in setting up appropriate mechanisms to coordinate Federal, State, tribal,

and local permitting in geographic areas where increased permitting activity is expected; and

(iii) perform the functions of the interagency committee for which section 60133 of title 49, United States Code, provides.

(b)(i) The Task Force shall consist exclusively of the following members:

(A) in the performance of all Task Force functions set out in sections 3(a)(i) and (ii) of this order, the Secretaries of State, the Treasury, Defense, Agriculture, Housing and Urban Development, Commerce, Transportation, the Interior, Labor, Education, Health and Human Services, Energy, and Veterans Affairs, the Attorney General, the Administrator of the Environmental Protection Agency, the Director of Central Intelligence, the Administrator of General Services, the Director of the Office of Management and Budget, the Chairman of the Council of Economic Advisers, the Assistant to the President for Domestic Policy, the Assistant to the President for Economic Policy, and such other heads of agencies as the Chairman of the Council on Environmental Quality may designate; and

(B) in the performance of the functions to which section 3(a)(iii) of this order refers, the officers listed in section 60133(a)(2)(A)–(H) of title 49, United States Code, and such other representatives of Federal agencies with responsibilities relating to pipeline repair projects as the Chairman of the Council on Environmental Quality may designate.

(ii) A member of the Task Force may designate, to perform the Task Force functions of the member, a full-time officer or employee of that member's agency or office.

(c) The Chairman of the Council on Environmental Quality shall chair the Task Force.

(d) Consultation in the implementation of this order with State and local officials and other persons who are not full-time or permanent part-time employees of the Federal Government shall be conducted in a manner that elicits fully the individual views of each official or other person consulted, without deliberations or efforts to achieve consensus on advice or recommendations.

(e) This order shall be implemented in a manner consistent with the President's constitutional authority to supervise the unitary executive branch.

SEC. 4. *Judicial Review.* Nothing in this order shall affect any otherwise available judicial review of agency action. This order is intended only to improve the internal management of the Federal Government and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person.

No. 12974, §3(b), Sept. 29, 1995, 60 F.R. 51876, which required the Federal Government to institute a Federal fleet vehicle acquisition program and established the Federal Fleet Conversion Task Force to advise on implementation of the program, was revoked by Ex. Ord. No. 13031, §9, Dec. 13, 1996, 61 F.R. 66531, formerly set out below.

EXECUTIVE ORDER NO. 13031

Ex. Ord. No. 13031, Dec. 13, 1996, 61 F.R. 66529, which provided that the Federal Government exercise leadership in the use of alternative fueled vehicles, was re-

voked by Ex. Ord. 13149, §501, Apr. 21, 2000, 65 F.R. 24610, set out below.

EX. ORD. NO. 13149. GREENING THE GOVERNMENT THROUGH FEDERAL FLEET AND TRANSPORTATION EFFICIENCY

Ex. Ord. No. 13149, Apr. 21, 2000, 65 F.R. 24607, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Energy Policy and Conservation Act, as amended (42 U.S.C. 6201 *et seq.*), the Energy Policy Act of 1992 (Public Law 102-486) [see Tables for classification], section 301 of title 3, United States Code, and the Energy Conservation Reauthorization Act of 1998 (Public Law 105-388) [see Short Title of 1998 Amendment note set out under 42 U.S.C. 6201], it is hereby ordered as follows:

PART 1 PREAMBLE

SECTION 101. *Federal Leadership.* The purpose of this order is to ensure that the Federal Government exercises leadership in the reduction of petroleum consumption through improvements in fleet fuel efficiency and the use of alternative fuel vehicles (AFVs) and alternative fuels. Reduced petroleum use and the displacement of petroleum by alternative fuels will help promote markets for more alternative fuel and fuel efficient vehicles, encourage new technologies, enhance the United States' energy self-sufficiency and security, and ensure a healthier environment through the reduction of greenhouse gases and other pollutants in the atmosphere.

PART 2 GOALS

SEC. 201. *Reduced Petroleum Fuel Consumption.* Each agency operating 20 or more motor vehicles within the United States shall reduce its entire vehicle fleet's annual petroleum consumption by at least 20 percent by the end of FY 2005, compared with FY 1999 petroleum consumption levels.

SEC. 202. *Performance Strategies.* Agencies have numerous options for developing a strategy to meet the petroleum reduction levels established in section 201 of this order. Measures include: the use of alternative fuels in light, medium, and heavy-duty vehicles; the acquisition of vehicles with higher fuel economy, including hybrid vehicles; the substitution of cars for light trucks; an increase in vehicle load factors; a decrease in vehicle miles traveled; and a decrease in fleet size. Each agency will need a strategy that includes most, if not all, of these measures, but can develop a strategy that fits its unique fleet configuration and mission requirements. As part of the strategy, each agency should attempt to accelerate the introduction of vehicles meeting Tier 2 standards. Where feasible, agencies should also consider procurement of innovative vehicles, such as hybrid electric vehicles, capable of large improvements in fuel economy. The strategy should also attempt to minimize costs in achieving the objectives of this order. In developing its strategy, each agency shall include the following:

(a) *AFV Acquisition and Use of Alternative Fuels.* Each agency shall fulfill the acquisition requirements for AFVs established by section 303 of the Energy Policy Act of 1992 [42 U.S.C. 13212]. Agencies shall use alternative fuels to meet a majority of the fuel requirements of those motor vehicles by the end of FY 2005. Section 402 of this order addresses related issues of alternative fuel infrastructure availability and the ability to track alternative fuel usage data; and

(b) *Acquisition of Higher Fuel Economy Vehicles.* Agencies shall increase the average EPA fuel economy rating of passenger cars and light trucks acquired by at least 1 mile per gallon (mpg) by the end of FY 2002 and at least 3 mpg by the end of FY 2005 compared to FY 1999 acquisitions.

PART 3 ORGANIZATION AND ACCOUNTABILITY

SEC. 301. *Leadership Responsibilities.* The Office of Management and Budget (OMB), the Department of En-

ergy (DOE), the Environmental Protection Agency (EPA), and the General Services Administration (GSA) shall be responsible for providing leadership to the other Federal agencies in implementing programs to meet the goals of this order. Therefore, they shall perform the following activities:

(a) OMB shall:

(1) designate a senior official to assume the responsibility for coordinating the collection of agency budget and data submissions pursuant to this order;

(2) amend and issue budget guidance to the agencies that requires each agency to identify in its annual budget submission the funding necessary to meet the requirements of this order;

(3) review annual agency budget submissions to determine adequacy in meeting the goal of this order and to balance requests for increased funding to support achievement of the goals against other mission priorities for the agency; and

(4) review agency submissions for the annual report to the Congress, after budget decisions are made.

(b) DOE shall:

(1) issue guidance to agencies, within 90 days of the issuance of this order, on preparation and submission of agency strategies for complying with this order and the collection and annual reporting of data to demonstrate compliance with this order;

(2) review and evaluate agency strategies prior to their submission to OMB;

(3) provide OMB with copies of the agency strategy evaluations;

(4) provide whatever other support OMB requires to facilitate performance of OMB's role;

(5) establish the data collection and reporting system outlined in the DOE guidance for collecting annual agency performance data on meeting the goals of this order and other applicable statutes and policies;

(6) educate personnel from other agencies on the requirements of this order, the data collection and reporting system, best practices for improving fleet fuel efficiency, and methods for successfully acquiring and using AFVs;

(7) review agencies' annual data submissions for accuracy and produce a scorecard of agency and overall Federal compliance with this order and other applicable statutes and policies; and

(8) report to the President annually on compliance with the order, including the scorecard and level of performance in meeting the goals of the agencies' strategies.

(c) EPA shall support DOE and GSA in their efforts to assist the agencies in the accelerated purchase of Tier 2 vehicles.

(d) GSA shall develop and implement strategies that will ease agencies' financial and administrative burdens associated with the acquisition of AFVs, including:

(1) Agencies shall be allowed to replace their conventionally-fueled vehicles with AFVs by making an initial lump-sum payment for the additional acquisition cost of the AFV and shall be allowed to contribute to the higher replacement costs of the AFV incrementally over the term of the lease, and have the option of averaging AFV incremental costs across the agency fleet as provided by the Energy Policy Act of 1992.

(2) Within 120 days of this order, the Administrator of GSA, in consultation with other agencies, shall:

(A) provide a summary of agency AFV acquisition plans to potential AFV manufacturers to assist in their production planning. At least 4 months in advance of agency vehicle ordering cycles, GSA must provide to agencies the best available information on the production plans of AFV manufacturers;

(B) develop, in coordination with DOE and EPA, methods that will help Federal fleet managers to select vehicles to improve fleet fuel efficiency and to meet Tier 2 vehicle standards; and

(C) collaborate with its customer agencies and their procurement staff and officials to discuss and

plan efforts to ensure that the GSA-leased fleet is making progress toward the goals of this order.

SEC. 302. *Designation of Senior Agency Official.* Within 90 days of the date of this order, the head of each agency shall designate a senior official to assume responsibility for the agency's AFV and fleet fuel efficiency programs, and for meeting the requirements of this order. Each senior agency official designated by an agency shall be responsible for:

(a) preparing an agency strategy for meeting the goals of this order, in accordance with guidance issued by DOE;

(b) submitting the agency strategy to DOE within 180 days of the issuance of this order for evaluation and submission to OMB;

(c) implementing the data collection and reporting system outlined in the DOE guidance for collecting annual agency performance data on meeting the goals of this order and reporting the data to DOE;

(d) ensuring the agency's strategy for meeting the goals of this order is incorporated in the annual budget submission to OMB; and

(e) assembling the appropriate team and resources in the agency necessary to attain the goals of this order.

SEC. 303. *Management and Government Performance.* Agencies may use the following management strategies to assist them in meeting the goals of this order:

(a) *Awards.* Agencies may use employee incentive programs to reward exceptional performance in implementing this order.

(b) *Performance Evaluations.* Agencies shall, where appropriate, include successful implementation of the provisions of this order in the position descriptions and performance evaluations of agency heads, the senior official, fleet managers, their superiors, and other relevant employees.

SEC. 304. *Applicability.* This order applies to each agency operating 20 or more motor vehicles within the United States. Agency means an executive agency as defined in 5 U.S.C. 105. For the purpose of this order, military departments, as defined in 5 U.S.C. 102, are covered under the auspices of the Department of Defense.

PART 4 IMPLEMENTATION

SEC. 401. *Vehicle Reporting Credits.* When preparing the annual report to DOE and OMB, each agency acquisition of an alternative fuel light-duty vehicle, regardless of geographic placement, shall count as one credit towards fulfilling the AFV acquisition requirements of the Energy Policy Act of 1992. Agencies shall receive one additional credit for each light-duty AFV that exclusively uses an alternative fuel and for each Zero Emission Vehicle of any size. Agencies shall receive three credits for dedicated medium-duty AFVs and four credits for dedicated heavy-duty AFVs. Agencies can also receive one credit for every 450 gallons of pure biodiesel used in diesel vehicles.

SEC. 402. *Infrastructure.* To support the use of alternative fuel in AFVs, agencies should arrange for fueling at commercial facilities that offer alternative fuels for sale to the public.

(a) Agencies should team with State, local, and private entities to support the expansion and use of public access alternative fuel refueling stations;

(b) Agencies should use the authority granted to them in section 304 of the Energy Policy Act of 1992 [42 U.S.C. 13213] to establish nonpublic access alternative fuel infrastructure for fueling Federal AFVs where public fueling is unavailable.

(c) Agencies are encouraged to work with DOE and GSA to resolve alternative fuel usage tracking issues with alternative and petroleum fuel providers.

SEC. 403. *Procurement of Environmentally Preferable Motor Vehicle Products.*

(a) Consistent with Executive Order 13101 [42 U.S.C. 6961 note] and section 6002 of the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. 6962, effective 6 months after the date of this order, no Federal agency shall purchase, sell, or arrange for the purchase of vir-

gin petroleum motor vehicle lubricating oils when refined motor vehicle lubricating oils are reasonably available and meet the vehicle manufacturer's recommended performance standards.

(b) Consistent with Executive Order 13101 and RCRA section 6962, in acquiring and maintaining motor vehicles, agencies shall acquire and use United States EPA-designated Comprehensive Procurement Guideline items, including but not limited to retread tires, when such products are reasonably available and meet applicable performance standards. In addition, Federal agencies should consider acquiring other recycled content products, such as tires containing a minimum of 5-10 percent post-consumer recovered rubber.

(c) Consistent with Executive Order 13101, Federal agencies are encouraged to use biobased motor vehicle products when such products are reasonably available and meet applicable performance standards.

PART 5 GENERAL PROVISIONS

SEC. 501. *Revocation.* Executive Order 13031 of December 13, 1996, is revoked.

SEC. 502. *Statutory Authority.* Agencies must carry out the provisions of this order to the extent consistent with their statutory authority.

SEC. 503. *Limitations.* This order is intended only to improve the internal management of the executive branch and is not intended to create any right, benefit, or trust responsibility, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any other person.

SEC. 504. *Independent Agencies.* Independent agencies and agencies excepted from coverage by section 304 are encouraged to comply with the provisions of this order.

SEC. 505. *Government-Owned Contractor-Operated Vehicles.* Agencies must ensure that all Government-owned contractor-operated vehicles comply with all applicable goals and other requirements of this order and that these goals and requirements are incorporated into each contractor's management contract.

SEC. 506. *Exemptions for Military Tactical, Law Enforcement, and Emergency Vehicles.* Department of Defense military tactical vehicles are exempt from this order. Law enforcement, emergency, and any other vehicle class or type determined by OMB, in consultation with DOE, are exempted from this order's requirements for Federal fleet fuel efficiency and alternative fuel vehicle acquisition. Agencies claiming vehicle exemptions must provide information on the number of each class or type of vehicle claimed as exempt as well as an estimate of total fuel consumption of exempt vehicles on an annual basis. Agencies should examine options for increasing fuel efficiency in these exempt vehicles and should report actions taken to increase fuel efficiency in these vehicles or fleets. All information required by this section must be submitted annually under Part 3 of this order.

SEC. 507. *Compliance.* (a) If an agency fails to meet requirements of the Energy Policy Act of 1992 or this order, its report to the DOE and OMB under section 302(c) must include an explanation for such failure and an updated strategy for achieving compliance using the agency's current and requested budgets.

(b) OMB, in consultation with DOE, may modify the compliance requirements for an agency under Part 2 of this order, if the agency is unable to comply with the requirements of that part. An agency requesting modification must show that it has made substantial good faith efforts to comply with that part. The availability and costs of alternative fuels and AFVs can be a factor in OMB's decision to modify the agency's compliance with Part 2 of this order.

SEC. 508. *Definitions.* Terms used in this order shall have the same definitions as those in the Energy Policy Act of 1992 [see 42 U.S.C. 13211] and Executive Order 13101 [42 U.S.C. 6961 note], unless specifically changed in guidance to be issued by DOE under section 301(b) of this order.

§ 13232. Labeling requirements

(a) Establishment of requirements

The Federal Trade Commission, in consultation with the Secretary, the Administrator of the Environmental Protection Agency, and the Secretary of Transportation, shall, within 18 months after October 24, 1992, issue a notice of proposed rulemaking for a rule to establish uniform labeling requirements, to the greatest extent practicable, for alternative fuels and alternative fueled vehicles, including requirements for appropriate information with respect to costs and benefits, so as to reasonably enable the consumer to make choices and comparisons. Required labeling under the rule shall be simple and, where appropriate, consolidated with other labels providing information to the consumer. In formulating the rule, the Federal Trade Commission shall give consideration to the problems associated with developing and publishing useful and timely cost and benefit information, taking into account lead time, costs, the frequency of changes in costs and benefits that may occur, and other relevant factors. The Commission shall obtain the views of affected industries, consumer organizations, Federal and State agencies, and others in formulating the rule. A final rule shall be issued within 1 year after the notice of proposed rulemaking is issued. Such rule shall be updated periodically to reflect the most recent available information.

but only to the extent that the inclusion of such costs in rates would not create competitive disadvantages for other market participants, and taking into consideration the effect inclusion of such costs would have on rates, service, and reliability to other utility customers;

(H) such other programs and incentives as the State may describe;

(I) whether accomplishing any of the goals in this subsection would require amendment to State law or regulation, including traffic safety prohibitions;

(J) services provided by municipal, county, and regional transit authorities; and

¹ So in original. Probably should be "guidelines".

tation on matters relating to transportation and with other appropriate Federal and State departments and agencies.

(2) The Secretary shall report annually to the President and the Congress, and shall furnish copies of such report to the Governor of each State participating in the program, on the operation of the program under this section. Such report shall include—

(A) an estimate of the number of alternative fueled vehicles in use in each State;

(B) the degree of each State's participation in the program;

(C) a description of Federal, State, and local programs undertaken in the various States, whether pursuant to a State plan under this section or not, to provide incentives for introduction of alternative fueled vehicles;

(2) The Secretary of Transportation may grant such priority under this section to any entity that demonstrates that the use of alternative fuels for transportation would have a significant beneficial effect on the environment.

(c) School buses

The Secretary of Transportation may also provide, in accordance with such rules as he may prescribe, financial assistance to any agency, municipality, or political subdivision in an urban area referred to in subsection (a) of this section, of any State or the District of Columbia for the purpose of meeting the incremental costs of school buses that are dedicated vehicles and used regularly for such transportation during the school term. Such costs may include the purchase and installation of alternative fuel refueling facilities to be used for school bus refueling, and the conversion of school buses to dedicated vehicles. The Secretary of Transportation may provide such assistance directly to a person who is a contractor of such agency, municipality, or political subdivision, upon the request of the agency, municipality, or political subdivision, and who, under such contract, provides for such transportation. Any conversion under this subsection shall comply with the warranty and safety requirements for alternative fuel conversions contained in section 7587¹ of this title.

(d) Authorization of appropriations

There are authorized to be appropriated not more than \$30,000,000 for each of the fiscal years 1993, 1994, and 1995 for purposes of this section.

§ 13237. Certification of training programs

The Secretary shall ensure that the Federal Government establishes and carries out a program for the certification of training programs for technicians who are responsible for motor vehicle installation of equipment that converts gasoline or diesel-fueled motor vehicles into dedicated vehicles or dual fueled vehicles, and for the maintenance of such converted motor vehicles. A training program shall not be certified under the program established under this section unless it provides technicians with instruction on the proper and safe installation procedures and techniques, adherence to specifications (including original equipment manufacturer specifications), motor vehicle operating procedures, emissions testing, and other appropriate mechanical concerns applicable to these motor vehicle conversions. The Secretary shall ensure that, in the development of the program required under this section, original equipment manufacturers, fuel suppliers, companies that convert conventional vehicles to use alternative fuels, and other affected persons are consulted.

(Pub. L. 102-486, title IV, §411, Oct. 24, 1992, 106 Stat. 2885.)

§ 13238. Alternative fuel use in nonroad vehicles and engines

(a) Nonroad vehicles and engines

(1) The Secretary shall conduct a study to determine whether the use of alternative fuels in nonroad vehicles and engines would contribute substantially to reduced reliance on imported energy sources. Such study shall be completed, and the results thereof reported to Congress, within 2 years after October 24, 1992.

(2) The study shall assess the potential of nonroad vehicles and engines to run on alternative fuels. Taking into account the nonroad vehicles and engines for which running on alternative fuels is feasible, the study shall assess the potential reduction in reliance on foreign energy sources that could be achieved if such vehicles were to run on alternative fuels.

(3) The report required under paragraph (1) may include the Secretary's recommendations for encouraging or requiring nonroad vehicles and engines which can feasibly be run on alternative fuels, to utilize such alternative fuels.

(b) Definition of nonroad vehicles and engines

Nonroad vehicles and engines, for purposes of this section, shall include nonroad vehicles and engines used for surface transportation or principally for industrial or commercial purposes, vehicles used for rail transportation, vehicles used at airports, vehicles or engines used for marine purposes, and other vehicles or engines at the discretion of the Secretary.

(c) Designation

Upon completion of the study required pursuant to subsection (a) of this section, the Sec-

retary may designate such vehicles and engines as qualifying for loans pursuant to section 13239 of this title.

(Pub. L. 102-486, title IV, §412, Oct. 24, 1992, 106 Stat. 2886.)

§ 13239. Low interest loan program

(a) Establishment

Within 1 year after October 24, 1992, the Secretary shall establish a program for making low interest loans, giving preference to small businesses that own or operate fleets, for—

(1) the conversion of motor vehicles to operation on alternative fuels;

(2) covering the incremental costs of the purchase of motor vehicles which operate on alternative fuels, when compared with purchase costs of comparable conventionally fueled motor vehicles; or

(3) covering the incremental costs of purchase of non-road vehicles and engines designated by the Secretary pursuant to section 13238(c) of this title.

(b) Loan terms

The Secretary, to the extent practicable, shall establish reasonable terms for loans made under this subsection, with preference given to repayment schedules that enable such loans to be repaid by the borrower from the cost differential between gasoline and the alternative fuel on which the motor vehicle operates.

(c) Criteria

In deciding to whom loans shall be made under this subsection, the Secretary shall consider—

(1) the financial need of the applicant;

(2) the goal of assisting the greatest number of applicants; and

(3) the ability of an applicant to repay the loan, taking into account the fuel cost savings likely to accrue to the applicant.

(d) Priorities

Priority shall be given under this section to fleets where the use of alternative fuels would have a significant beneficial effect on energy security and the environment.

(e) Authorization of appropriations

There are authorized to be appropriated to the Secretary for carrying out this section, \$25,000,000 for each of the fiscal years 1993, 1994, and 1995.

(Pub. L. 102-486, title IV, §414, Oct. 24, 1992, 106 Stat. 2886.)

SUBCHAPTER III—AVAILABILITY AND USE OF REPLACEMENT FUELS, ALTERNATIVE FUELS, AND ALTERNATIVE FUELED PRIVATE VEHICLES

§ 13251. Mandate for alternative fuel providers

(a) In general

(1) The Secretary shall, before January 1, 1994, issue regulations requiring that of the new light duty motor vehicles acquired by a covered person described in paragraph (2), the following percentages shall be alternative fueled vehicles for the following model years:

- (A) 30 percent for model year 1996.
- (B) 50 percent for model year 1997.
- (C) 70 percent for model year 1998.
- (D) 90 percent for model year 1999 and thereafter.

(2) For purposes of this section, a person referred to in paragraph (1) is—

(A) a covered person whose principal business is producing, storing, refining, processing, transporting, distributing, importing, or selling at wholesale or retail any alternative fuel other than electricity;

(B) a non-Federal covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity; or

(C) a covered person—

(i) who produces, imports, or produces and imports in combination, an average of 50,000 barrels per day or more of petroleum; and

(ii) a substantial portion of whose business is producing alternative fuels.

(3)(A) In the case of a covered person described in paragraph (2) with more than one affiliate, division, or other business unit, only an affiliate, division, or business unit which is substantially engaged in the alternative fuels business (as determined by the Secretary by rule) shall be subject to this subsection.

(B) No covered person or affiliate, division, or other business unit of such person whose principal business is—

(i) transforming alternative fuels into a product that is not an alternative fuel; or

(ii) consuming alternative fuels as a feedstock or fuel in the manufacture of a product that is not an alternative fuel,

shall be subject to this subsection.

(4) The vehicles purchased pursuant to this section shall be operated solely on alternative fuels except when operating in an area where the appropriate alternative fuel is unavailable.

(5) Regulations issued under paragraph (1) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, from the requirements of paragraph (1) of any covered person, in whole or in part, if such person demonstrates to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of that person are not reasonably available for acquisition; or

(B) alternative fuels that meet the normal requirements and practices of the principal business of that person are not available in the area in which the vehicles are to be operated.

(b) Revisions and extensions

With respect to model years 1997 and thereafter, the Secretary may—

(1) revise the percentage requirements under subsection (a)(1) of this section downward, except that under no circumstances shall the percentage requirement for a model year be less than 20 percent; and

(2) extend the time under subsection (a)(1) of this section for up to 2 model years.

(c) Option for electric utilities

The Secretary shall, within 1 year after October 24, 1992, issue regulations requiring that, in

the case of a covered person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the requirements of subsection (a)(1) of this section shall not apply until after December 31, 1997, with respect to electric motor vehicles. Any covered person described in this subsection which plans to acquire electric motor vehicles to comply with the requirements of this section shall so notify the Secretary before January 1, 1996.

(d) Report to Congress

The Secretary shall, before January 1, 1998, submit a report to the Congress providing detailed information on actions taken to carry out this section, and the progress made and problems encountered thereunder.

(Pub. L. 102-486, title V, §501, Oct. 24, 1992, 106 Stat. 2887.)

§ 13252. Replacement fuel supply and demand program

(a) Establishment of program

The Secretary shall establish a program to promote the development and use in light duty motor vehicles of domestic replacement fuels. Such program shall promote the replacement of petroleum motor fuels with replacement fuels to the maximum extent practicable. Such program shall, to the extent practicable, ensure the availability of those replacement fuels that will have the greatest impact in reducing oil imports, improving the health of our Nation's economy and reducing greenhouse gas emissions.

(b) Development plan and production goals

Under the program established under subsection (a) of this section, the Secretary, before October 1, 1993, in consultation with the Administrator, the Secretary of Transportation, the Secretary of Agriculture, the Secretary of Commerce, and the heads of other appropriate agencies, shall review appropriate information and—

(1) estimate the domestic and nondomestic production capacity for replacement fuels and alternative fueled vehicles needed to implement this section;

(2) determine the technical and economic feasibility of achieving the goals of producing sufficient replacement fuels to replace, on an energy equivalent basis—

(A) at least 10 percent by the year 2000; and

(B) at least 30 percent by the year 2010,

of the projected consumption of motor fuel in the United States for each such year, with at least one half of such replacement fuels being domestic fuels;

(3) determine the most suitable means and methods of developing and encouraging the production, distribution, and use of replacement fuels and alternative fueled vehicles in a manner that would meet the program goals described in subsection (a) of this section;

(4) identify ways to encourage the development of reliable replacement fuels and alternative fueled vehicle industries in the United States, and the technical, economic, and institutional barriers to such development; and

(5) determine the greenhouse gas emission implications of increasing the use of replace-

ment fuels, including an estimate of the maximum feasible reduction in such emissions from the use of replacement fuels.

The Secretary shall publish in the Federal Register the results of actions taken under this subsection, and provide for an opportunity for public comment.

(Pub. L. 102-486, title V, §502, Oct. 24, 1992, 106 Stat. 2888.)

§ 13253. Replacement fuel demand estimates and supply information

(a) Estimates

Not later than October 1, 1993, and annually thereafter, the Secretary, in consultation with the Administrator, the Secretary of Transportation, and other appropriate State and Federal officials, shall estimate for the following calendar year—

- (1) the number of each type of alternative fueled vehicle likely to be in use in the United States;
- (2) the probable geographic distribution of such vehicles;
- (3) the amount and distribution of each type of replacement fuel; and
- (4) the greenhouse gas emissions likely to result from replacement fuel use.

(b) Information

Beginning on October 1, 1994, the Secretary shall annually require—

- (1) fuel suppliers to report to the Secretary on the amount of each type of replacement fuel that such supplier—
 - (A) has supplied in the previous calendar year; and
 - (B) plans to supply for the following calendar year;
- (2) suppliers of alternative fueled vehicles to report to the Secretary on the number of each type of alternative fueled vehicle that such supplier—
 - (A) has made available in the previous calendar year; and
 - (B) plans to make available for the following calendar year; and
- (3) such fuel suppliers to provide the Secretary information necessary to determine the greenhouse gas emissions from the replacement fuels used, taking into account the entire fuel cycle.

(c) Protection of information

Information provided to the Secretary under subsection (b) of this section shall be subject to applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18.

(Pub. L. 102-486, title V, §503, Oct. 24, 1992, 106 Stat. 2889.)

§ 13254. Modification of goals; additional rule-making authority

(a) Examination of goals

Within 3 years after October 24, 1992, and periodically thereafter, the Secretary shall examine

the goals established under section 13252(b)(2) of this title, in the context of the program goals stated under section 13252(a) of this title, to determine if the goals under section 13252(b)(2) of this title, including the applicable percentage requirements and dates, should be modified under this section. The Secretary shall publish in the Federal Register the results of each examination under this subsection and provide an opportunity for public comment.

(b) Modification of goals

If, after analysis of information obtained in connection with carrying out subsection (a) of this section or section 13252 of this title, or other information, and taking into account the determination of technical and economic feasibility made under section 13252(b)(2) of this title, the Secretary determines that goals described in section 13252(b)(2) of this title, including the percentage requirements or dates, are not achievable, the Secretary, in consultation with appropriate Federal agencies, shall, by rule, establish goals that are achievable, for purposes of this subchapter. The modification of goals under this section may include changing the target dates specified in section 13252(b)(2) of this title.

(c) Additional rulemaking authority

If the Secretary determines that the achievement of goals described in section 13252(b)(2) of this title would result in a significant and correctable failure to meet the program goals described in section 13252(a) of this title, the Secretary shall issue such additional regulations as are necessary to remedy such failure. The Secretary shall have no authority under this Act to mandate the production of alternative fueled vehicles or to specify, as applicable, the models, lines, or types of, or marketing or pricing practices, policies, or strategies for, vehicles subject to this Act. Nothing in this Act shall be construed to give the Secretary authority to mandate marketing or pricing practices, policies, or strategies for alternative fuels or to mandate the production or delivery of such fuels.

§ 13255. Voluntary supply commitments

The Secretary shall, by January 1, 1994, and thereafter, undertake to obtain voluntary commitments in geographically diverse regions of the United States—

- (1) from fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;
- (2) from owners of 10 or more motor vehicles to acquire and use alternative fueled vehicles and alternative fuels; and
- (3) from suppliers of alternative fueled vehicles to make available to the public alter-

native fueled vehicles and to ensure the availability of necessary related services, in sufficient volume to achieve the goals described in section 13252(b)(2) of this title or as modified under section 13254 of this title, and in order to meet any fleet requirement program established by rule under this subchapter. The Secretary shall periodically report to the Congress on the results of efforts under this section. All voluntary commitments obtained pursuant to this section shall be available to the public, except to the extent provided in applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18.

(Pub. L. 102-486, title V, § 505, Oct. 24, 1992, 106 Stat. 2890.)

§ 13256. Technical and policy analysis

(a) Requirement

Not later than March 1, 1995, and March 1, 1997, the Secretary shall prepare and transmit to the President and the Congress a technical and policy analysis under this section. The Secretary shall utilize the analytical capability and authorities of the Energy Information Administration and such other offices of the Department of Energy as the Secretary considers appropriate.

(b) Purposes

The technical and policy analysis prepared under this section shall be based on the best available data and information obtainable by the Secretary under section 13253 of this title, or otherwise, and on experience under this subchapter and other provisions of law in the development and use of replacement fuels and alternative fueled vehicles, and shall evaluate—

- (1) progress made in achieving the goals described in section 13252(b)(2) of this title, as modified under section 13254 of this title;
- (2) the actual and potential role of replacement fuels and alternative fueled vehicles in significantly reducing United States reliance on imported oil to the extent of the goals referred to in paragraph (1); and
- (3) the actual and potential availability of various domestic replacement fuels and dedicated vehicles and dual fueled vehicles.

(c) Publication

The Secretary shall publish a proposed version of each analysis under this section in the Federal Register for public comment before transmittal to the President and the Congress. Public comment received in response to such publication shall be preserved for use in rulemaking proceedings under section 13257 of this title.

(Pub. L. 102-486, title V, § 506, Oct. 24, 1992, 106 Stat. 2891.)

§ 13257. Fleet requirement program

(a) Fleet program purchase goals

(1) Except as provided in paragraph (2), the following percentages of new light duty motor vehicles acquired in each model year for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person subject to section 13251 of this title, shall be alternative fueled vehicles:

- (A) 20 percent of the motor vehicles acquired in model years 1999, 2000, and 2001;
- (B) 30 percent of the motor vehicles acquired in model year 2002;
- (C) 40 percent of the motor vehicles acquired in model year 2003;
- (D) 50 percent of the motor vehicles acquired in model year 2004;
- (E) 60 percent of the motor vehicles acquired in model year 2005; and
- (F) 70 percent of the motor vehicles acquired in model year 2006 and thereafter.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (b) of this section, establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 1998 (or model year 1999) for initiating the fleet requirements under paragraph (1).

(3) The Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

- (A) evaluating the progress toward achieving the goals of replacement fuel use described in section 13252(b)(2) of this title, as modified under section 13254 of this title;
- (B) identifying the problems associated with achieving those goals;
- (C) assessing the adequacy and practicability of those goals; and
- (D) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(4) After the completion of such advance notice of proposed rulemaking, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (b) of this section, and shall provide for a public comment period, with hearings, of not less than 90 days.

(b) Early rulemaking

(1) Not earlier than 1 year after October 24, 1992, and after carrying out the requirements of subsection (a) of this section, the Secretary shall initiate a rulemaking to determine whether a fleet requirement program to begin in calendar year 1998 (when model year 1999 begins), or such other later date as he may select pursuant to subsection (a) of this section, is necessary under this section. Such rule, consistent with subsection (a)(1) of this section, shall establish the annual applicable model year percentage. No rule under this subsection may be promulgated after December 15, 1996, and be enforceable. A fleet requirement program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

- (A) the goal of replacement fuel use described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under sec-

tion 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title;

(B) such goal is practicable and actually achievable within periods specified in section 13252(b)(2) of this title, as modified under section 13254 of this title, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals; and

(C) by 1998 (when model year 1999 begins) or the date specified by the Secretary in such rule for initiating a fleet requirement program—

(i) there exists sufficient evidence to ensure that the fuel and the needed infrastructure, including the supply and deliverability systems, will be installed and located at convenient places in the fleet areas subject to the rule and will be fully operational when the rule is effective to offer a reliable and timely supply of the applicable alternative fuel at reasonable costs (as compared to conventional fuels) to meet the fleet requirement program, as demonstrated through use of the provisions of section 13255(1) of this title regarding voluntary commitments or other adequate, reliable, and convincing forms of agreements, arrangements, or representations that such fuels and infrastructure are in existence or will exist when the rule is effective and will be expanded as the percentages increase annually;

(ii) there will be a sufficient number of new alternative fueled vehicles from original equipment manufacturers that comply with all applicable requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] and chapter 301 of title 49;

(iii) such new vehicles will meet the applicable non-Federal and non-State fleet performance requirements of such fleets (including range, passenger or cargo-carrying capacity, reliability, refueling capability, vehicle mix, and economical operation and maintenance); and

(iv) establishment of a fleet requirement program by rule under this subsection will not result in unfair competitive advantages or disadvantages, or result in undue economic hardship, to the affected fleets.

(2) The Secretary shall not promulgate a rule under this subsection if he is unable to make affirmative findings in the case of each of the subparagraphs under paragraph (1), and each of the clauses under subparagraph (C) of paragraph (1).

(3) If the Secretary does not determine that such program is necessary under this subsection, the provisions of subsection (e) of this section shall apply to the consideration in the future of any fleet requirement program. The record of this rulemaking, including the Secretary's findings, shall be incorporated into a rulemaking under that subsection. If the Secretary determines under this subsection that

such program is necessary, the Secretary shall not initiate the later rulemaking under subsection (e) of this section.

(c) Advance notice of proposed rulemaking

Not later than April 1, 1998, the Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(1) evaluating the progress toward achieving the goals of replacement fuel use described in section 13252(b)(2) of this title, as modified under section 13254 of this title;

(2) identifying the problems associated with achieving those goals;

(3) assessing the adequacy and practicability of those goals; and

(4) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(d) Proposed rule

Before May 1, 1999, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (g) of this section, and shall provide for a public comment period, with hearings, of not less than 90 days.

(e) Determination

(1) Not later than January 1, 2000, the Secretary shall, through the rule required under subsection (g) of this section, determine whether a fleet requirement program is necessary under this section. Such a program shall be considered necessary and a rule therefor shall be promulgated if the Secretary finds that—

(A) the goal of replacement fuel use described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, is not expected to be actually achieved by 2010, or such other date as is established under section 13254 of this title, by voluntary means or pursuant to this subchapter or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 13252(b)(2)(A) of this title, as modified under section 13254 of this title; and

(B) such goal is practicable and actually achievable within periods specified in section 13252(b)(2) of this title, as modified under section 13254 of this title, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals.

(2) The rule under subsection (b) or (g) of this section shall also modify the goal described in section 13252(b)(2)(B) of this title and establish a revised goal pursuant to section 13254 of this title if the Secretary determines, based on the proceeding required under subsection (a) or (c) of this section, that the goal in effect at the time of that proceeding is inadequate or impracticable, and not expected to be achievable. Such

goal as modified and established shall be applicable in making the findings described in paragraph (1). If the Secretary modifies the goal under this paragraph, he may also modify the percentages stated in subsection (a)(1) or (g)(1) of this section and the minimum percentage stated in subsection (a)(2) or (g)(2) of this section shall be not less than 10 percent.

(f) Explanation of determination that fleet requirement program is not necessary

If the Secretary determines, based on findings under subsection (b) or (e) of this section, that a fleet requirement program under this section is not necessary, the Secretary shall—

(1) by December 15, 1996, with respect to a rulemaking under subsection (b) of this section; and

(2) by January 1, 2000, with respect to a rulemaking under subsection (e) of this section,

publish such determination in the Federal Register as a final agency action, including an explanation of the findings on which such determination is made and the basis for the determination.

(g) Fleet requirement program

(1) If the Secretary determines under subsection (e) of this section that a fleet requirement program is necessary, the Secretary shall, by January 1, 2000, by rule require that, except as provided in paragraph (2), of the total number of new light duty motor vehicles acquired for a fleet, other than a Federal fleet, State fleet, or fleet owned, operated, leased, or otherwise controlled by a covered person under section 13251 of this title—

(A) 20 percent of the motor vehicles acquired in model year 2002;

(B) 40 percent of the motor vehicles acquired in model year 2003;

(C) 60 percent of the motor vehicles acquired in model year 2004; and

(D) 70 percent of the motor vehicles acquired in model year 2005 and thereafter,

shall be alternative fueled vehicles.

(2) The Secretary may not establish percentage requirements higher than those described in paragraph (1). The Secretary may, if appropriate, and pursuant to a rule under subsection (g) of this section, establish a lesser percentage requirement for any model year. The Secretary may, by rule, establish a date later than 2002 (when model year 2003 begins) for initiating the fleet requirements under paragraph (1).

(3) Nothing in this subchapter shall be construed as requiring any fleet to acquire alternative fueled vehicles or alternative fuels that do not meet the normal business requirements and practices and needs of that fleet.

(4) A vehicle operating only on gasoline that complies with applicable requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] shall not be considered an alternative fueled vehicle under subsection (b) of this section or this subsection, except that the Secretary, as part of the rule under subsection (b) of this section or this subsection, may determine that such vehicle should be treated as an alternative fueled vehicle for purposes of this section, for fleets subject to part C of title II of the Clean Air Act [42 U.S.C.

7581 et seq.], taking into consideration the impact on energy security and the goals stated in section 13252(a) of this title.

(h) Extension of deadlines

The Secretary may, by notice published in the Federal Register, extend the deadlines established under subsections (e), (f)(2), and (g) of this section for an additional 90 days if the Secretary is unable to meet such deadlines. Such extension shall not be reviewable.

(i) Exemptions

(1) A rule issued under subsection (b), (g), or (o) of this section shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, of any fleet from the requirements of subsection (b), (g), or (o) of this section, in whole or in part, if it is demonstrated to the satisfaction of the Secretary that—

(A) alternative fueled vehicles that meet the normal requirements and practices of the principal business of the fleet owner are not reasonably available for acquisition;

(B) alternative fuels that meet the normal requirements and practices of the principal business of the fleet owner are not available in the area in which the vehicles are to be operated; or

(C) in the case of State and local government entities, the application of such requirements would pose an unreasonable financial hardship.

(2) In the case of private fleets, if the motor vehicles, when under normal operations, are garaged at personal residences at night, such motor vehicles shall be exempt from the requirements of subsections (b) and (g).

(j) Conversions

Nothing in this subchapter or the amendments made by this subchapter shall require a fleet owner to acquire conversion vehicles.

(k) Inclusion of law enforcement vehicles and urban buses

(1) If the Secretary determines, by rule, that the inclusion of fleets of law enforcement motor vehicles in the fleet requirement program established under subsection (g) of this section would contribute to achieving the goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, and the Secretary finds that such inclusion would not hinder the use of the motor vehicles for law enforcement purposes, the Secretary may include such fleets in such program. The Secretary may only initiate one rulemaking under this paragraph.

(2) If the Secretary determines, by rule, that the inclusion of new urban buses, as defined by the Administrator under title II of the Clean Air Act [42 U.S.C. 7521 et seq.], in a fleet requirement program established under subsection (g) of this section would contribute to achieving the goal described in section 13252(b)(2)(B) of this title, as modified under section 13254 of this title, the Secretary may include such urban buses in such program, if the Secretary finds that such application will be consistent with energy security goals and the needs and objectives of encouraging and facilitating the greater use

of such urban buses by the public, taking into consideration the impact of such application on public transit entities. The Secretary may only initiate one rulemaking under this paragraph.

(3) Rulemakings under paragraph (1) or (2) shall be separate from a rulemaking under subsection (g) of this section, but may not occur unless a rulemaking is carried out under subsection (g) of this section.

(l) Consideration of factors

In carrying out this section, the Secretary shall take into consideration energy security, costs, safety, lead time requirements, vehicle miles traveled annually, effect on greenhouse gases, technological feasibility, energy requirements, economic impacts, including impacts on workers and the impact on consumers (including users of the alternative fuel for purposes such as for residences, agriculture, process use, and non-fuel purposes) and fleets, the availability of alternative fuels and alternative fueled vehicles, and other relevant factors.

(m) Consultation and participation of other Federal agencies

In carrying out this section and section 13256 of this title, the Secretary shall consult with the Secretary of Transportation, the Administrator, and other appropriate Federal agencies. The Secretary shall provide for the participation of the Secretary of Transportation and the Administrator in the development and issuance of the rule under this section, including the public process concerning such rule.

(n) Petitions

As part of the rule promulgated either pursuant to subsection (b) or (g) of this section, the Secretary shall establish procedures for any fleet owner or operator or motor vehicle manufacturer to request that the Secretary modify or suspend a fleet requirement program established under either subsection nationally, by region, or in an applicable fleet area because, as demonstrated by the petitioner, the infrastructure or fuel supply or distribution system for an applicable alternative fuel is inadequate to meet the needs of a fleet. In the event that the Secretary determines that a modification or suspension of the fleet requirement program on a regional basis would detract from the nationwide character of any fleet requirement program established by rule or would sufficiently diminish the economies of scale for the production of alternative fueled vehicles or alternative fuels and thereafter the practicability and effectiveness of such program, the Secretary may only modify or suspend the program nationally. The procedures shall include provisions for notice and public hearings. The Secretary shall deny or grant the petition within 180 days after filing.

(o) Mandatory State fleet programs

(1) Pursuant to a rule promulgated by the Secretary, beginning in calendar year 1995 (when model year 1996 begins), the following percentages of new light duty motor vehicles acquired annually for State government fleets, including agencies thereof, but not municipal fleets, shall be alternative fueled vehicles:

(A) 10 percent of the motor vehicles acquired in model year 1996;

(B) 15 percent of the motor vehicles acquired in model year 1997;

(C) 25 percent of the motor vehicles acquired in model year 1998;

(D) 50 percent of the motor vehicles acquired in model year 1999;

(E) 75 percent of the motor vehicles acquired in model year 2000 and thereafter.

(2)(A) The Secretary shall within 18 months after October 24, 1992, promulgate a rule providing that a State may submit a plan within 12 months after such promulgation containing a light duty alternative fueled vehicle plan for State fleets to meet the annual percentages established under paragraph (1) for the acquisition of light duty motor vehicles. The plan shall provide for the voluntary conversion or acquisition or combination thereof, beyond any acquisition required by this subchapter, of such motor vehicles by State, local, or private fleets, in numbers greater than or equal to the number of State alternative fueled vehicles required pursuant to paragraph (1).

(B) The plan, if approved by the Secretary, would be in lieu of the State meeting such annual percentages solely through purchases of new State-owned vehicles. All conversions or acquisitions or combinations thereof of any alternative fueled vehicles under the plan must be voluntary and must conform with the requirements of section 247 of the Clean Air Act [42 U.S.C. 7587] and must comply with applicable safety requirements. The Secretary of Transportation shall within 3 years after enactment promulgate rules setting forth safety standards in accordance with chapter 301 of title 49 applicable to all conversions.

§ 13258. Credits

(a) In general

The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this subchapter, if that fleet or person acquires an alternative

fueled vehicle in excess of the number that fleet or person is required to acquire under this subchapter or acquires an alternative fueled vehicle before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter.

(b) Allocation

In allocating credits under subsection (a) of this section, the Secretary shall allocate one credit for each alternative fueled vehicle the fleet or covered person acquires that exceeds the number of alternative fueled vehicles that fleet or person is required to acquire under this subchapter or that is acquired before the date that fleet or person is required to acquire an alternative fueled vehicle under such subchapter. In the event that a vehicle is acquired before the date otherwise required, the Secretary shall allocate one credit per vehicle for each year the vehicle is acquired before the required date. The credit shall be allocated for the same type vehicle as the excess vehicle or earlier acquired vehicle.

(c) Use of credits

At the request of a fleet or covered person allocated a credit under this section, the Secretary shall treat the credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by that fleet or person when determining whether that fleet or person has complied with this subchapter in the year designated. A credit may be counted toward compliance for only one year.

(d) Transferability

A fleet or covered person allocated a credit under this section or to whom a credit is transferred under this section, may transfer freely the credit to another fleet or person who is required to comply with this subchapter. At the request of the fleet or person to whom a credit is transferred, the Secretary shall treat the transferred credit as the acquisition of one alternative fueled vehicle of the type for which the credit is allocated in the year designated by the fleet or person to whom the credit is transferred when determining whether that fleet or person has complied with this subchapter in the year designated. A transferred credit may be counted toward compliance for only one year. In the case of the alternative fuel provider program under section 13251 of this title, a transferred credit may be counted toward compliance only if the requirement of section 13251(a)(4) of this title is met.

§ 13259. Secretary's recommendations to Congress

(a) Recommendations to require availability or acquisition

If the Secretary determines, under section 13257(f) of this title, that a fleet requirement program under section 13257 of this title is not necessary, the Secretary shall so notify the Congress. If the Secretary so notifies the Congress, the Secretary shall, within 2 years after such

notification and by rule, prepare and submit to the Congress recommendations for requirements or incentives for—

(1) fuel suppliers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services; and

(3) motor vehicle drivers to use replacement fuels,

to the extent necessary to achieve such goals of replacement fuel use and to ensure that the availability of alternative fuels and of alternative fueled vehicles are consistent with each other.

(b) Fair and equitable application

In carrying out this section, the Secretary shall recommend the imposition of requirements proportionately on all appropriate fuel suppliers and purchasers of motor fuels and suppliers and purchasers of motor vehicles in a fair and equitable manner.

Nothing in this Act or the amendments made by this Act shall be construed to alter, affect, or modify the provisions of the Clean Air Act [42 U.S.C. 7401 et seq.], or regulations issued thereunder.

(b) Compliance by alternative fueled vehicles

Alternative fueled vehicles, whether dedicated vehicles or dual fueled vehicles, and the alternative fuels for operating such vehicles, shall comply with requirements of the Clean Air Act [42 U.S.C. 7401 et seq.] applicable to such vehicles and fuels.

title on a showing that the fleet owned, operated, leased, or otherwise controlled by the State or covered person—

(1) will achieve a reduction in the annual consumption of petroleum fuels by the fleet equal to—

(A) the reduction in consumption of petroleum that would result from 100 percent cumulative compliance with the fuel use requirements of section 13251 of this title; or

(B) in the case of an entity covered under section 13257(o) of this title, a reduction equal to the annual consumption by the State entity of alternative fuels if all of the cumulative alternative fuel vehicles of the State entity given credit under section 13258 of this title were to use alternative fuel 100 percent of the time; and

PART A—ELECTRIC MOTOR VEHICLE COMMERCIAL DEMONSTRATION PROGRAM

§ 13281. Program and solicitation

(a) Program

The Secretary shall conduct a program to demonstrate electric motor vehicles and the associated equipment of such vehicles, in consultation with the Electric and Hybrid Vehicle Program Site Operators, manufacturers, the electric utility industry, and such other persons as the Secretary considers appropriate. Such program shall be—

(1) designed to accelerate the development and use of electric motor vehicles; and

(2) structured to evaluate the performance of such electric motor vehicles in field operation, including fleet operation, and evaluate the necessary supporting infrastructure.

(b) Solicitation

(1) Not later than 18 months after October 24, 1992, the Secretary shall solicit proposals to demonstrate electric motor vehicles and associated equipment in one or more eligible metropolitan areas. The Secretary may make additional solicitations for proposals if the Secretary determines that such solicitations are necessary to carry out this part.

(2)(A) Solicitations for proposals under this subsection shall require the proposer to include a description, including the manufacturer or manufacturers of the electric motor vehicles; the proposed users of the electric motor vehicles; the eligible metropolitan area or areas involved; the number of electric motor vehicles to be demonstrated and their type, characteristics, and life-cycle costs; the price differential; the proposed discount payment; the contributions of State or local governments and other persons to the demonstration project; the type of associated equipment to be demonstrated; the domestic content of the electric motor vehicles and associated equipment; and any other information the Secretary considers appropriate.

(B) If the proposal includes a lease arrangement, the proposal shall indicate the terms of such lease arrangement for the electric motor vehicles or associated equipment.

(3) The solicitation for proposals under this subsection shall establish a closing date for re-

ceipt of proposals. The Secretary may, if necessary, extend the closing date for receipt of proposals for a period not to exceed 90 days.

(Pub. L. 102-486, title VI, §611, Oct. 24, 1992, 106 Stat. 2900.)

§ 13282. Selection of proposals

(a) Selection

(1) The Secretary, in consultation with the Secretary of Transportation, the Secretary of Commerce, and the Administrator of the Environmental Protection Agency, shall, not later than 120 days after the closing date, as established by the Secretary, for receipt of proposals under section 13281 of this title, select at least one, but not more than 10, proposals to receive financial assistance under section 13283 of this title.

(2) The Secretary may select more than 10 proposals under this section, if the Secretary determines that the total amount of available funds is not likely to be otherwise utilized.

(3) Any proposal selected under paragraph (1) must satisfy the limitations set forth in section 13283(c) of this title.

(4) No one project selected under this section shall receive more than 25 percent of the funds authorized under section 13286 of this title.

(5) A demonstration project may not include electric motor vehicles in more than one eligible metropolitan area, unless the total number of electric motor vehicles in that project is equal to, or greater than, 100.

(b) Criteria

In selecting a proposal and in negotiating financial assistance under this section, the Secretary shall consider—

(1) the ability of the manufacturer, directly, indirectly, or in combination with the proposer, to develop, assist in the demonstration of, manufacture, distribute, sell, provide warranties for, service, and ensure the continued availability of parts for, electric motor vehicles in the demonstration project;

(2) the geographic and climatic diversity of the eligible metropolitan area or areas in which the demonstration project is to be undertaken, when considered in combination with other proposals and other selected demonstration projects;

(3) the long-term technical and competitive viability of the electric motor vehicles;

(4) the suitability of the electric motor vehicles for their intended uses;

(5) the environmental effects of the use of the proposed electric motor vehicles;

(6) the price differential and the proposed discount payment;

(7) the extent of involvement of State or local government and other persons in the demonstration project, and whether such involvement will—

(A) permit a reduction of the Federal cost share per vehicle; or

(B) otherwise be used to allow the Federal contribution to be provided for a greater number of electric motor vehicles;

(8) the proportion of domestic content of the electric motor vehicles and associated equipment;

(9) the safety of the electric motor vehicles; and

(10) such other criteria as the Secretary considers appropriate.

(c) Conditions

The Secretary shall require that—

(1) as a part of a demonstration project, the user or users of the electric motor vehicles will provide to the proposer and the manufacturer information regarding the operation, maintenance, performance, and use of the electric motor vehicles for 5 years after the beginning of the demonstration project;

(2) the proposer shall provide to the Secretary such information regarding the operation, maintenance, performance, and use of the electric motor vehicles as the Secretary may request during the period of the demonstration project;

(3) in the case of a demonstration project including automobiles or light duty trucks, the number of electric motor vehicles to be included in the demonstration project shall be no less than 50, except that the Secretary may select a demonstration project with fewer than 50 electric motor vehicles if the Secretary determines that selection of such a proposal will ensure that there is geographic or climatic diversity among the proposals selected and that an adequate demonstration to accelerate the development and use of electric motor vehicles can be undertaken with fewer than 50 electric motor vehicles; and

(4) the procurement practices of the manufacturer do not discriminate against United States producers of vehicle parts.

(Pub. L. 102-486, title VI, §612, Oct. 24, 1992, 106 Stat. 2901.)

§ 13283. Discount payments

(a) Certification

The Secretary shall provide a discount payment to a proposer of a proposal selected under this part for purposes of reimbursing the proposer for a discount provided to the users if the proposer certifies to the Secretary that—

(1) the electric motor vehicles have been purchased or leased by a user or users in accordance with the requirements of this part; and

(2) the proposer has provided to the user or users a discount payment in accordance with the requirements of this part.

(b) Payment

Not later than 30 days after receipt from the proposer of certification that the Secretary determines satisfies the requirements of subsection (a) of this section, the Secretary shall pay to the proposer the full amount of the discount payment, to the extent provided in advance in appropriations Acts.

(c) Calculations of discount payments

(1) The discount payment shall be no greater than—

(A) the price differential; or

(B) the price of the comparable conventionally fueled motor vehicle.

(2) The purchase price of the electric motor vehicle, less the discount payment and less any ad-

ditional reduction in the purchase price of the electric motor vehicle that may result from contributions provided by other parties, may not be less than the manufacturer's suggested retail price of a comparable conventionally fueled motor vehicle.

(3) The maximum discount payment shall be no greater than \$10,000 per electric motor vehicle.

(Pub. L. 102-486, title VI, §613, Oct. 24, 1992, 106 Stat. 2902.)

§ 13284. Cost-sharing

(a) Requirement

The Secretary shall require at least 50 percent of the costs directly and specifically related to any project under this part to be from non-Federal sources. Such share may be in the form of cash, personnel, services, equipment, and other resources.

(b) Reduction

The Secretary may reduce the amount of costs required to be provided by non-Federal sources under subsection (a) of this section if the Secretary determines that the reduction is necessary and appropriate—

- (1) considering the technological risks involved in the project; and
- (2) in order to meet the objectives of this part.

(Pub. L. 102-486, title VI, §614, Oct. 24, 1992, 106 Stat. 2903.)

§ 13285. Reports to Congress

(a) Progress reports

The Secretary shall report annually to Congress on the progress being made, through demonstration projects supported under this part, to accelerate the development and use of electric motor vehicles.

(b) Report on encouraging purchase and use of electric motor vehicles

Within 18 months after October 24, 1992, the Secretary shall submit to the Congress a report on methods for encouraging the purchase and use of electric motor vehicles. Such report shall—

- (1) address the potential cost of purchasing and maintaining electric motor vehicles, including the initial cost of the batteries and the cost of replacement batteries;
- (2) identify methods for reducing, subsidizing, or sharing such costs; and
- (3) include recommendations for legislative and administrative measures to encourage the purchase and use of electric motor vehicles.

(Pub. L. 102-486, title VI, §615, Oct. 24, 1992, 106 Stat. 2903.)

§ 13286. Authorization of appropriations

There are authorized to be appropriated to the Secretary for purposes of this part \$50,000,000 for the 10-year period beginning with the first full fiscal year after October 24, 1992, to remain available until expended.

(Pub. L. 102-486, title VI, §616, Oct. 24, 1992, 106 Stat. 2903.)

Such recoupment shall occur within a reasonable period of time following the date of completion of such project, but not later than 20 years following such date, taking into account the effect of recoupment on—

(i) the commercial competitiveness of the entity carrying out the project;

(ii) the profitability of the project; and

(iii) the commercial viability of the coal-based technology utilized.

(B) The Secretary may at any time waive or defer all or some portion of the recoupment requirement as necessary for the commercial viability of the project.

(3) In selecting among proposed projects, the Secretary shall seek to ensure that, relative to otherwise comparable projects in the host country, a selected project will meet 1 or more of the following criteria:

(A) It will reduce environmental emissions to an extent greater than required by applicable provisions of law.

(B) It will increase the overall efficiency of the utilization of coal, including energy conversion efficiency and, where applicable, production of products derived from coal.

(C) It will be a more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those projects which, in the judgment of the Secretary, best meet one or more of these criteria.

(i) United States-Asia Environmental Partnership

Activities carried out under this section shall be coordinated with the United States-Asia Environmental Partnership.

(j) Buy America

In carrying out this section, the Secretary, through the Agency for International Develop-

ment, and pursuant to the agreements under subsection (a) of this section, shall ensure—

(1) the maximum percentage, but in no case less than 50 percent, of the cost of any equipment furnished in connection with a project authorized under this section shall be attributable to the manufactured United States components of such equipment; and

(2) the maximum participation of United States firms.

In determining whether the cost of United States components equals or exceeds 50 percent, the cost of assembly of such United States components in the host country shall not be considered a part of the cost of such United States component.

(k) Reports to Congress

The Secretary and the Administrator of the Agency for International Development shall report annually to the Committee on Energy and Natural Resources of the Senate and the appropriate committees of the House of Representatives on the progress being made to introduce clean coal technologies into foreign countries.

(l) “Host country” defined

For purposes of this section, the term “host country” means a foreign country which is—

(1) the participant in or the site of the proposed clean coal technology project; and

(2) either—

(A) classified as a country eligible to participate in development assistance programs of the Agency for International Development pursuant to applicable law or regulation; or

(B) a developing country or country with an economy in transition from a nonmarket to a market economy.

(m) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the program required by this section, \$100,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998.

(Pub. L. 102-486, title XIII, § 1332, Oct. 24, 1992, 106 Stat. 2979.)

§ 13363. Conventional coal technology transfer

If the Secretary determines that the utilization of a clean coal technology is not practicable for a proposed project and that a United States conventional coal technology would constitute a substantial improvement in efficiency, costs, and environmental performance relative to the technology being used in a developing country or country making the transition from nonmarket to market economies, with significant indigenous coal resources, such technology shall, for purposes of sections 13361 and 13362¹ of this title, be considered a clean coal technology. In the case of combustion technologies, only the retrofit, repowering, or replacement of a conventional technology shall constitute a substantial improvement for purposes of this section. In carrying out this section, the Secretary shall give highest priority to promoting the most environ-

mentally sound and energy efficient technologies.

Sections 13361 and 13362 of this title, referred to in text, was in the original “sections 1321 and 1322” and was translated as reading “sections 1331 and 1332” meaning sections 1331 and 1332 of Pub. L. 102-486, to reflect the probable intent of Congress, because Pub. L. 102-486 does not contain a section 1322 and sections 1331 and 1332 of Pub. § 13364. Study of utilization of coal combustion byproducts

(a) “Coal combustion byproducts” defined

As used in this section, the term “coal combustion byproducts” means the residues from the combustion of coal including ash, slag, and flue gas desulfurization materials.

(b) Study and report to Congress

(1) The Secretary shall conduct a detailed and comprehensive study on the institutional, legal, and regulatory barriers to increased utilization of coal combustion byproducts by potential governmental and commercial users. Such study shall identify and investigate barriers found to exist at the Federal, State, or local level, which may have limited or may have the foreseeable effect of limiting the quantities of coal combustion byproducts that are utilized. In conducting this study, the Secretary shall consult with other departments and agencies of the Federal Government, appropriate State and local governments, and the private sector.

(2) Not later than one year after October 24, 1992, the Secretary shall submit a report to the Congress containing the results of the study required by paragraph (1) and the Secretary’s recommendations for action to be taken to increase the utilization of coal combustion byproducts. At a minimum, such report shall identify actions that would increase the utilization of coal combustion byproducts in—

(A) bridge and highway construction;

(B) stabilizing wastes;

(C) procurement by departments and agencies of the Federal Government and State and local governments; and

(D) federally funded or federally subsidized procurement by the private sector.

§ 13366. National clearinghouse

(a) Feasibility

(1) The Secretary shall assess the feasibility of establishing a national clearinghouse for the exchange and dissemination of technical information on technology relating to coal and coal-derived fuels.

(2) In assessing the feasibility, the Secretary shall consider whether such a clearinghouse would be appropriate for purposes of—

(A) collecting information and data on technology relating to coal, and coal-derived fuels, which can be utilized to improve environmental quality and increase energy independence;

(B) disseminating to appropriate individuals, governmental departments, agencies, and instrumentalities, institutions of higher education, and other entities, information and data collected pursuant to this section;

(C) maintaining a library of technology publications and treatises relating to technology information and data collected pursuant to this section;

(D) organizing and conducting seminars for government officials, utilities, coal companies, and other entities or institutions relating to technology using coal and coal-derived fuels that will improve environmental quality and increase energy independence;

(E) gathering information on research grants made for the purpose of improving or enhancing technology relating to the use of coal, and coal-derived fuels, which will improve environmental quality and increase energy independence;

(F) translating into English foreign research papers, articles, seminar proceedings, test results that affect, or could affect, clean coal use technology, and other documents;

(G) encouraging, during the testing of technologies, the use of coal from a variety of domestic sources, and collecting or developing, or both, complete listings of test results using coals from all sources;

(H) establishing and maintaining an index or compilation of research projects relating to clean coal technology carried out throughout the world; and

(I) conducting economic modeling for feasibility of projects.

(b) Authority to establish clearinghouse

(Pub. L. 102-486, title XIII, § 1337, Oct. 24, 1992, 106 Stat. 2985.)

§ 13367. Coal exports

(a) Plan

Within 180 days after October 24, 1992, the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall submit to the appropriate committees of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a plan for expanding exports of coal mined in the United States.

(b) Plan contents

The plan submitted under subsection (a) of this section shall include—

(1) a description of the location, size, and projected growth in potential export markets for coal mined in the United States;

(2) the identification by country of the foreign trade barriers to the export of coal mined in the United States, including foreign coal production and utilization subsidies, tax treatment, labor practices, tariffs, quotas, and other nontariff barriers;

(3) recommendations and a plan for addressing any such trade barriers;

(4) an evaluation of existing infrastructure in the United States and any new infrastructure requirements in the United States to support an expansion of exports of coal mined in the United States, including ports, vessels, rail lines, and any other supporting infrastructure; and

(5) an assessment of environmental implications of coal exports and the identification of export opportunities for blending coal mined in the United States with coal indigenous to other countries to enhance energy efficiency and environmental performance.

(Pub. L. 102-486, title XIII, § 1338, Oct. 24, 1992, 106 Stat. 2986.)

§ 13368. Ownership of coalbed methane

(a) Federal lands and mineral rights

In the case of any deposit of coalbed methane where the United States is the owner of the surface estate or where the United States has transferred the surface estate but reserved the subsurface mineral estate, the Secretary of the Interior shall administer this section. This section and the definitions contained herein shall be applicable only on lands within Affected States.

(b) Affected States

Not later than 180 days after October 24, 1992, the Secretary of the Interior, with the participa-

tion of the Secretary of Energy, shall publish in the Federal Register a list of Affected States which shall be comprised of States—

(1) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that disputes, uncertainty, or litigation exist, regarding the ownership of coalbed methane gas;

(2) in which the Secretary of the Interior, with the participation of the Secretary of Energy, determines that development of significant deposits of coalbed methane gas is being impeded by such existing disputes, uncertainty, or litigation regarding ownership of such coalbed methane;

(3) which do not have in effect a statutory or regulatory procedure or existing case law permitting and encouraging the development of coalbed methane gas within that State; and

(4) which do not have extensive development of coalbed methane gas.

The Secretary of the Interior, with the participation of the Secretary of Energy, shall revise such list of Affected States from time to time. Any Affected State shall be deleted from the list of Affected States upon the receipt by the Secretary of the Interior of a Governor's petition requesting such deletion, a State law requesting such deletion, or a resolution requesting such deletion enacted by the legislative body of the State. A Governor intending to petition the Secretary of the Interior to delete a State from the list of Affected States shall provide the State's legislative body with 6 months notice of such petition during a legislative session. At the end of such 6-month period, the Governor may petition the Secretary of the Interior to delete a State from the list of Affected States, unless during such 6-month period, the State's legislative body has enacted a law or resolution disapproving the Governor's petition. Until the Secretary of the Interior, with the participation of the Secretary of Energy, publishes a different list, the States of West Virginia, Pennsylvania, Kentucky, Ohio, Tennessee, Indiana, and Illinois shall be the Affected States, effective on October 24, 1992. The States of Colorado, Montana, New Mexico, Wyoming, Utah, Virginia, Washington, Mississippi, Louisiana, and Alabama shall not be included on the Secretary of the Interior's list of Affected States or any extension or revision thereof.

(c) Failure to adopt statutory or regulatory procedure

If an Affected State has not placed in effect, by statute or by regulation, a substantial program promoting the permitting, drilling and production of coalbed methane wells (including pooling arrangements) within that State within 3 years after becoming an Affected State, the Secretary of the Interior, with the participation of the Secretary of Energy, shall administer this section and shall promulgate such regulations as are necessary to carry out this section in that State.

(d) Implementation by Secretary of the Interior

In implementing this section, the Secretary of the Interior, with the participation of the Secretary of Energy, shall—

(A) consider existing and future coal mining plans,

(B) preserve the mineability of coal seams, and

(C) provide for the prevention of waste and maximization of recovery of coal and coalbed methane gas in a manner which will protect the rights of all entities owning an interest in such coalbed methane resource.

(e) Spacing

Except where State law in an Affected State contains existing spacing requirements regarding the minimum distance between coalbed methane wells and the minimum distance of a coalbed methane well from a property line, the Secretary of the Interior shall establish such requirements within 90 days after the assertion of jurisdiction pursuant to subsection (c) of this section.

(f) Spacing units

Applications to establish spacing units for the drilling and operation of coalbed methane gas wells may be filed by any entity claiming a coalbed methane ownership interest within a proposed spacing unit. Upon receipt and approval of an application, the Secretary of the Interior shall issue an order establishing the boundaries of the coalbed methane spacing unit. Spacing units shall generally be uniform in size.

(g) Development under pooling arrangement

Following issuance of an order establishing a spacing unit under subsection (f) of this section, and pursuant to an application for pooling filed by the entity claiming a coalbed methane ownership interest and proposing to drill a coalbed methane gas well, the Secretary of the Interior shall hold a hearing to consider the application for pooling and shall, if the criteria of this section are met, issue an order allowing the proposed pooling of acreage within the designated spacing unit for purposes of drilling and production of coalbed methane from the spacing unit. The pooling order shall not be issued before notice or a reasonable and diligent effort to provide notice has been made to each entity which may claim an ownership interest in the coalbed methane gas within such spacing unit and each such entity has been offered an opportunity to appear before the Secretary of the Interior at the hearing. Upon issuance of a pooling order, each owner or claimant of an ownership interest shall be allowed to make one of the following elections:

(1) An election to sell or lease its coalbed methane ownership interest to the unit operator at a rate determined by the Secretary of the Interior as set forth in the pooling order.

(2) An election to become a participating working interest owner by bearing a share of the risks and costs of drilling, completing, equipping, gathering, operating (including all disposal costs), plugging and abandoning the well, and receiving a share of production from the well.

(3) An election to share in the operation of the well as a nonparticipating working interest owner by relinquishing its working interest to participating working interest owners until the proceeds allocable to its share equal

300 percent of the share of such costs allocable to its interest. Thereafter, the nonparticipating working interest owner shall become a participating working interest owner.

The pooling order shall designate a unit operator who shall be authorized to drill and operate the spacing unit. The pooling order shall provide that any entity claiming an ownership interest in the coalbed methane within such spacing unit which does not make an election under the pooling order shall be deemed to have leased its coalbed methane interest to the unit operator under such terms and conditions as the pooling order may provide. No pooling order may be issued under this paragraph for any spacing unit if all entities claiming an ownership interest in the coalbed methane in the spacing unit have entered into a voluntary agreement providing for the drilling and operation of the coalbed methane gas well for the spacing unit.

(h) Escrow account

(1) Each pooling order issued under subsection (g) of this section shall provide for the establishment of an escrow account into which the payment of costs and proceeds attributable to the conflicting interests shall be deposited and held for the interest of the claimants as follows:

(A) Each participating working interest owner, except for the unit operator, shall deposit in the escrow account its proportionate share of the costs allocable to the ownership interest claimed by each such participating working interest owner as set forth in the pooling order issued by the Secretary of the Interior.

(B) The unit operator shall deposit in the escrow account all proceeds attributable to the conflicting interests of lessees, plus all proceeds in excess of ongoing operational expenses (including reasonable overhead costs) attributable to conflicting working interests.

(2) The Secretary of the Interior shall order payment of principal and accrued interest from the escrow account to all legally entitled entities within 30 days of receipt by the Secretary of the Interior of notification of the final legal determination of entitlement or upon agreement of all entities claiming an ownership interest in the coalbed methane gas. Upon such final determination—

(A) each legally entitled participating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest;

(B) each legally entitled nonparticipating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest, less the cost of being carried as a nonparticipating working interest owner (as determined by the election of the entity under the applicable pooling order);

(C) each entity leasing (or deemed to have leased) its coalbed methane ownership interest to the unit operator shall receive a share of the royalty proceeds (as set out in the applicable pooling order) attributable to the conflicting interests of lessees; and

(D) the unit operator shall receive the costs contributed to the escrow account by each le-

gally entitled participating working interest owner.

The Secretary of the Interior shall enact rules and regulations for the administration and protection of funds delivered to the escrow accounts.

(i) Approval of Secretary of the Interior

No entity may drill any well for the production of coalbed methane gas from a coal seam, subject to the provisions of subsection (g) of this section, in an Affected State unless the drilling of such well has been approved by the Secretary of the Interior.

(j) Authorization to stimulate coal seam

(1) No operator of a coalbed methane well may stimulate a coal seam without the written consent of each entity which, at the time that the coalbed methane operator applies for a drilling permit, is operating a coal mine, or has by virtue of his property rights in the coal the ability to operate a coal mine, located within a horizontal or vertical distance from the point of stimulation as established by the Secretary of the Interior pursuant to paragraph (3) of this subsection. In seeking the coal operator's consent, a coalbed methane well operator shall provide the coal operator with necessary information about such stimulation, including relevant information to ensure compliance with coal mine safety laws and rules.

(2) In the absence of a written consent pursuant to paragraph (1) and at the request of a coalbed methane operator, the Secretary of the Interior shall make a determination regarding stimulation of a coal seam. Such request shall include an affidavit which shall—

(A) state that an entity from which consent is required pursuant to paragraph (1) has refused to provide written consent;

(B) set forth in detail the efforts undertaken by the applicant to obtain such written consent;

(C) state the known reasons for the consent not being provided;

(D) set forth the conditions and compensation, if any, offered by the applicant as part of the efforts to obtain consent; and

(E) provide prima facie evidence that the method of stimulation proposed by the coalbed methane operator will not (i) cause unreasonable loss or damage to the coal seam considering all factors, including the prospect, taking into consideration the economics of the coal industry, that coal seams for which no actual or proposed mining plans exist will be mined at some future date, or (ii) violate mine safety requirements. If a denial of consent by a coal operator is based on reasons related to safety, the Secretary of the Interior shall seek the views and recommendations of the appropriate State or Federal coal mine safety agency. Any determination by the Secretary of the Interior shall be in accordance with all applicable Federal and State coal mine safety laws and such views and recommendations. A determination by the Secretary of the Interior approving a method of stimulation may include reasonable conditions including, but not limited to, conditions to mitigate, to the extent practicable,

economic damage to the coal seam. Any determination approving or denying a method of stimulation by the Secretary of the Interior shall be subject to appeal. Interested entities shall be allowed to participate in and comment on proceedings under this paragraph.

(3) The Secretary of the Interior shall by rule establish, for an Affected State, a region thereof, or a multi-State region comprised of Affected States, the boundaries within which a coalbed methane operator shall be required to obtain written consent from a coal operator pursuant to paragraph (1). Such boundaries shall be stated in terms of a horizontal and a vertical distance from the point of stimulation and shall be determined based on an evaluation of the maximum length, height and depth of fracture producible in a coal seam in such Affected State, region thereof, or multi-State region comprised of Affected States.

(4) The consent required under this subsection shall in no way be deemed to impair, abridge, or affect any contractual rights or objections arising out of a coalbed methane gas contract or coalbed methane gas lease in existence as of October 24, 1992,¹ between the coalbed methane operator and the coal operator, and the existence of such lease or contractual agreement and any extensions or renewals of such lease shall be deemed to fully meet the requirements of this section.

(5) Nothing in this subsection precludes either a coal operator or a coalbed methane operator from seeking in the appropriate State forum compensation for the consequences of a determination by the Secretary of the Interior pursuant to paragraph (2).

(k) Notice and objection

(1) The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless the unit operator has notified each entity which is operating, or has the ability, by virtue of his property rights in the coal, to operate, a coal mine in any portion of the coalbed that would be affected by such well within the distances established pursuant to the rules promulgated under subsection (j)(3) of this section. Any notified entity may object to the drilling of such well within 30 days after receipt of a notice. Upon receipt of a timely objection to the drilling of any coalbed methane gas well submitted by a notified entity, the Secretary of the Interior may refuse to approve the drilling of the well based on any of the following:

(A) The proposed activity, due to its proximity to any coal mine opening, shaft, underground workings, or to any proposed extension of the coal mine, would adversely affect any operating, inactive or abandoned coal mine, including any coal mine already surveyed and platted but not yet being operated.

(B) The proposed activity would not conform with a coal operator's development plan for an existing or proposed operation.

(C) There would be an unreasonable interference from the proposed activity with present or future coal mining operations, including the ability to comply with other applicable laws and regulations.

(D) The presence of evidence indicating that the proposed drilling activities would be unsafe, taking into consideration the dangers from creeps, squeezes or other disturbances due to the extraction of coal.

(E) The proposed activity would unreasonably interfere with the safe recovery of coal, oil and gas.

(2) In the event the Secretary of the Interior does not approve the drilling of a coalbed methane well pursuant to paragraph (1), the Secretary of the Interior shall consider whether such drilling could be approved if the unit operator modifies the proposed activities to take into account any of the following:

(A) The proposed activity could instead be reasonably done through an existing or planned pillar of coal, or in close proximity to an existing well or such pillar of coal, taking into consideration surface topography.

(B) The proposed activity could instead be moved to a mined-out area, below the coal outcrop or to some other feasible area.

(C) The unit operator agrees to a drilling moratorium of not more than two years in order to permit completion of coal mining operations.

(D) The practicality of locating the proposed spacing unit or well on a uniform pattern with other spacing units or wells.

(l) Plugging

All coalbed methane wells drilled after October 24, 1992, that penetrate coal seams with remaining reserves shall provide for subsequent safe mining through the well in accordance with standards prescribed by the Secretary of the Interior, in consultation with any Federal and State agencies having authority over coal mine safety. Well plugging costs should be allocated in accordance with State law or private contractual arrangement, as the case may be.

(m) Notice and objection by other parties

The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless such well complies with the spacing and other requirements established by the Secretary of the Interior and each of the following:

(1) The unit operator of such well has notified, or has made a reasonable and diligent effort to notify, all entities claiming ownership of coalbed methane to be drained by such well and provided an opportunity to object in accordance with requirements established by the Secretary of the Interior.

(2) Where conflicting interests exist, an order under subsection (g) of this section establishing pooling requirements has been issued.

The notification requirements of this subsection shall be additional to the notification referred to in subsection (k) of this section. The Secretary of the Interior shall establish the conditions under which entities claiming ownership of coalbed methane may object to the drilling of a coalbed methane well.

(n) Venting for safety

Nothing in this section shall be construed to prevent or inhibit the entity which has the right

¹ See Codification note below.

to develop and mine coal in any mine from venting coalbed methane gas to ensure safe mine operations.

(o) Other laws

The Secretary of the Interior shall comply with all applicable Federal and State coal mine safety laws and regulations.

(p) Definitions

As used in this section—

(1) The term “Affected State” means a State listed by the Secretary of the Interior, with the participation of the Secretary of Energy, under subsection (b) of this section.

(2) The term “coalbed methane gas” means occluded natural gas produced (or which may be produced) from coalbeds and rock strata associated therewith.

(3) The term “unit operator” means the entity designated in a pooling order to develop a spacing unit by the drilling of one or more wells on the unit.

(4) The term “nonparticipating working interest owner” means a gas or oil owner of a tract included in a spacing unit which elects to share in the operation of the well on a carried basis by agreeing to have its proportionate share of the costs allocable to its interest charged against its share of production of the well in accordance with subsection (f)(3) of this section.

(5) The term “participating working interest owner” means a gas or oil owner which elects to bear a share of the risks and costs of drilling, completing, equipping, gathering, operating (including any and all disposal costs)² plugging, and abandoning a well on a spacing unit and to receive a share of production from the well equal to the proportion which the acreage in the spacing unit it owns or holds under lease bears to the total acreage of the spacing unit.

(6) The term “coal seam” means any stratum of coal 20 inches or more in thickness, unless a stratum of less thickness is being commercially worked, or can in the judgment of the Secretary of the Interior foreseeably³ be commercially worked and will require protection if wells are being drilled through it.

§ 13369. Establishment of data base and study of transportation rates

(a) Data base

The Secretary shall review the information currently collected by the Federal Government and shall determine whether information on transportation rates for rail and pipeline transport of domestic coal, oil, and gas during the period of January 1, 1988, through December 31, 1997, is reasonably available. If he determines that such information is not reasonably available, the Secretary shall establish a data base containing, to the maximum extent practicable, information on all such rates. The confidentiality of contract rates shall be preserved. To obtain data pertaining to rail contract rates, the Secretary shall acquire such data in aggregate form only from the Surface Transportation Board, under terms and conditions that maintain the confidentiality of such rates.

(b) Study

The Energy Information Administration shall determine the extent to which any agency of the Federal Government is studying the rates and distribution patterns of domestic coal, oil, and gas to determine the impact of the Clean Air Act [42 U.S.C. 7401 et seq.] as amended by the Act entitled “An Act to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes.”, enacted November 15, 1990 (Public Law 101-549), and other Federal policies on such rates and distribution patterns. If the Energy Information Administration finds that no such study is underway, or that reports of the results of such study will not be available to the Congress providing the information specified in this subsection and subsection (a) of this section by the dates established in subsection (c) of this section, the Energy Information Administration shall initiate such a study.

(c) Reports to Congress

Within one year after October 24, 1992, the Secretary shall report to the Congress on the determination the Energy Information Administration is required to make under subsection (b) of this section. Within three years after October 24, 1992, the Secretary shall submit reports on any data base or study developed under this section. Any such reports shall be updated and resubmitted to the Congress within eight years after October 24, 1992. If the Energy Information Administration has determined pursuant to subsection (b) of this section that another study or studies will provide all or part of the information called for in this section, the Secretary shall transmit the results of that study by the dates established in this subsection, together with his comments.

(d) Consultation with other agencies

The Secretary and the Energy Information Administration shall consult with the Chairmen of the Federal Energy Regulatory Commission and the Surface Transportation Board in implementing this section.

§ 13555. Consultative Commission on Western Hemisphere Energy and Environment

(a) Findings

The Congress finds that—

(1) there is growing mutual economic interdependence among the countries of the Western Hemisphere;

(2) energy and environmental issues are intrinsically linked and must be considered together when formulating policy on the broader issue of sustainable economic development for the Western Hemisphere as a whole;

(3) when developing their respective energy infrastructures, countries in the Western Hemisphere must consider existing and emerging environmental constraints, and do so in a way that results in sustainable long-term economic growth;

(4) the coordination of respective national energy and environmental policies of the governments of the Western Hemisphere could be substantially improved through regular consultation among these countries;

(5) the development, production and consumption of energy can affect environmental quality, and the environmental consequences of energy-related activities are not confined within national boundaries, but are regional and global in scope;

(6) although the Western Hemisphere is richly endowed with indigenous energy resources, an insufficient energy supply would severely constrain future opportunities for sustainable economic development and growth in each of these member countries; and

(7) the energy markets of the United States are linked with those in other countries of the Western Hemisphere and the world.

(b) "Commission" defined

For purposes of this section, the term "Commission" means the Consultative Commission on Western Hemisphere Energy and Environment.

(c) Negotiations

The President is authorized to direct the United States representative to the Organization of American States to initiate negotiations with the Organization of American States for the establishment of a Consultative Commission

on Western Hemisphere Energy and Environment under the auspices of the Organization of American States.

(d) The Commission

In the course of the negotiations, the following shall be pursued:

(1) Objectives

The objectives of the Commission shall be—

(A) to evaluate from the viewpoint of the Western Hemisphere as a whole the energy and environmental situations, trends, and policies of the countries of the participating governments necessary to support sustainable economic development;

(B) to recommend to the participating governments actions, policies, and institutional arrangements that will enhance cooperation and policy coordination among their respective countries in the future development and use of indigenous energy resources and technologies, and in the future development and implementation of measures to protect the environment of the Western Hemisphere; and

(C) to recommend to the participating governments actions and policies that will enhance energy and environmental cooperation and coordination among the countries of the Western Hemisphere and the world.

(2) Composition of Commission

The Commission shall include representatives of—

(A) the respective foreign energy and environmental ministries or departments of the participating governments;

(B) the parliamentary or legislative bodies with legislative responsibilities for energy and environmental matters; and

(C) other governmental and non-governmental observers appointed by the heads of each participating government on the basis of their experience and expertise.

(3) Secretariat

A small secretariat shall be chosen by the participating governments for their expertise in the areas of energy and the environment.

(4) Sunset provision

The Commission's authority—

(A) shall terminate five years from the date of the agreement under which it was created; and

(B) may be extended for a five-year term at the expiration of the previous term by agreement of the participating governments.

(e) Report

The President shall, within one year after October 24, 1992, report to the Committee on Energy and Commerce and the Committee on Foreign Affairs of the House of Representatives, and to the Committee on Energy and Natural Resources and the Committee on Foreign Relations of the Senate, on the progress toward the establishment of the Commission and achievement of the purposes of this section.

SUBCHAPTER V—SAFETY AND SECURITY
IN PUBLIC AND ASSISTED HOUSING

§ 13661. Screening of applicants for federally assisted housing

(a) **Ineligibility because of eviction for drug crimes**

Any tenant evicted from federally assisted housing by reason of drug-related criminal activity (as such term is defined in section 1437a(b) of this title) shall not be eligible for federally

assisted housing during the 3-year period beginning on the date of such eviction, unless the evicted tenant successfully completes a rehabilitation program approved by the public housing agency (which shall include a waiver of this subsection if the circumstances leading to eviction no longer exist).

(b) Ineligibility of illegal drug users and alcohol abusers

(1) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing, as determined by the Secretary, shall establish standards that prohibit admission to the program or admission to federally assisted housing for any household with a member—

(A) who the public housing agency or owner determines is illegally using a controlled substance; or

(B) with respect to whom the public housing agency or owner determines that it has reasonable cause to believe that such household member's illegal use (or pattern of illegal use) of a controlled substance, or abuse (or pattern of abuse) of alcohol, may interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(2) Consideration of rehabilitation

In determining whether, pursuant to paragraph (1)(B), to deny admission to the program or federally assisted housing to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(A) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(B) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(C) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

(c) Authority to deny admission to criminal offenders

Except as provided in subsections (a) and (b) of this section and in addition to any other authority to screen applicants, in selecting among applicants for admission to the program or to federally assisted housing, if the public housing agency or owner of such housing (as applicable) determines that an applicant or any member of the applicant's household is or was, during a reasonable time preceding the date when the applicant household would otherwise be selected for admission, engaged in any drug-related or violent criminal activity or other criminal activity which would adversely affect the health, safety, or right to peaceful enjoyment of the premises by other residents, the owner, or public

housing agency employees, the public housing agency or owner may—

(1) deny such applicant admission to the program or to federally assisted housing; and

(2) after the expiration of the reasonable period beginning upon such activity, require the applicant, as a condition of admission to the program or to federally assisted housing, to submit to the public housing agency or owner evidence sufficient (as the Secretary shall by regulation provide) to ensure that the individual or individuals in the applicant's household who engaged in criminal activity for which denial was made under paragraph (1) have not engaged in any criminal activity during such reasonable period.

§ 13662. Termination of tenancy and assistance for illegal drug users and alcohol abusers in federally assisted housing

(a) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing (as applicable), shall establish standards or lease provisions for continued assistance or occupancy in federally assisted housing that allow the agency or owner (as applicable) to terminate the tenancy or assistance for any household with a member—

(1) who the public housing agency or owner determines is illegally using a controlled substance; or

(2) whose illegal use (or pattern of illegal use) of a controlled substance, or whose abuse (or pattern of abuse) of alcohol, is determined by the public housing agency or owner to interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(b) Consideration of rehabilitation

In determining whether, pursuant to subsection (a)(2) of this section, to terminate tenancy or assistance to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(1) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

§ 13663. Ineligibility of dangerous sex offenders for admission to public housing

(a) In general

Notwithstanding any other provision of law, an owner of federally assisted housing shall prohibit admission to such housing for any household that includes any individual who is subject to a lifetime registration requirement under a State sex offender registration program.

(b) Obtaining information

As provided in regulations issued by the Secretary to carry out this section—

(1) a public housing agency shall carry out criminal history background checks on applicants for federally assisted housing and make further inquiry with State and local agencies as necessary to determine whether an applicant for federally assisted housing is subject to a lifetime registration requirement under a State sex offender registration program; and

(2) State and local agencies responsible for the collection or maintenance of criminal history record information or information on persons required to register as sex offenders shall comply with requests of public housing agencies for information pursuant to this section.

(c) Requests by owners for PHAs to obtain information

A public housing agency may take any action under subsection (b) of this section regarding applicants for, or tenants of, federally assisted housing other than federally assisted housing described in subparagraph (A) or (B) of section 13664(a)(2) of this title, but only if the housing is located within the jurisdiction of the agency and the owner of such housing has requested that the agency take such action on behalf of the owner. Upon such a request by the owner, the agency shall take the action requested under subsection (b) of this section. The agency may not make any information obtained pursuant to the action under subsection (b) of this section available to the owner but shall perform determinations for the owner regarding screening, lease enforcement, and eviction based on criteria supplied by the owner.

(d) Opportunity to dispute

Before an adverse action is taken with respect to an applicant for federally assisted housing on the basis that an individual is subject to a life-

time registration requirement under a State sex offender registration program, the public housing agency obtaining the record shall provide the tenant or applicant with a copy of the registration information and an opportunity to dispute the accuracy and relevance of that information.

(e) Fee

A public housing agency may be charged a reasonable fee for taking actions under subsection (b) of this section. In the case of a public housing agency taking actions on behalf of another owner of federally assisted housing pursuant to subsection (c) of this section, the agency may pass such fee on to the owner making the request and may charge an additional reasonable fee for making the request on behalf of the owner.

(f) Records management

Each public housing agency shall establish and implement a system of records management that ensures that any criminal record or information regarding a lifetime registration requirement under a State sex offender registration program that is obtained under this section by the public housing agency is—

(1) maintained confidentially;

(2) not misused or improperly disseminated; and

(3) destroyed, once the purpose for which the record was requested has been accomplished.

(a) Study of suitable bases

The Secretary of Defense and the Attorney General shall jointly conduct a study of all mili-

tary installations selected before September 13, 1994, to be closed pursuant to a base closure law for the purpose of evaluating the suitability of any of these installations, or portions of these installations, for conversion into Federal prison facilities. As part of the study, the Secretary and the Attorney General shall identify the military installations so evaluated that are most suitable for conversion into Federal prison facilities.

(b) Suitability for conversion

In evaluating the suitability of a military installation for conversion into a Federal prison facility, the Secretary of Defense and the Attorney General shall consider the estimated cost to convert the installation into a prison facility and such other factors as the Secretary and the Attorney General consider to be appropriate.

(c) Time for study

The study required by subsection (a) of this section shall be completed not later than the date that is 180 days after September 13, 1994.

(d) Construction of Federal prisons

(1) In general

In determining where to locate any new Federal prison facility, and in accordance with the Department of Justice's duty to review and identify a use for any portion of an installation closed pursuant to title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526) and the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510), the Attorney General shall—

(A) consider whether using any portion of a military installation closed or scheduled to be closed in the region pursuant to a base closure law provides a cost-effective alternative to the purchase of real property or construction of new prison facilities;

(B) consider whether such use is consistent with a reutilization and redevelopment plan; and

(C) give consideration to any installation located in a rural area the closure of which will have a substantial adverse impact on the economy of the local communities and on the ability of the communities to sustain an economic recovery from such closure.

(2) Consent

With regard to paragraph (1)(B), consent must be obtained from the local re-use authority for the military installation, recognized and funded by the Secretary of Defense, before the Attorney General may proceed with plans for the design or construction of a prison at the installation.

(3) Report on basis of decision

Before proceeding with plans for the design or construction of a Federal prison, the Attorney General shall submit to Congress a report explaining the basis of the decision on where to locate the new prison facility.

(4) Report on cost-effectiveness

If the Attorney General decides not to utilize any portion of a closed military installa-

tion or an installation scheduled to be closed for locating a prison, the report shall include an analysis of why installations in the region, the use of which as a prison would be consistent with a reutilization and redevelopment plan, does not provide a cost-effective alternative to the purchase of real property or construction of new prison facilities.

(e) “Base closure law” defined

In this section, “base closure law” means—

(1) the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note); and

§ 13726. Findings

Congress finds the following:

(1) Increasingly, States are turning to private prisoner transport companies as an alternative to their own personnel or the United States Marshals Service when transporting violent prisoners.

(2) The transport process can last for days if not weeks, as violent prisoners are dropped off and picked up at a network of hubs across the country.

(3) Escapes by violent prisoners during transport by private prisoner transport companies have occurred.

(4) Oversight by the Attorney General is required to address these problems.

(5) While most governmental entities may prefer to use, and will continue to use, fully trained and sworn law enforcement officers when transporting violent prisoners, fiscal or logistical concerns may make the use of highly specialized private prisoner transport companies an option. Nothing in sections 13726 to 13726c of this title should be construed to mean that governmental entities should contract with private prisoner transport companies to move violent prisoners; however when a government entity opts to use a private prisoner transport company to move violent prisoners, then the company should be subject to regulation in order to enhance public safety.

(b) Standards and requirements

The regulations shall include the following:

(1) Minimum standards for background checks and preemployment drug testing for potential employees, including requiring criminal background checks, to disqualify persons with a felony conviction or domestic violence conviction as defined by section 921 of title 18 for eligibility for employment. (7) Minimum requirements for the restraints that must be used when transporting violent prisoners, to include leg shackles and double-locked handcuffs, when appropriate.

(8) A requirement that when transporting violent prisoners, private prisoner transport companies notify local law enforcement officials 24 hours in advance of any scheduled stops in their jurisdiction.

(9) A requirement that in the event of an escape by a violent prisoner, private prisoner transport company officials shall immediately notify appropriate law enforcement officials in the jurisdiction where the escape occurs, and the governmental entity that contracted with the private prisoner transport company for the transport of the escaped violent prisoner.

(10) Minimum standards for the safety of violent prisoners in accordance with applicable Federal and State law.

NATIONAL POLICE ATHLETIC/ACTIVITIES LEAGUE YOUTH ENRICHMENT

Pub. L. 106-367, Oct. 27, 2000, 114 Stat. 1412, as amended by Pub. L. 109-248, title VI, §§612-617, July 27, 2006, 120 Stat. 632, 633, provided that:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘National Police Athletic/Activities League Youth Enrichment Act of 2000’.

“SEC. 2. FINDINGS.

“Congress makes the following findings:

“(1) The goals of the Police Athletic/Activities League are to—

“(A) increase the academic success of youth participants in PAL programs;

“(B) promote a safe, healthy environment for youth under the supervision of law enforcement personnel where mutual trust and respect can be built;

“(C) develop life enhancing character and leadership skills in young people;

“(D) increase school attendance by providing alternatives to suspensions and expulsions;

“(E) reduce the juvenile crime rate in participating designated communities and the number of police calls involving juveniles during nonschool hours;

“(F) provide youths with alternatives to drugs, alcohol, tobacco, and gang activity;

“(G) create positive communications and interaction between youth and law enforcement personnel; and

“(H) prepare youth for the workplace.

“(2) The Police Athletic/Activities League, during its 90-year history as a national organization, has proven to be a positive force in the communities it serves.

“(3) The Police Athletic/Activities League is a network of 1,700 facilities serving over 3,000 communities. There are 350 PAL chapters throughout the United States, the Virgin Islands, and the Commonwealth of Puerto Rico, serving 2,000,000 youth, ages 5 to 18, nationwide.

“(4) Based on PAL chapter demographics, approximately 85 percent of the youths who benefit from PAL programs live in inner cities and urban areas.

“(5) PAL chapters are locally operated, volunteer-driven organizations. Although most PAL chapters are sponsored by a law enforcement agency, PAL chapters rarely receive direct funding from law enforcement agencies and are dependent in large part on support from the private sector, such as individuals, business leaders, corporations, and foundations. PAL chapters have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement.

“(6) Today’s youth face far greater risks than did their parents and grandparents. Law enforcement statistics demonstrate that youth between the ages of 12 and 18 are at risk of committing violent acts and being victims of violent acts between the hours of 3 p.m. and 8 p.m.

“(7) Greater numbers of students are dropping out of school and failing in school, even though the consequences of academic failure are more dire in 2005 than ever before.

“(8) Many distressed areas in the United States are still underserved by PAL chapters.

“SEC. 3. PURPOSE.

“The purpose of this Act is to provide adequate resources in the form of—

“(1) assistance for the 342 established PAL chapters to increase of services to the communities they are serving;

“(2) seed money for the establishment of 250 (50 per year over a 5-year period) additional local PAL chapters in public housing projects and other distressed areas, including distressed areas with a majority population of Native Americans, by not later than fiscal year 2010; and

“(3) support of an annual gathering of PAL chapters and designated youth leaders from such chapters to participate in a 3-day conference that addresses national and local issues impacting the youth of America and includes educational sessions to advance character and leadership skills.

“SEC. 4. DEFINITIONS.

“(2) DISTRESSED AREA.—The term ‘distressed area’ means an urban, suburban, or rural area with a high percentage of high-risk youth, as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa-8(f)) [now 42 U.S.C. 290bb-23(g)].
